C. J. STEVENSON-MOORE,
Chief Secy. to the Govt. of Bengal

NOTIFICATION.

No. 2489A.—The 23rd May 1911.—The following amended rules for the appointment of Deputy Superintendents of Police are published for general information:—

RULES FOR THE APPOINTMENT OF DEPUTY SUPERINTENDENTS OF POLICE.

1. Deputy Superintendents of Police will ordinarily be appointed from the following classes in such order as to secure that half of the total number of appointments will be held by each class:—

(*a*) Candidates for direct appointment; and
(*b*) Inspectors of Police.

2. Candidates for direct appointment must be statutory natives of India as defined in section 6, Statute 33 Victoria, Chapter 3. A candidate for appointment direct must also possess the following qualifications:—

(*a*) He must not be less than 20 nor more than 25 years of age.
(*b*) He must be of good character.
(*c*) He must be a graduate.
(*d*) He must be of sound health, good physique and active habits and free from any organic defect or bodily infirmity.

3. The selection of candidates for appointment direct will be regulated as follows :—

(1) On the occurrence of any vacancy to be filled by direct appointment, the Lieutenant-Governor in Council may call on all or any of the Commissioners of Divisions to submit the name of one candidate by a certain date. Each Commissioner shall call on each of his district officers to submit the names of two candidates belonging to good families resident or domiciled in his district, and from among candidates so recommended, the Commissioner shall make his selection in consultation with the District Officers. A notice will be published at the same time in the *Calcutta Gazette*, stating the divisions from which nominations will be made and the date by which applications must reach the district officers.

(2) The Commissioner will submit with his nomination an explanation of the grounds on which his recommendation is made, and also—

(*a*) a statement in form A appended to these rules ;
(*b*) a certificate of the Registrar of the University that the candidate has obtained a degree ;
(*c*) a certificate of character and conduct from the Principal of the Institution at which the candidate last studied for not less than a year or from some responsible officer of Government ;
(*d*) a medical certificate in original in accordance with the requirements of Article 49 of the Civil Service Regulations ; and
(*e*) evidence of the candidate's age.

(3) Government will ordinarily select from candidates thus nominated the number required to fill the appointments set aside for this class of candidates. The Lieutenant-Governor in Council, however, reserves to himself the right, for special reasons, to appoint any person whom he may consider specially fit even though he has not been recommended by a Commissioner and does not possess all the qualifications mentioned in Rule 2.

4. The promotion of Inspectors to the rank of Deputy Superintendent will be made by Government on the recommendation of the Inspector-General of Police.

5. Newly appointed Deputy Superintendents will ordinarily be placed in the lowest grade. In the event of two or more Deputy Superintendents being appointed on the same date, the order of their seniority will be determined by Government.

6. Deputy Superintendents other than promoted Inspectors will be required to attend a course of instruction at the Provincial Training School, which will ordinarily extend over a period of 18 months, and to pass the departmental and school examinations prescribed for Assistant Superintendents of Police. Deputy Superintendents appointed direct, while at the school, will be given an allowance of Rs 100 per mensem in lieu of their grade pay which they will not draw until posted to a district.

7. All Deputy Superintendents will be on probation for two years. At the end of that period, if favourably reported on and if they have passed the prescribed examinations, they will be confirmed. If a probationer fail to pass the examinations within the period prescribed, or if he be unfavourably reported on, he is liable to be removed from the Department. In special cases, however, where he has failed in the examinations by a few marks only, or where, owing to the exigencies of the service, his studies have been interfered with, his period of probation may be extended for another twelve months.

8. Promotion from grade to grade will be made by the Government on the recommendations of the Inspector-General of Police. Promotion will be awarded strictly by selection according to merit.

FORM A.

F. L. HALLIDAY, *Commissioner of Police.*

The 23rd May 1911.

DRAFT RULES FOR THE PURPOSE OF PREVENTING OBSTRUCTIONS, ETC., IN THOROUGHFARES IN CALCUTTA AND ITS SUBURBS.

The following draft of rules which, with the previous sanction of the Lieutenant-Governor in Council, the Commissioner of Police intends to make under section 39 of the Calcutta Suburban Police Act, 1866 (Bengal Act II of 1866) and section 62 of the Calcutta Police Act, 1866 (Bengal Act IV of 1866), for the streets and public places of the town and suburbs of Calcutta, is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 24th June 1911, and any objection or suggestion received by the undersigned before that date will be duly considered.

DRAFT RULES.

1. No person, being in charge of any vehicle or cattle in any street or public place, shall leave such vehicle or cattle at such a distance from him as will prevent him from exercising due control in respect thereof.

2. No person shall keep any vehicle standing in any street or public place longer than may be necessary for loading or unloading, except at places lawfully appointed for the purpose: and no person shall leave any vehicle or fasten up any cattle in any street or public place so as to cause any obstruction therein.

3 No person shall lead or ride any cattle or draw drive or ride any vehicle upon any footway; and no person shall fasten up any cattle in such a way as to make it possible for such cattle to stand across, or on any footway.

4. No person shall play any music, or beat a drum or tom-tom, or blow a horn or trumpet, or beat or sound any brass or metal instrument or utensil in any street or public place other than a public building and the precints thereof, except under a license to be granted by the Commissioner of Police in this behalf, and subject to such conditions as the Commissioner of Police may impose under such license with a view to prevent obstruction, inconvenience or annoyance to residents in, or passengers in the vicinity of, any such street or public place.

F. L. HALLIDAY,
Commissioner of Police, Calcutta.

IRRIGATION DEPARTMENT.

The 23rd May 1911.

No. 5.—Notification.—Whereas it appears to the Lieutenant-Governor in Council that injury to the public convenience has arisen, and that further such injury is likely to arise, from the obstruction of that portion of the Bara Alanka river between Mauza Sahara, Pargana Harishpur and the point where it falls into the Patuli river in Mauza Sahapat, Killa Harishpur, measuring in length 26, 60 feet, by the erection therein of a cross bund at Mauza Goleswarpur and Barimul, Killa Harishpur, belonging to Kumar Hrishi Kesh Laha and Bhagaban Sahu:

Now, therefore, the Lieutenant-Governor in Council, in exercise of the power conferred by section 40 of the Bengal Irrigation Act, 1876 (Ben Act III of 1876), orders the removal of the said cross bund, and prohibits the formation, without proper authority, of any such obstruction in that length of the Bara Alanka river measuring 26,300 feet.

[Second publication.]

The 15th May 1911.

No. 4.—Notification.—The following draft of a notification which the Lieutenant-Governor in Council intends to issue under sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act, III of 1876), for the Sone Canals, is published for the information of persons likely to be affected thereby.

The draft will be taken into consideration on the 1st July 1911, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

T. BUTLER,
Secy. to the Govt. of Bengal.

Draft Notification.

In exercise of the powers conferred by sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act, III of 1876), and in supersession of all previous notifications under those sections for the Sone Canals [except Notification No. 148, dated the 20th June 1881, published at page 637 of Part I of the *Calcutta Gazette* of the 22nd June 1881, which shall remain in force for the purposes of rule 71 (*g*) annexed to the present notification], the Lieutenant-Governor in Council is pleased to make the following rules for the Sone Canals.

GENERAL CONDITIONS

1. The Collector, before awarding compensation under section 16 or 76 (*c*) or making a reference under section 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of proceedings.

2. Except as provided in Act III (B.C.) of 1876 (the Irrigation Act) and these rules, no appeal shall lie from any order passed by a Canal Officer or the Special Deputy Collector in charge of the Revenue Division of the Sone Canals who has been vested with the powers of a Collector under the aforesaid Act. The Sub-Divisional Canal Officer, however, shall modify any order passed by him in accordance with the orders of the Divisional Canal Officer. The Sub-Divisional and the Divisional Canal Officers and the Special Deputy Collector in charge of the Revenue Division of the Sone Canals, shall modify any orders passed by them in accordance with the orders of the Superintending Canal Officer. The Superintending Canal Officer is empowered, and expected, to exercise a general control over the proceedings of all Canal Officers and of the Special Deputy Collector, the Sub-Deputy Collectors, and all other officers attached to the above-mentioned Revenue Division of the Sone Canals.

3. It will be the duty of the Superintending Canal Officer to issue orders on the following points:—

I.—The limits within which water will be available during the *kharif* season—(*a*) for annual leases; (*b*) for leases for a term of years.

II.—The distributaries from which water will be supplied during the hot season.

III.—The distributaries from which water will only be supplied during the *rabi* season at the rate (*see* Schedule III) ordinarily charged.

IV.—On sufficient cause being shown, to prohibit the issue of permits for the irrigation of land in specified localities generally or during the *kharif* season only.

Such public notice as is practicable will be given of the instructions under this rule as long as is possible before they are enforced.

4. Appeals to the Collector under section 91 of the Act, other than those specially provided for in rule 37, will ordinarily be from an order passed by the Divisional Canal Officer. The Collector may, when the order passed involves (I) the alignment of a village channel, (II) the refusal of the Divisional Canal Officer to accept a block as suitable for the issue of a permit for *kharif* irrigation, require the Superintending Canal Officer to state his opinion in writing, which shall form part of the record of proceedings in the case.

ON VILLAGE CHANNELS.

5. The Canal Officer shall prepare a list of channels which, previous to the 1st of April 1891, have been ordinarily used as village channels, and enter them in a register prepared in the manner prescribed in Part V of the Act.

6. A village channel which was constructed after the 1st of April 1891, or which had not ordinarily been used as a village channel before that date, shall not be entered in the register except at the written request of the owners of it. Water shall not be supplied for irrigation during the *kharif* season through any channel other than one which has been entered in the register.

7. Village channels which may be constructed in future shall not as a rule exceed one mile in length; the length being measured in a straight line from the outlet to the boundary of the part of the village which the channel is intended to irrigate.

8. The sum fixed by the Canal Officer as rent under section 68 of the Act shall not be less than half an anna, and shall not exceed four annas per bigha assessed with water-rate.

ON LAMBARDARS.

9. In every permit issued under section 75 of the Act other than those issued under rules 18 or 19 following, the name of one or more persons shall be entered as *lambardar*, who will be responsible for discharging the duties mentioned below :—

I.—Obtaining signatures to applications and certifying to the correctness of the same.

II.—Attending and giving assistance in measuring land irrigated or proposed to be irrigated.

III.—Giving timely information to the Canal Officer or subordinate of any insufficiency in the supply of water and promptly reporting when the irrigation of the leased area on any channel is complete.

IV.—Supervising the distribution of the water supplied through an outlet amongst the persons entitled thereto and reporting any misuse of the same.

V.—Being present when complaints are investigated by a Canal Officer or subordinate, and giving information required in connection with the same

VI.—Receiving *parchas* from the Canal Officer and distributing the same amongst the persons named therein.

VII.—Reporting before the 20th of October all cases in which crops have been injured by deficiency or irregularity of supply in the *kharif* season, so that these cases may be investigated before water-rates are demanded.

VIII.—Reporting to the Collector or to such officer as he may appoint mutations in holdings in the case of leases for a term of years.

IX.—Assisting the Collector by generally helping the collecting staff in the collection of water-rates.

(*See* also Superintending Engineer's Circular No. 7 of 1895.)

10. In the case of leases for the season, the remuneration for performing the duties mentioned in clauses I to VII and IX of the rule immediately preceding shall be 2 per cent. on the assessments (excluding fractions of rupees), which shall be paid by the Canal Officer. The amount paid shall be calculated in rupees and annas only, pies being omitted.

11. In the case of leases for a term of years, other than those entered into jointly with contractors, the remuneration to be paid to the *lambardar* for performing the duties mentioned in clauses I to IX of Rule 9 shall be 3 per cent. yearly on the assessment of the year (excluding fractions of rupees), which shall be paid by the Canal Officer. The amount paid shall be calculated in rupees and annas only, pies being omitted.

12. The *lambardar* will be appointed by the Sub Divisional Officer in consultation with the applicants for the lease, and must be a substantial person having a beneficial interest in part of the land to be irrigated There is no objection to different *lambardars* being appointed to represent sections of the applicants, or to a number of persons being jointly appointed as *lambardars* on behalf of the whole of the applicants. In case the Sub-Divisional Canal Officer cannot agree with the applicants in the appointment of a *lambardar*, he shall nominate a *lambardar* for approval by the Divisional Canal Officer.

In those cases where an application is made by a contractor and cultivators jointly for a lease for a term of years, the *lambardar* shall be nominated by the contractor.

13. The Divisional Canal Officer may, for reasons which appear to him to be sufficient, and which must be recorded, remove a *lambardar* from his appointment, and in that case a new *lambardar* shall be appointed in the manner prescribed in the rule immediately preceding.

14. The Divisional Canal Officer may, with the consent of the *lambardar*, by a written order, of which the *lambardar* shall be furnished with a copy, transfer to him the duty of controlling the supply of water through an outlet, and may, at any time, by a written order, recall such order. *Lambardars* to whom such control is transferred shall exercise such power, subject to such general written orders as they may receive from the Sub-Divisional Canal Officer, and shall receive one per cent. on the assessment in addition to the percentages prescribed in Rules 10 and 11

15. The fees sanctioned to be paid to *lambardars* will only be disbursed if the duties specified have been satisfactorily performed. The Divisional Canal Officer may retrench the whole or any part of the fees payable by him in the event of this condition not being complied with. In calculating the fees payable, fractions of an anna will be excluded.

(*See* Superintending Engineer's Nos. 3126—28 of 4th July 1896 with reference to retrenchments.)

ON APPLICATIONS.

16. Applications under section 74 of the Act for permits for irrigation upon leases for a term of years (Appendix I), or upon *kharif* season leases (Appendix III), shall be subject to the following conditions :—

I.—The application must be for a block of land having well-defined boundaries and so situated that adjoining lands will not ordinarily or probably be irrigated by water supplied for the land included in the application.

II.—The application must be in the form annexed to these rules, which states that water-rates will be paid on all lands contained in the block for which an application is presented, whether water or no water is required.

III.—The applications may be for a term of years, or for the season only—

(a) In case of application for the season only, the issue of the permit will not necessarily be delayed until the lands have been measured. The boundaries of the block must be stated in the application, which must be signed by, or by authority of, the cultivators of all the land included in the boundaries mentioned, and the approximate area in the occupation of each on the block must be specified. Water-rates will be charged on the areas in the block as found by actual measurement. An application for a permit for the season must be filed by the 1st September, but with the Superintending Engineer's sanction an application for a season lease may be entertained up to the end of the season

(b) In the case of applications for a term of years, a permit will not be issued until the land has been measured and an application complete in every respect for all the land included in the block has been signed. All the leases within one group (a 'group' being defined as in Note II) shall be so granted as to expire on the same date. If water is required to be supplied before the application is completely signed in the manner specified above, an application for water for the season must be made, which will be cancelled on a permit for a term of years being issued

NOTE I.—Superintending Engineer's Nos. 2940—42 of 26th June 1896 directs that "if applicants for a long-term lease, which is not signed before the 15th August, decline to apply for a season lease under Rule III5 by that date, they should be informed that the long-term lease will not be granted during the year."

NOTE II.—A group is defined as consisting of a certain area of country mapped out in accordance with the features of the ground, natural or artificial.

NOTE II..—The leases granted for a term of years in a group will take effect from 1st April 1910.

(c) Notice that a permit for a term of years is required must be given by the 1st of April, but with the Superintending Engineer's special sanction the time may be extended where reasonable cause for the delay in filing the application for a long-term lease can be established. No permit will be issued unless the application is completely signed by the 30th of November, or, with the special sanction of the Superintending Canal Officer, by the 1st of March following.

NOTE.—Superintending Engineer's Nos. 1649—51, dated 13th April 1892

IV.—With the special sanction of the Superintending Canal Officer an application may be made for an addition to a lease for a term of years, which, if granted, shall be considered as part of the original lease and terminate therewith.

16A. Applications (Appendix IVC) for a single watering between 26th June and 25th October may be entertained if water is available after meeting the demand for the areas leased under a term of years or for the season. The applications will be subject to the conditions prescribed for the *rabi* and hot weather seasons: see rule 17 below.

17. Applications for irrigation in the *rabi* season, 26th October to the 25th March, and the hot weather season, 25th March to the 25th June (Appendices IVA and B), will be subject to the following conditions:—

I.—The approximate areas of land for which water is required must be stated in the application, which must be signed by the occupiers thereof. It must be stated in the application that the water-rates will be paid on the area actually irrigated

18. Applications for the sale of water by volume for purposes of irrigation will only be entertained on condition that half the amount chargeable is paid to the Sub-Divisional Canal Officer when the application is filed, and that a bond is executed in the form attached to these rules as Appendix V signed by substantial persons pledging themselves to pay such sums as will in the aggregate make up the remainder. The bond will not have reference to the area to be irrigated, but will be in consideration of a particular outlet being kept open for a specified time, and the sums mentioned therein will be recoverable on the certificate of the Canal subordinate that this condition has been fulfilled. Water will be supplied under this rule from the 1st of July to the 31st of October only.

19. Applications for the sale of water by volume for filling *aharas* will be in the form attached to these rules as Appendix VI. The entire charge will be payable in advance. Water will be supplied under this rule from the 1st of November to the 25th of March only.

ON PERMITS

20. All permits for the use of water issued under section 75 of the Act shall be subject to the following conditions:—

I.—That the water is supplied for the sole purpose of irrigating the land mentioned in the application. The term "irrigating" includes the right to drain (*nigar*)

at the proper season of the year, previous notice being given to the sectional officer that the outlet is required to be closed. Under colour of *nigaring*, however, no right is conferred to irrigate culturable land for the purpose of sowing a crop or maturing any existing crop.

II.—That water will be supplied at the level at which it is ordinarily maintained in the distributary from which water is taken off, and that no earthen bunds or other works will be constructed to raise the level of the water in the distributary. No right to flow irrigation is conferred unless existing appliances admit of it.

III.—That a *lambardar* shall be appointed in the manner specified in Rule 12 to represent the interests of the cultivators and to perform the duties mentioned in Rule 9.

IV.—That the village channel from which water is supplied is kept in a proper state of repair, so that water shall not be wasted

V.—That water-rates are paid when due.

VI.—That water supplied for the irrigation of a specified block of land shall not, under colour of the permit, be utilized for the irrigation of land beyond the boundaries specified in application.

NOTE.—Where these conditions are infringed, appropriate penalties or disabilities to the extent specified in the Act or these rules will be enforced.

21. A permit shall not be issued where, in the opinion of the Canal Officer, waste is likely to occur. In the order refusing a permit on this ground, the manner in which it is apprehended that waste will occur shall be stated.

22. Permits for irrigation upon leases for a term of years (Appendix VIII) or upon *kharif* season leases (Appendix IX) shall be issued under the following conditions :—

I.—The land to be irrigated must form a compact block defined by well-marked boundaries of such a nature as clearly to distinguish leased from the adjoining unleased lands, and to preclude the possibility in ordinary circumstances of water escaping from the boundaries without obvious wilful cutting or demolition. They must be maintained in the same state of repair during the currency of the lease as existed when the permit was granted and also be so situated that unleased lands will not be ordinarily or probably irrigated by water supplied for the land included in the block. The boundaries must be mentioned in the application for a permit for the season, and in the notice referred to in Rule 16(*c*), when a permit for a lease for a term of years is applied for.

II.—The Canal Officer may exclude lands included in the block not irrigable by flow or for which canal water is ordinarily not required. In the case of permits for a term of years, the block must be not less than 50 bighas in area. In cases where the Divisional Canal Officer considers it advisable to grant a permit to a block of less area than that mentioned above, the previous sanction of the Superintending Canal Officer must be obtained. No permit for a term of years shall be issued unless the owners of the village channel from which water is to be obtained have been registered and the channel itself is in a good state of repair; such as to fit it for the conveyance of water without wastage occurring. Such leases will not be issued unless it is known from the experience of previous years' irrigation that a sufficient supply of water is always available, and that the quantity required is not excessive.

III.—A permit for a lease for a term of years may be cancelled by the Superintending Canal Officer with effect from a date to be specified in the order for good cause on the application of all the signatories thereto.

IV.—Permits for the season will be issued under less favourable conditions as to situation, soil and quantity of water available; it will not be necessary that the owner of the channel should be registered, but the channel itself must be entered on the register.

V.—Water-rates will be levied on the areas of the blocks specified in the permits, and measurement of the areas actually irrigated will not be necessary.

22A. Permits (Appendix XI) for a single watering during the *kharif* season from 26th June to 25th October may be issued under the conditions prescribed in Rule 23 (I) (II) (III) below, if water is available after meeting the demands for the areas leased under a term of years or for the season.

23. Permits for irrigation in the *rabi* and hot weather seasons, 25th October to 25th June (Appendix X), will be issued on the following conditions :—

I.—The applicants will undertake to give the *lambardar* notice to close the outlet as soon as the area requiring irrigation has received a sufficient supply of water.

II.—The applicants will undertake, as far as is practicable, to prevent water supplied being wasted or applied to the irrigation of fields not included in the application.

III.—Water-rates will be levied on the areas actually irrigated, and not on those specified on the application.

ON DISABILITIES AND PENALTIES.

24. At the request of the Collector, the Superintending Canal Officer may direct the Divisional Canal Officer to—

I.—Cease to issue permits for the irrigation of land in villages where there have been constant difficulties in realizing water-rates until all the arrears of water-rates due are paid up, and also, if specially required, unless half the amount due for the ensuing year under future applications are paid up in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years

II.—Cancel any lease for a term of years if, after the lapse of one month from the latest date of payment, the water-rates (except such as are irrecoverable under Rule 63) are in arrears.

25. The Divisional Canal Officer may, with the concurrence of the Collector and the sanction of the Superintending Canal Officer, cancel a lease for a term of years if water is habitually misused or wasted. Such an order shall have effect from the 25th June next ensuing, and two months' notice at least must be given to the *lambardars* for the information of the cultivators.

25A. When the Divisional Canal Officer acting under section 60 strikes a channel supplying a long lease off the register, he shall, if the remaining registered channels cannot satisfactorily irrigate the block, at the same time cancel the lease, provided that—

(*i*) If the order for cancellation be made between the 25th of June and the 25th of October no water-rate shall be payable for the period subsequent to the 25th June preceding the date of the order.

(*ii*) If the order for cancellation be made between the 25th June and 25th March, half the annual rate will be payable for the period subsequent to the 25th June preceding the date of the order.

ON THE SUPPLY OF WATER.

26. I.—Any Canal Officer may, in the case of pressing emergency, stop the supply of water to any canal or distributary. If such order is passed by an officer below the rank of a Divisional Canal Officer, it shall forthwith be reported to the Divisional Canal Officer, and if the stoppage exceeds five days in duration, to the Superintending Canal Officer.

II.—The Sub-Divisional Canal Officer may, by written order under section 76*a*, stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that either it, or, in case the channel is supplying a long-term lease, the boundaries of such lease are not maintained in proper repair. Such order shall be recorded in the Sub Divisional office.

III.—No person shall be entitled to be supplied with water until the village channel has been put in a proper state of repair in accordance with directions given by the Sub-Divisional Canal Officer.

IV.—The Canal Officer or any of his subordinates may temporarily close an outlet supplying a village channel from which unauthorized irrigation is, at the time the outlet is closed, being carried on.

27. The Divisional Canal Officer may close the outlets in rotation as he may consider necessary The periods of such closures must be notified to the *lambardars* concerned.

28. No water shall be supplied nor shall any person be entitled to a supply of water until a permit signed by a Canal Officer authorized to sign a permit has been signed and issued.

29 The Canal Officer will be responsible that the supply through the outlet is in the *kharif* and *rabi* seasons maintained in accordance with the requirements of the crops In both seasons it will be the duty of the *lambardar* to inform the Canal Officer or subordinate when the area under lease has been fully irrigated, so that the outlet may be closed, or if he has, under rule 14, been given charge of the outlet, to close it himself.

ON DEMAND STATEMENTS.

30. The statements of the amounts demandable for water-rates leviable under the rules in force shall be prepared under the supervision and stamped signature of the Divisional Canal Officer, in such form as shall from time to time be sanctioned by the Lieutenant-Governor

31. The demand statements for water-rates due under leases for a term of years shall be prepared at the same time as the application, and a copy thereof shall be given to the *lambardar* as well as a *parcha* for each signatory to the lease with the permit No further notice of demand shall be given during the currency of the lease.

32 The demand statement for water-rates due under a lease in the *kharif* season shall be prepared either before the permit is issued, or as soon as conveniently may be after its issue, and shall, without reference to the land having been actually irrigated up to that time

or not, show the water-rates due by each person whose land is included in the application. Demand statements (*parcha*) showing the sums due from each applicant shall be sent to the *lambardar* for distribution, and no further notice of demand shall be given.

33. For irrigation during the hotweather or *rabi* season, the following procedure shall be followed:—

I.—The area irrigated in any village shall be measured by an amin appointed for the purpose. The *khasra* shall be signed by both the amin and the *lambardar*, who shall be present at the measurements. If the *lambardar* is not present, the amin shall arrange that at least two respectable cultivators shall be present and enter their names in the *khasra* prepared by him.

II.—When the measurement is completed, the *khasra* shall be forwarded to the Sub-Divisional Canal Officer, who shall prepare the demand statement (*khatiani*) with all possible despatch. Copies of extracts of the demand statement affecting each separate cultivator (*parchas*), signed and sealed by the *zilladar*, shall, as soon as prepared, be forwarded to the *lambardar* for distribution amongst the persons charged. The *lambardar* shall grant a receipt for the *parchas* forwarded.

III.—If the *lambardar* is not present, or declines to grant a receipt for the same in the prescribed form, the Sub-Divisional Canal Officer shall make other efficient arrangements for serving each person assessed with a *parcha* showing the amount due from him. *Parchas* may be sent by post.

34. Objections to the demand statements prepared in accordance with the preceding rules 31, 32 and 33 may be presented, either personally or through the *lambardar*, to the Sub-Divisional or Divisional Canal Officer, who shall thereupon, after such enquiry as he may consider to be necessary, pass orders on the same. A copy of the order passed (which may be sent by post) shall be served on the person making the objection. Objections to the demand addressed to the Collector shall be referred for the orders of the Divisional Canal Officer.

35. Objections to the demand statements must be presented within thirty days of the date on which the *parcha* was received by the *lambardar*, but this period shall be extended where reasonable cause for delay can be established.

36. The objections may be in a form, which will be sold for half-an-anna at all Canal offices, giving instructions as to the particulars required to admit of the objections being readily investigated; but any form will be accepted provided it clearly states the name or names of the persons objecting, the crop, and the year for which the charge is made, and the demand from each cultivator to which objection is taken.

37. Any person not satisfied with the order passed by the Canal Officer under rule 34 may file an application of appeal to the Collector under section 91 of the Act. Such application must be accompanied by a copy of the order appealed against. The Collector shall thereupon, after considering the records of the case, pass such order as he may think fit, and shall meanwhile have discretion to suspend collections by a written order in cases where it may seem advisable to do so.

38. When the order appealed against to the Collector is that of a Sub-Divisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record thereon any remarks he may think fit. The papers shall not be detained for the purpose of enabling the Divisional Canal Officer to make further enquiries which, however, may be directed by the Collector on the suggestion of the Divisional Canal Officer or on his own motion.

39. Applications for mutations of names in leases for a term of years shall be made to the Collector; if addressed to the Canal Officer they shall be referred to the Collector for disposal. Applications for alterations in long-term leases on account of wrong assessment shall be made to the Divisional Canal Officer; if presented to the Deputy Collector they shall be referred to the Divisional Canal Officer for disposal.

39. (*a*) When the mutations of the names of rate-payers are found to be more than 30 per cent. of the whole the Deputy Collector will request the Divisional Canal Officer to prepare and forward a revised demand statement. The same rule applies for other crops.

ON WATER-RATES.

40. Water-rates imposed under section 79 of the Act for the irrigation effected in the hot weather or *rabi* seasons, shall be assessed by the Canal Officer at rates which shall be fixed by the Divisional Canal Officer, and which shall not be greater than those shown in the following schedule:—

	Flow or Lift.	
	Rate per bigha.	Rate per tenth of a bigha.
	Rs. A.	A.
For water used in an unauthorized manner.	6 4	10

In the *kharif* season water-rates shall be imposed by the Divisional Canal Officer under section 79 *only* after the sanction of the Collector has been obtained to make a detailed measurement of the land irrigated without authority.

NOTE. Areas irrigated by *bonâ fide* surplus water drained off from a leased area shall not be assessed. *Bona fide* *ign* is defined as water drained off the fields while the outlet remains closed

The Collector's sanction is not in itself authority for the imposition of water-rates—it merely authorizes proceedings being instituted. The rates to be charged in the *kharif* season will be subject to the same maxima as in the hot weather and *rabi* seasons. Persons using water without a permit shall, unless exempted by section 74 of the Act, be charged water-rates according to the season in which water is used, at the rates specified in this rule.

41 Charges for waste of water imposed under section 80 of the Act shall be at the rates fixed in the rule immediately preceding, and be subject in the *kharif* season to the same condition as regards sanction by the Collector as is required by that rule; where a tank or *ahara* has been filled, a charge of Rs. 5 per thousand cubic yards may be made in lieu of an acreage charge

42. Water-rates assessed under sections 78, 79 or 80 of the Act shall be paid on or before the dates mentioned below :—

For leases for a term of years entered into after the 1st January 1898.	One kist on or before the 15th January.
Season leases—	
Under Schedule No. II ...	For rice and sugarcane on or before the 15th December. For a single watering, on presentation of the demand.
Ditto No. III ...	*Rabi* and sugarcane on or before the 5th April.
Ditto No. IV ...	Hot weather irrigation on or before the 1st July.
Assessments under section 79 of the Act or under Rule 40. Assessments under section 80 of the Act	On presentation of the demand
Water supplied by volume between the 1st of September and 31st of October	One moiety before the outlet is opened, the other moiety on or before the 15th December.
Water supplied by volume to fill *aharas* ...	The whole amount before the outlet is opened.

The Divisional Canal Officer shall forward the demand statements of leases under Schedule No II to the Collector as soon as they have been prepared in accordance with rule 32. He will forward these and all other demand statements as soon as they are ready and will endeavour to send them at least fifteen days before the latest dates fixed for the payment of the water-rates, but accuracy in the individual charges shall be regarded as of more importance than a rigid adherence to dates

43. Where lands are held on a *bhaoli* tenure, the entire water-rates assessed under section 78 of the Act shall be demandable from the occupiers of the land assessable; but at the written request of the *bhaoli* owner, in the form, Appendix VII, which may be presented to the Divisional Canal Officer or to the Collector, the water-rates shall be recovered from the cultivators and the person or persons in receipt of the *bhaoli* rents in the same proportion as the produce is divisible amongst them. The demand statement shall be made out by the Divisional Canal Officer in the name of the cultivators, any necessary modification therein, owing to a request made by a *bhaoli* owner under this rule, being carried out by the Collector. But on lands under Government management half the rates should be paid by the landlords, and in other cases any influence which the Collector may possess should be used to make the zamindar consent to this equitable arrangement.

44. In the case of lands held under a *bhaoli* tenure being assessed under section 79 of the Act, the whole of the persons deriving benefit therefrom shall be assessed in the same proportion as the produce is divisible amongst them.

ON REMISSIONS.

45. The water gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of failure of supply.

46. Claims to remission of water-rates under section 76(*b*) shall only be admitted on proof of actual loss caused by failure of supply. On proof of such loss, the Divisional Canal Officer may remit the whole or any part of the rates. All applications for remission of water-rates shall be made in the manner provided in rule 34 and not less than twenty days before the crop is cut The Divisional Canal Officer, with the previous sanction of the Superintending Canal Officer, which sanction may be delegated to any Divisional Canal Officer, when the crop of an individual cultivator of a season lease has failed to the extent of losing twelve annas or more of its value in the rupee, may, as a matter of grace, grant remission up to 10 per cent. of the area assessed against the cultivator, notwithstanding that the deficiency in the crop is due to causes other than through partial or total failure in the supply of canal water.

47. Before awarding compensation under section 76(*c*), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings. All applications for compensation under section 76(*c*) must be made not less than twenty days before the crop is cut.

48. Notwithstanding anything contained in these rules, the Superintending Canal Officer may, should he consider the circumstances of the case require it, under such general instructions as he may from time to time receive from Government, remit, under the head "Extraordinary", so much of the water-rates as are in excess of ten annas a bigha. But no such remissions shall be claimable as a right, nor shall any person be entitled to receive an order on an application for remission under this head, which will ordinarily only be made on the representations of Divisional Canal Officers.

49. A remission statement signed by the Superintending, or Divisional Canal Officer, shall be sufficient authority for a refund by the Collector.

INTERMEDIARY AGENCY.

50. Leases in the *kharif* season for a term of years will be entered into with associations of cultivators as specified in these rules; and also on the joint application of the cultivators and of some person hereinafter called the contractor, who shall collect and pay to Government, under section 82 of Act III (B C.) of 1876, all sums due under the agreement on account of water-rates. The joint agreement shall be in the form given as Appendix II to these rules. The contractor must have a beneficial interest in some part of the land included in the application extending for the full term of the lease.

51. Contractors shall be entitled to collect water-rates from the cultivators who have signed the application and from their successors in interest in the land included in the block at the rates fixed by the Lieutenant-Governor under section 78 of the Act. Every due from a cultivator to a contractor on account of water-rates shall be deemed to be a sum due to Government under sections 82 and 85 of Act III (B C.) of 1876.

52. A contractor (or in case there be more than one, each contractor severally and jointly) shall use due diligence in the collection of the water-rates specified in the agreement from the cultivators who have applied for the water supplied. In the case of his failure after due diligence to collect, he shall, within thirty days of the rates becoming due, submit to the Collector a list showing the names of the defaulters with the sums due from each, and the Collector shall thereupon proceed to realize the amount due from the said defaulters according to law.

53. A contractor (or in case there be more than one, each contractor severally and jointly) shall be responsible for all sums payable on the agreement, except such sums as he may satisfy the Collector that he has been unable to collect after using due diligence, and shall be entitled to a deduction of 5 per cent. on all sums collected by himself.

54. In the case of a lease entered into under an application in the form given as Appendix I, a contractor may subsequently be appointed by the Collector with the written approval of the Superintending Canal Officer Such contractor must, for the whole term of the lease, have a beneficial interest in some part of the land included in the application, and must sign an application in the form given as Appendix IIA. The appointment shall not be made unless the *lambardars* and leading cultivators give their assent in writing thereto, and the Collector is satisfied that the appointment of a contractor is acceptable to the signatories to the lease.

55. The contractor appointed under rules 50 and 54 may, but shall not necessarily, be *lambardar*. The *lambardar* will in all cases be appointed by the Canal Officer under the provisions of Rule 12, and shall be remunerated at the rates specified in Rules 11 and 14, subject to the conditions mentioned in Rule 15.

56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall be entitled to a deduction of 2½ per cent. on all sums collected by himself in addition to the deduction of 5 per cent. to which he is entitled under rule 53, *i.e.*, to a total deduction of 7½ per cent.

57. No steps shall be taken to prepare a joint application by cultivators and a contractor until the written assent of the Collector to the proposed contractor has been received, nor shall the Collector take any steps towards the appointment of a contractor under rule 54 until the written assent of the Superintending Canal Officer has been received. The Collector may, before approving of a contractor under this rule, require him to give security for the due performance of the contract

58. A contractor may resign his interest in the lease by giving notice to the Divisional Canal Officer three months at least before the 25th June next following, in which case his connection with the lease shall cease from that date, and the Sub-Divisional Canal Officer shall proceed to appoint a *lambardar* under rule 12, and the Collector to realize water-rates due directly from the applicants. The Divisional Canal Officer may, at the instance of the Collector, remove a contractor who fails to use due diligence in making collections. In such cases three months' notice at the least before the 25th of June next following shall be given, and the removal shall take effect from that date. The Collector may, under the conditions and procedure specified in rule 54, appoint a new contractor in place of a contractor who has resigned.

59. With the written approval of the Superintending Canal Officer, a contractor may measure and prepare demand statements for lands irrigated in the hot weather, for which applications in the prescribed form have been filed by him. Such demand statements shall be forwarded to the Sub-Divisional Canal Officer, who shall thereupon proceed to deal with them as if they had been prepared by himself.

60. When an agreement has been made for the collection of rates by a contractor, the Divisional Canal Officer shall, under section 82 of the Act, furnish such contractor with a written authority to collect the amounts due by the cultivators, a copy of which shall be sent to the Collector.

60.(*a*) The contractors are to note the number and year of the *khationi* and the serial number of the rate-payer on receipts granted by them in order that the particular demand may be traced when a mutation is applied for by a rate-payer.

ON COLLECTIONS AND ALTERATIONS IN DEMAND STATEMENTS.

61. Collection of all water-rates shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer except in the case of lands held *bhaoli*, regarding which the provisions contained in rule 43 shall be followed.

62 The Collector may make any alterations in a demand statement provided the total sum shown to be due is not altered or an error in account only corrected. When such alterations are made in a demand statement appertaining to a lease for a term of years, a copy of the alteration statement shall be sent to the Divisional Canal Officer.

63. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Collector. A detailed list of all sums so written off shall be forthwith sent to the Superintending Canal Officer. In other cases the sanction of the Commissioner of the Division must be obtained, through the Superintending Canal Officer, to admit of demands being written off under this head.

MISCELLANEOUS.

64. No person shall, without the permission in writing of the Divisional or Sub-Divisional Canal Officer, pass, or cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting by means of such bridges, fords and ferries and their approaches as are provided by the Divisional Canal Officer.

65. No officer employed on the canals, unless especially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly, or in shares with others

66. Tanks may be filled with canal water without charge and without reference to the area irrigated in any village, wherever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

(*a*)—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both

(*b*)—No tank shall be so filled from which irrigation is practised.

(*c*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d*)—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer issued on the written application of the parties concerned.

(*e*)—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.

(*f*)—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for twelve months for breach of any of the above conditions.

67. The Divisional Canal Officer may supply water for manufacturing* or other purpose, charging for the same at the rate of one rupee per each 4,000 cubic feet or part of 4,000 cubic feet supplied. For the manufacture of bricks the rate is Rs. 5 per lakh of bricks, but when bricks are found to be manufactured without the previous sanction of the Divisional Canal Officer a rate of 4 as. per thousand bricks will be charged. Contracts between the Divisional Canal Officer on the part of Government and private individuals for the use of water as a motive power, or for any purpose whatsoever not specified in this rule, or the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer, and if proposed for longer than a year, shall be submitted for the sanction of the Lieutenant-Governor.

68. Patwaris called on to assist in identifying land or signatures or to give evidence shall receive such remuneration by way of fee as may be fixed by the Superintending Canal Officer or Collector with the approval of Government, but their signature shall not necessarily be required to any document prepared under these rules. The fees shall be disbursed at the time of attendance as far as practicable by the Sub-Divisional Canal Officer or Collector, whoever may require the patwari to attend.

69. Any Deputy Collector or Sub-Deputy Collector may, under the general orders and control of the Collector, exercise the powers conferred on the Collector by Rules 9, 10, 11, 15,

* Superintending Engineer's No. 858, dated 20th February 1882, fixed rate for use of Canal water for brick manufacture at Rs. 5 per lakh.

34, 39, 43, 52, 53, 54, 57, 58, 59, 61, 62, 63, and 68, provided that all orders passed by such Deputy Collector or Sub-Deputy Collector shall be appealable to the Collector, if a petition of appeal is preferred within thirty days of their being passed.

70. The Collector may, by a special order passed in each case, refer applications under rules 37, 40, or 41 to any Deputy Collector for report or disposal. An appeal against an order passed by a Deputy Collector under this rule may be preferred by either the applicant or the Divisional Canal Officer.

ON THE RATES TO BE CHARGED FOR WATER SUPPLIED ON APPLICATION FROM THE SONE CANALS.

71. The following are the rates to be charged for water supplied for irrigation from the Sone Canals :—

(*a*)—Schedule I following will be in force in respect to permits issued for the irrigation of land after the 1st of April 1904.

(*b*)—Schedule II following will be in force in respect to permits issued for the irrigation of land after the 1st April 1904.

(*c*)—Schedule III following will be in force in respect to permits issued for the irrigation of land after the 1st October 1904.

(*d*)—Schedule IV following will be in force in respect to permits issued for the irrigation of land after the 25th February 1902.

(*e*)—Schedule V following will be in force in respect to water supplied after the 1st of April 1904.

(*f*)—Schedule VI following will be in force in respect to water supplied after 1st of November 1891.

(*g*)—For permits issued prior to the dates mentioned above, the rates at present in force enumerated in Notification No. 148 of the 20th June 1881, published in the *Calcutta Gazette* of 22nd June 1881, will be charged.

75. Season leases (hot weather)—

Time and description of supply.	Flow or Lift.	
	Per bigha.	Per tenth of a bigha.
1	2	3
	Rs. A.	As. P.
For water supplied between the 26th March and the 24th June, or at the option of the applicant, between the 25th of February and the 25th of May, for all crops.	2 13	4 6
When water can only be supplied for a part of the season for each watering.	1 4	2 0

76 In the case of charges under schedules I to IV any smaller area than one-tenth of a bigha will be charged as one-tenth. The bigha contains 27,225 square feet.

SCHEDULE No. V.

77. For water supplied by volume in the *kharif* season—

For water supplied between the 1st of July and the 31st of October, four rupees for a calculated discharge of one cubic foot per second for twelve hours. For less than a cubic foot per second or less than twelve hours, a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

SCHEDULE No. VI.

78. For water supplied by volume to fill *aharas*—

For water supplied between the 1st of November and the 25th of March, one rupee for a calculated discharge of one cubic foot per second for twelve hours. For less than a cubic foot per second and less than twelve hours a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

79. In the case of leases under Schedules I and II, water will be supplied for rice-seed beds only as early in June as the supply in the river admits.

80. In the case of leases under Schedule II, no extra charge will be made for a crop of *kesari*, linseed, or *gram* sown on rice-fields watered with canal water, and water will be supplied until the 15th of November, if required.

81. In the case of leases under Schedule III, the Divisional Canal Officer may, in years when the demand for water for *kharif* crops admits of it, supply water for *rabi* on any date after the 7th October.

82. When in the area covered by a season lease only (I) no crop is sown in a field, or (II) the crop fails during the currency of the lease, water-rates may be levied at the rate of ten annas a bigha, provided that no application to be charged at these reduced rates shall be entertained unless presented twenty days before the crop is cut, and also during the currency of the lease.

83. In assessing water-rates under Schedules III and IV, the areas to be charged shall be subject to the following rules :—

I.—If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half-a-foot high.

II. When a portion of a field has been irrigated with canal water and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

84. Irrigation from escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

85. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

86. Irrigation from Government drainage cuts shall be governed by the same rules as are laid down for irrigation from escape channels.

BIHAR SCHOOL OF ENGINEERING.

PROSPECTUS FOR ADMISSION.

THIS school is under the management of the Principal, assisted by a Board of Visitors. It owes its origin to a fund raised by residents of Bihar to commemorate the visit to India of His Majesty the King when Prince of Wales. The object of the fund was the promotion of technical instruction in Bihar. The school was formally opened on the 11th July 1896 by His Honour the Lieutenant-Governor of Bengal.

2. The number of students admitted each year will be limited to 60. Preference is to be given to Biharis. Failing, however, a sufficient number of Bihari applicants, students who are natives of other provinces may be admitted, preference being given to Bengalis domiciled in Bihar over non-domiciled Bengalis or other applicants.

As far as accommodation is available, students who have passed the final "B" Class examination will be admitted to the second-year class, provided they are not over 21 years of age, preference again being given to Biharis and domiciled Bengalis.

3. The school, as at present constituted, is chiefly engaged in training students for appointment as Sub-Overseers, Overseers and Upper Subordinates.

Students are prepared for the examinations conducted by the Joint Technical Examination Board.

4. The next session will commence on 3rd July 1911.

5. In the Overseer Department, which corresponds to the Apprentice Department of the Sibpur College, the monthly fee is Re. 1-8, except for non-domiciled Bengalis, who shall pay Rs. 3. Government scholarships of the value of Rs. 7 a month, tenable for one year, are awarded each year on the results of the annual examination, *eight* being tenable in the second-year class, *six* in the third-year class, and *six* in the fourth-year class.. Of the scholarships attached to the school, 75 per cent. are to be reserved for those students who are Biharis by race. The teaching is in English.

6. Candidates for admission to the Overseer Department must be under 20 years of age, and must have passed one of the tests mentioned below:—

(1) The Entrance Examination of an Indian University in English and Mathematics.

(2) The equivalent Test Examinations for European schools.

(3) Students who have not passed any of these tests, and who are otherwise eligible, will have to pass an examination in English and Mathematics (of about the same standard as the University Matriculation examination in these subjects) to be held at the school, on the 3rd and 4th July, respectively, from 10 A.M. to 1 P.M. each day.

7. All applications for admission must reach the Principal not later than the 28th June. Applicants must give the following particulars:—

(*a*) Name, address, and occupation of father or guardian.

(*b*) Race and religion. (A domiciled Bengali must produce evidence to show that his father, with his family, has taken up their permanent residence in Bihar.)

(*c*) A certificate of good moral character from last head-master.

(*d*) An attested certificate of age (showing that he is under 20 years of age).

(*e*) A medical certificate showing him to be fit for employment in the public service.

(*f*) A certificate of having passed either of the first two of the three tests mentioned above, failing which the application will be kept pending till a certificate showing that the candidate has passed the third test is given to the Principal.

8. There is also an Amin class, admission to which may be obtained by students who do not know English. In the Amin class the course of study is for one year, and the monthly fee is Re 1. An Amin student is taught elementary surveying with a corresponding amount of mathematics and of geometrical drawing. He will not be admitted to the workshop. A student in the first-year class of the Overseer Department, who fails to pass the examination for promotion to the second-year class, but who has shown an adequate knowledge of elementary surveying and the other subjects taught in the Amin class may, at his option, leave the school with an Amin certificate.

All candidates for the Amin class, will be examined at the school on the 3rd July; candidates failing at this examination will not be admitted The subjects of the examination are dictation and elementary mathematics of about the middle vernacular standard.

9. Except in very special cases, a student will not be admitted to the Amin class for the session that commences from 3rd July 1911 unless application for admission is made before 28th June 1911.

10. There is a hostel in connection with the school. The fees are Re. 1-8 for room and Re. 1 for light. Students make their own mess arrangements. Students joining the Overseer classes must reside in the hostel unless they are residents with parents or with nearly related guardians, whose homes are near enough to enable them to attend the school at the required times. The Principal will decide whether a student should reside in the school hostel, or whether the guardian proposed can be accepted as such.

11. The initial expenses for books, instruments, etc., for a student joining the Overseer Department are as follows :—

		Approximate cost. Rs.	A.

N.B.—Candidates who have passed at least the Entrance or Matriculation Examination are eligible for the examination. Experienced teachers who have not passed any University examination may be examined by the undersigned, if considered fit.

The examination of teachers teaching vernacular subjects in the same class of schools will be held at the Hooghly Training School, on the 1st August 1911.

N.B.—Only those who have passed at least the Middle English or Middle Vernacular Examination are eligible for this examination.

Candidates are required to apply in writing for admission to the examination by the 15th July 1911, giving the following information :—

1. Name (in full).
2. Name of father.
3. Name of native village and district.
4. Name of school in which he is at present employed.
5. Number of years he has served as a teacher.
6. (*a*) Whether (if he is a candidate for the English subjects examination) he has passed the Entrance Examination.
   (*b*) Whether (if he is a candidate for the vernacular subjects examination) he has passed the Middle English or Vernacular Standard Examination.

Candidates are requested to bring their University or other certificates with them to the examination.

The examination will be in two parts. Firstly, candidates for the examination in English subjects will be required to give lessons on any two of the following subjects :—

(*a*) English Literature.
(*b*) Arithmetic, Algebra or Geometry.
(*c*) Geography.
(*d*) History.

Those teaching through the medium of Bengali will be required to give lessons on any two of the following subjects :—

(*a*) Bengali Literature.
(*b*) Arithmetic or Geometry.
(*c*) Geography.
(*d*) History.

Candidates must come prepared with full notes on the lessons they intend to give.

The notes must specify :—

(*a*) The aim of the lesson.
(*b*) The time it will take to give the lesson.
(*c*) The class to which it is to be given.
(*d*) The subject-matter.
(*e*) The method or methods to be adopted in imparting the subject-matter.

The notes should be written in a note-book specially reserved for the purpose, the left hand pages being set apart for illustrations and reference.

Secondly, there will be an oral examination in the Art of teaching, which will include object lessons, class management, organization and discipline.

Candidates for English subjects are recommended to study the following books :—

Salmon's Art of Teaching.
Garlick's School Method.
Yates's Direct Method of Teaching English.

Landon's Principles and Practice of Teaching and Class Management.

Candidates for vernacular subjects are recommended to study—

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Midnapore, will be put up to sale at the Midnapore Collectorate on Monday, the 26th June 1911, corresponding with 12th Ashar 1318 B.S.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The estates to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estates to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth or the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

6. Mr. Jackson, the Chief Accountant, has been placed on special duty to enquire into the working expenses of the Trust with a view to effecting such economies as may be possible. The total establishment charges for 1911-1912 are less than those for 1910-1911 by Rs. 26,323.

7. The total expenditure of the Trust on Revenue account is estimated at Rs. 1,31,43,120, as compared with an estimated income of Rs. 1,33,31,520, leaving a surplus of Rs 1,88,400.

8. In exercise of the powers vested in him by section 71 of the Calcutta Port Act, 1890, the Lieutenant-Governor in Council sanctions the estimate of income and expenditure of the Commissioners for the year 1911-1912.

By order of the Lieutenant-Governor in Council,

T. BUTLER,

Secretary.

REPORT ON THE STATE OF THE SALT MARKET FOR THE FOURTH QUARTER OF THE YEAR 1910-11.

No. 2379B., dated Calcutta, the 13th May 1911.

From—W. A. MARR, ESQ., I.C.S., Secretary to the Board of Revenue, L. P., Misc. Revenue Department,

To—The Secretary to the Government of Bengal, Financial Department.

Member in charge:
THE HON'BLE MR. R. T. GREER, C.S.I.

I AM directed to submit the following report on the state of the salt market for the fourth quarter of the year 1910-11, comprising the months of January, February and March 1911.

2. The quantity of salt of every description cleared during the quarter amounted to 3,262,719 maunds (including 1,018,556 maunds issued under the credit system), as compared with 2,944,191 maunds (including 1,007,738 maunds issued under the credit system) in the previous quarter, and 3,062,169 maunds (including 46,706 maunds issued under the credit system) in the corresponding quarter of the previous year. The net amount of duty levied was Rs. 20,08,875 (excluding Rs. 10,20,655 adjusted under the credit system), as against Rs. 16,92,244 (excluding Rs. 1,99,174 adjusted under the credit system) in the previous quarter, and Rs. 27,70,853 in the corresponding quarter of the previous year.

3. The subjoined Table I shows in detail the importations into the port of Calcutta and the total clearances of sea-imported salt during the quarter, as compared with the figures of the corresponding quarters of the two previous years:—

* Inclusive of 1,018,556 maunds of salt issued under the credit system. Besides this quantity, 6,260 maunds of salt issued under the credit system to inland bonded warehouses at Jhalakati in Backergunge and 3,600 maunds to a bonded warehouse at Narainganj in Dacca, in the Province of Eastern Bengal and Assam.

Compared with the corresponding quarter of the previous year, imports were greater by 15·5 per cent., but as compared with the same quarter of 1908-09, they were less by 24·9 per cent.; the corresponding figures for clearances are respectively 6·6 per cent., and 16·2 per cent., greater. As compared with the corresponding period of the previous year, the increased imports from Port Said, Salif and Bombay and the decreased imports from Hamburg and Bremen and Spain are specially noticeable.

4. Table II shows the quantity of sea-imported salt remaining in the warehouses at the close of the quarter, as compared with the preceding four quarters:—

The stocks remaining in the *golas* at the close of the quarter were considerably less than those of the preceding four quarters.

5. The figures showing the despatches of salt from Calcutta by different routes during the quarter under report will be published as usual in the *Calcutta Gazette* by the Director-General of Commercial Intelligence when they are available.

6. The quantity of salt despatched during the quarter by the East Indian Railway to stations beyond Buxar amounted to 3,682 maunds, as against 1,158 maunds in the previous quarter and 442 maunds in the corresponding quarter of the previous year.

7. The quantity of saltpetre salt excised in the refineries of Bengal during the quarter amounted to 9,551 maunds, as compared with 1,079 maunds in the previous quarter, and 9,793 maunds in the corresponding quarter of the previous year.

8. The shipments of Liverpool salt during the quarter for the port of Calcutta according to the published market reports amounted to 45,729 tons. It is reported that the vessels, of which the names are noted in the margin, are on the sea bound for Calcutta with cargoes of salt from Hamburg and Bremen. The quantity given against each ship is approximate only.

During the quarter the prices of Liverpool *panga* and Hamburg *karkuch* fell at first, but rose again towards the close of the quarter. The prices of Bombay and Spanish *karkuch* and Aden crushed fell, while those of Salif crushed rose. No imports of Madras salt were made into the port of Calcutta during the quarter.

10. The quantity of sea-imported salt admitted into, and cleared from, bond at the inland warehousing station of Chandbali in the district of Balasore, during the quarter and the corresponding quarter of the previous year, is given below :—

THIRD AND FINAL FORECAST OF THE SPRING OILSEED CROPS OF BENGAL, 1910-11.

(On an average of the five years ending 1908-09 the area under linseed and rape and mustard in the territory to which this forecast relates represents about 22·8 and 12·5 per cent. of the total area under these crops in British India.)

Character of the season and condition of the crops.—Oilseeds are grown chiefly in Bihar and also in the Presidency and Chota Nagpur Divisions. The rainfall in September and October was general and was above the normal in most districts. Sowings, though commenced at the normal time, were somewhat retarded in parts of the Presidency Division and in Cuttack, Angul, Burdwan and Hooghly owing to the heavy rainfaill in October. In November there was no rain except in some districts of Chota Nagpur and in Bihar, where the fall was above the average. The rainfall in January proved beneficial to the late crops. In February light showers fell all over the Province except in Bihar and Chota Nagpur. The outturn of the crops was reported to have been affected to some extent in Burdwan, Midnapore, Nadia, Murshidabad, Purnea and Balasore, owing to the insufficiency of moisture in the latter part of the season. Damage by hail was reported from the districts of North Bihar.

Area sown.—The total area sown with the different kinds of oilseeds excepting *til* is estimated at 2,082,700 acres against 2,014,700 acres, the revised figures for last year.

Outturn.—From Appendix I attached to the report it will be seen that two districts, viz., Sambalpore and the Sonthal Parganas, report 108 and 105 per cent. crops respectively; five districts, viz., Patna, Saran, Bhagalpur, Palamau and Manbhum, report 100 per cent. crops. In three districts the crop is between 92 and 97 per cent. of the normal, in ten districts between 80 and 89 per cent., in eight districts between 73 and 79 per cent. and in four districts between 60 and 69 per cent. In Nadia the crops are estimated at 58 per cent. of the normal. The outturn of the different

kinds of spring oilseeds for the whole province amounts, according to the district returns, to 86 per cent. of the normal, against 89 per cent., which was the estimate of the returns in the second forecast issued in February last. Some of the district estimates appear to be unduly pessimistic, and I think that the total crop will not fall short of my estimate made in the second forecast, viz., 100 per cent. of the normal. Taking 6 maunds per acre as the normal rate of yield for linseed, rape and mustard and $4\frac{1}{4}$ maunds per acre for other oilseeds, the gross yield of all the spring oilseeds for the province works out to 439,900 tons against 351,700 tons last year.

W. B. HEYCOCK,
Director of Agriculture, Bengal.

DARJEELING,
The 11th May 1911.

This accounts for the decrease in the estimated areas under the crops in 1910. The decrease in the estimated outturn this year is due to the unfavourable weather conditions that prevailed in the Barasat subdivision after the submission of the second forecast. The condition of the crops was fair. The date of harvesting was late in the Barasat but normal in other subdivisions.

* The report is for the week ending the 18th May 1911.

General Summary.—During the week under report rain fell in all the districts of the Province except in Saran, Monghyr, Palamau, Manbhum, Singhbhum and in the districts of the Patna Division. The fall was heavy in Cooch Behar, Darjeeling, Nadia, Muzaffarpur and Purnea, moderate in Burdwan, Jessore and Khulna and generally light elsewhere. Preparation of lands for the next season's crops and sowings of paddy and jute are going on. But more rain is wanted for the purpose in Bankura, Midnapore, Hooghly, the 24-Parganas, Jessore, Darbhanga, Bhagalpur, Cuttack, Puri and Singhbhum. The standing crops are doing well. The price of common rice has risen in Jessore, Khulna, Gaya, Bhagalpur, Cuttack, Palamau, and Cooch Behar and has fallen in Bankura, Murshidabad, Saran, Darjeeling and Manbhum. Cattle-disease is reported from Burdwan, Midnapore, Hooghly, Nadia, Patna, Monghyr, Bhagalpur, the Sonthal Parganas, Puri, Sambalpur, Hazaribagh, Ranchi and Manbhum. Insufficiency of fodder is reported from parts of Birbhum and Hazaribagh and scarcity of water is felt in these two districts and also in Palamau.

DECLARATION.

No. 1791J.—The 30th May 1911.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for the main siding or Kalipahari avoiding line and for the No. 2 Ghusik siding of the East Indian Railway, the former taking off the main line at mile 130, feet 992, and the latter taking off the avoiding line at chains 124·34, and whereas coal mines are situate under the said land, and whereas the Ghusik and Muslia Collieries, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seam known as the Ghusik seam, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the suface of the said land and to the works constructed thereon, and whereas the said Ghusik and Muslia Collieries, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Burdwan.

Now, therefore the Lieutenant-Governor of Bengal in Council is pleased to declare, under section 5, sub-section (2), clause (*b*) of the abovementioned Act XVIII of 1885, that the working shall be carried on by the said Ghusik and Muslia Collieries, Limited, in the manner and subject to the restrictions below specified, viz.:—

(*a*) No gallery shall be driven nor shall any coal be extracted where the distance from the surface of the acquired land to the top of the gallery, if driven, is less than 50 feet.

(*b*) Manholes not exceeding 6 feet in height and 3 feet in width by 4 feet in depth may be made where required by any rule made under the Indian Mines Act, 1901.

(*c*) Any inrush of water, quicksand, or soft material, shall be reported to the Chief Inspector of Mines, without delay.

(*d*) *Beneath the land acquired for the Kalipahari avoiding line.*—Two galleries may be driven in the approximate position and direction of the red lines A.B. and A′ B′ on the plan L.A.M.A. No. 166. Such galleries shall be not less than 140 feet apart centre to centre. Similar pairs of galleries may be driven parallel to them, the galleries being not less than 140 feet apart centre to centre, and between each pair of galleries there shall be a solid pillar of coal 280 feet, measuring at right angles to the direction of the galleries, to be left unworked for the support of the acquired land. Such galleries shall not exceed 8 feet in height and 8 feet in width and not less than 4 feet of roof coal shall be left unworked.

(*e*) *Beneath the land acquired for the No. 2 Ghusik siding.*—When the distance from the surface of the acquired land to the top of the gallery if driven, is between 50 feet and 250 feet, galleries may be driven not less than 45 feet apart centre to centre and where such distance is more than 250 feet, not less than 70 feet apart centre to centre, forming pillars not less than 35 feet square and 60 feet square, respectively, to be left unworked for the support of the acquired land. Such galleries shall not exceed 10 feet in height and 10 feet in width and not less than 2 feet of roof coal shall be left unworked.

(*f*) These restrictions apply only to the Ghusik seam and to the area edged with pink on the plan, and the Ghusik and Muslia Collieries, Limited, shall give notice under section 4 of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under such area or to work coal under any area of acquired land;

and that in all the above cases no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked L.A.M.A. No. 166 signed by the Chief Inspector of Mines.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

No. 4.—Notification.—The following draft of a notification which the Lieutenant-Governor in Council intends to issue under sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act, III of 1876), for the Sone Canals, is published for the information of persons likely to be affected thereby.

The draft will be taken into consideration on the 1st July 1911, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

T. BUTLER,
Secy. to the Govt. of Bengal.

Draft Notification.

In exercise of the powers conferred by sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act, III of 1876), and in supersession of all previous notifications under those sections for the Sone Canals [except Notification No. 148, dated the 20th June 1881, published at page 637 of Part I of the *Calcutta Gazette* of the 22nd June 1881, which shall remain in force for the purposes of rule 71 (*g*) annexed to the present notification], the Lieutenant-Governor in Council is pleased to make the following rules for the Sone Canals.

GENERAL CONDITIONS.

1. The Collector, before awarding compensation under section 16 or 76 (*c*) or making a reference under section 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of proceedings.

2. Except as provided in Act III (B.C.) of 1876 (the Irrigation Act) and these rules, no appeal shall lie from any order passed by a Canal Officer or the Special Deputy Collector in charge of the Revenue Division of the Sone Canals who has been vested with the powers of a Collector under the aforesaid Act. The Sub-Divisional Canal Officer, however, shall modify any order passed by him in accordance with the orders of the Divisional Canal Officer. The Sub-Divisional and the Divisional Canal Officers and the Special Deputy Collector in charge of the Revenue Division of the Sone Canals, shall modify any orders passed by them in accordance with the orders of the Superintending Canal Officer. The Superintending Canal Officer is empowered, and expected, to exercise a general control over the proceedings of all Canal Officers and of the Special Deputy Collector, the Sub-Deputy Collectors, and all other officers attached to the above-mentioned Revenue Division of the Sone Canals.

3. It will be the duty of the Superintending Canal Officer to issue orders on the following points:—

I.—The limits within which water will be available during the *kharif* season—(*a*) for annual leases; (*b*) for leases for a term of years.

II.—The distributaries from which water will be supplied during the hot season.

III.—The distributaries from which water will only be supplied during the *rabi* season at the rate (*see* Schedule III) ordinarily charged.

IV.—On sufficient cause being shown, to prohibit the issue of permits for the irrigation of land in specified localities generally or during the *kharif* season only.

Such public notice as is practicable will be given of the instructions under this rule as long as is possible before they are enforced.

4. Appeals to the Collector under section 91 of the Act, other than those specially provided for in rule 37, will ordinarily be from an order passed by the Divisional Canal Officer. The Collector may, when the order passed involves (I) the alignment of a village channel, (II) the refusal of the Divisional Canal Officer to accept a block as suitable for the issue of a permit for *kharif* irrigation, require the Superintending Canal Officer to state his opinion in writing, which shall form part of the record of proceedings in the case.

ON VILLAGE CHANNELS.

5. The Canal Officer shall prepare a list of channels which, previous to the 1st of April 1891, have been ordinarily used as village channels, and enter them in a register prepared in the manner prescribed in Part V of the Act.

6. A village channel which was constructed after the 1st of April 1891, or which had not ordinarily been used as a village channel before that date, shall not be entered in the register except at the written request of the owners of it. Water shall not be supplied for irrigation during the *kharif* season through any channel other than one which has been entered in the register.

7. Village channels which may be constructed in future shall not as a rule exceed one mile in length; the length being measured in a straight line from the outlet to the boundary of the part of the village which the channel is intended to irrigate

8. The sum fixed by the Canal Officer as rent under section 68 of the Act shall not be less than half an anna, and shall not exceed four annas per bigha assessed with water-rate.

ON LAMBARDARS.

9. In every permit issued under section 75 of the Act other than those issued under rules 18 or 19 following, the name of one or more persons shall be entered as *lambardar*, who will be responsible for discharging the duties mentioned below :—

I.—Obtaining signatures to applications and certifying to the correctness of the same.

II.—Attending and giving assistance in measuring land irrigated or proposed to be irrigated.

III.—Giving timely information to the Canal Officer or subordinate of any insufficiency in the supply of water and promptly reporting when the irrigation of the leased area on any channel is complete.

IV.—Supervising the distribution of the water supplied through an outlet amongst the persons entitled thereto and reporting any misuse of the same.

V.—Being present when complaints are investigated by a Canal Officer or subordinate, and giving information required in connection with the same.

VI.—Receiving *parchas* from the Canal Officer and distributing the same amongst the persons named therein.

VII.—Reporting before the 20th of October all cases in which crops have been injured by deficiency or irregularity of supply in the *kharif* season, so that these cases may be investigated before water-rates are demanded.

VIII.—Reporting to the Collector or to such officer as he may appoint mutations in holdings in the case of leases for a term of years

IX.—Assisting the Collector by generally helping the collecting staff in the collection of water-rates.

(*See* also Superintending Engineer's Circular No. 7 of 1895.)

10. In the case of leases for the season, the remuneration for performing the duties mentioned in clauses I to VII and IX of the rule immediately preceding shall be 2 per cent. on the assessments (excluding fractions of rupees), which shall be paid by the Canal Officer. The amount paid shall be calculated in rupees and annas only, pies being omitted.

11. In the case of leases for a term of years, other than those entered into jointly with contractors, the remuneration to be paid to the *lambardar* for performing the duties mentioned in clauses I to IX of Rule 9 shall be 3 per cent. yearly on the assessment of the year (excluding fractions of rupees), which shall be paid by the Canal Officer. The amount paid shall be calculated in rupees and annas only, pies being omitted.

12. The *lambardar* will be appointed by the Sub Divisional Officer in consultation with the applicants for the lease, and must be a substantial person having a beneficial interest in part of the land to be irrigated There is no objection to different *lambardars* being appointed to represent sections of the applicants, or to a number of persons being jointly appointed as *lambardars* on behalf of the whole of the applicants. In case the Sub-Divisional Canal Officer cannot agree with the applicants in the appointment of a *lambardar*, he shall nominate a *lambardar* for approval by the Divisional Canal Officer.

In those cases where an application is made by a contractor and cultivators jointly for a lease for a term of years, the *lambardar* shall be nominated by the contractor.

13. The Divisional Canal Officer may, for reasons which appear to him to be sufficient, and which must be recorded, remove a *lambardar* from his appointment, and in that case a new *lambardar* shall be appointed in the manner prescribed in the rule immediately preceding.

14 The Divisional Canal Officer may, with the consent of the *lambardar*, by a written order, of which the *lambardar* shall be furnished with a copy, transfer to him the duty of controlling the supply of water through an outlet, and may, at any time, by a written order, recall such order. *Lambardars* to whom such control is transferred shall exercise such power, subject to such general written orders as they may receive from the Sub-Divisional Canal Officer, and shall receive one per cent. on the assessment in addition to the percentages prescribed in Rules 10 and 11

15. The fees sanctioned to be paid to *lambardars* will only be disbursed if the duties specified have been satisfactorily performed. The Divisional Canal Officer may retrench the whole or any part of the fees payable by him in the event of this condition not being complied with. In calculating the fees payable, fractions of an anna will be excluded.

(*See* Superintending Engineer's Nos. 3126—28 of 4th July 1896 with reference to retrenchments.)

ON APPLICATIONS.

16. Applications under section 74 of the Act for permits for irrigation upon leases for a term of years (Appendix I), or upon *kharif* season leases (Appendix III), shall be subject to the following conditions :—

I.—The application must be for a block of land having well-defined boundaries and so situated that adjoining lands will not ordinarily or probably be irrigated by water supplied for the land included in the application.

II.—The application must be in the form annexed to these rules, which states that water-rates will be paid on all lands contained in the block for which an application is presented, whether water or no water is required.

III.—The applications may be for a term of years, or for the season only—

(a) In case of application for the season only, the issue of the permit will not necessarily be delayed until the lands have been measured. The boundaries of the block must be stated in the application, which must be signed by, or by authority of, the cultivators of all the land included in the boundaries mentioned, and the approximate area in the occupation of each on the block must be specified. Water-rates will be charged on the areas in the block as found by actual measurement. An application for a permit for the season must be filed by the 1st September, but with the Superintending Engineer's sanction an application for a season lease may be entertained up to the end of the season

(b) In the case of applications for a term of years, a permit will not be issued until the land has been measured and an application complete in every respect for all the land included in the block has been signed. All the leases within one group (a 'group' being defined as in Note II) shall be so granted as to expire on the same date. If water is required to be supplied before the application is completely signed in the manner specified above, an application for water for the season must be made, which will be cancelled on a permit for a term of years being issued.

NOTE I.—Superintending Engineer's Nos. 2940—42 of 26th June 1896 directs that "if applicants for a long-term lease, which is not signed before the 15th August, decline to apply for a season lease under Rule III5 by that date, they should be informed that the long-term lease will not be granted during the year."

NOTE II.—A group is defined as consisting of a certain area of country mapped out in accordance with the features of the ground, natural or artificial.

NOTE II.—The leases granted for a term of years in a group will take effect from 1st April 1910.

(c) Notice that a permit for a term of years is required must be given by the 1st of April, but with the Superintending Engineer's special sanction the time may be extended where reasonable cause for the delay in filing the application for a long-term lease can be established. No permit will be issued unless the application is completely signed by the 30th of November, or, with the special sanction of the Superintending Canal Officer, by the 1st of March following.

NOTE.—Superintending Engineer's Nos. 1649—51, dated 13th April 1892

IV.—With the special sanction of the Superintending Canal Officer an application may be made for an addition to a lease for a term of years, which, if granted, shall be considered as part of the original lease and terminate therewith.

16A. Applications (Appendix IVC) for a single watering between 26th June and 25th October may be entertained if water is available after meeting the demand for the areas leased under a term of years or for the season. The applications will be subject to the conditions prescribed for the *rabi* and hot weather seasons: see rule 17 below

17. Applications for irrigation in the *rabi* season, 26th October to the 25th March, and the hot weather season, 25th March to the 25th June (Appendices IVA and B), will be subject to the following conditions:—

I.—The approximate areas of land for which water is required must be stated in the application, which must be signed by the occupiers thereof. It must be stated in the application that the water-rates will be paid on the area actually irrigated

18. Applications for the sale of water by volume for purposes of irrigation will only be entertained on condition that half the amount chargeable is paid to the Sub-Divisional Canal Officer when the application is filed, and that a bond is executed in the form attached to these rules as Appendix V signed by substantial persons pledging themselves to pay such sums as will in the aggregate make up the remainder. The bond will not have reference to the area to be irrigated, but will be in consideration of a particular outlet being kept open for a specified time, and the sums mentioned therein will be recoverable on the certificate of the Canal subordinate that this condition has been fulfilled. Water will be supplied under this rule from the 1st of July to the 31st of October only

19. Applications for the sale of water by volume for filling *ahars* will be in the form attached to these rules as Appendix VI. The entire charge will be payable in advance. Water will be supplied under this rule from the 1st of November to the 25th of March only.

ON PERMITS

20. All permits for the use of water issued under section 75 of the Act shall be subject to the following conditions:—

I.—That the water is supplied for the sole purpose of irrigating the land mentioned in the application. The term "irrigating" includes the right to drain (*sigar*)

at the proper season of the year, previous notice being given to the sectional officer that the outlet is required to be closed. Under colour of *nigaring*, however, no right is conferred to irrigate culturable land for the purpose of sowing a crop or maturing any existing crop.

II.—That water will be supplied at the level at which it is ordinarily maintained in the distributary from which water is taken off, and that no earthen bunds or other works will be constructed to raise the level of the water in the distributary. No right to flow irrigation is conferred unless existing appliances admit of it.

III.—That a *lambardar* shall be appointed in the manner specified in Rule 12 to represent the interests of the cultivators and to perform the duties mentioned in Rule 9.

IV.—That the village channel from which water is supplied is kept in a proper state of repair, so that water shall not be wasted

V.—That water-rates are paid when due.

VI.—That water supplied for the irrigation of a specified block of land shall not, under colour of the permit, be utilized for the irrigation of land beyond the boundaries specified in application.

NOTE.—Where these conditions are infringed, appropriate penalties or disabilities to the extent specified in the Act or these rules will be enforced.

21. A permit shall not be issued where, in the opinion of the Canal Officer, waste is likely to occur. In the order refusing a permit on this ground, the manner in which it is apprehended that waste will occur shall be stated.

22. Permits for irrigation upon leases for a term of years (Appendix VIII) or upon *kharif* season leases (Appendix IX) shall be issued under the following conditions:—

I.—The land to be irrigated must form a compact block defined by well-marked boundaries of such a nature as clearly to distinguish leased from the adjoining unleased lands, and to preclude the possibility in ordinary circumstances of water escaping from the boundaries without obvious wilful cutting or demolition. They must be maintained in the same state of repair during the currency of the lease as existed when the permit was granted and also be so situated that unleased lands will not be ordinarily or probably irrigated by water supplied for the land included in the block. The boundaries must be mentioned in the application for a permit for the season, and in the notice referred to in Rule 16(*c*), when a permit for a lease for a term of years is applied for.

II.—The Canal Officer may exclude lands included in the block not irrigable by flow or for which canal water is ordinarily not required. In the case of permits for a term of years, the block must be not less than 50 bighas in area. In cases where the Divisional Canal Officer considers it advisable to grant a permit to a block of less area than that mentioned above, the previous sanction of the Superintending Canal Officer must be obtained. No permit for a term of years shall be issued unless the owners of the village channel from which water is to be obtained have been registered and the channel itself is in a good state of repair; such as to fit it for the conveyance of water without wastage occurring. Such leases will not be issued unless it is known from the experience of previous years' irrigation that a sufficient supply of water is always available, and that the quantity required is not excessive.

III.—A permit for a lease for a term of years may be cancelled by the Superintending Canal Officer with effect from a date to be specified in the order for good cause on the application of all the signatories thereto.

IV.—Permits for the season will be issued under less favourable conditions as to situation, soil and quantity of water available; it will not be necessary that the owner of the channel should be registered, but the channel itself must be entered on the register.

V.—Water-rates will be levied on the areas of the blocks specified in the permits, and measurement of the areas actually irrigated will not be necessary.

22A. Permits (Appendix XI) for a single watering during the *kharif* season from 26th June to 25th October may be issued under the conditions prescribed in Rule 23 (I) (II) (III) below, if water is available after meeting the demands for the areas leased under a term of years or for the season.

23. Permits for irrigation in the *rabi* and hot weather seasons, 25th October to 25th June (Appendix X), will be issued on the following conditions:—

I.—The applicants will undertake to give the *lambardar* notice to close the outlet as soon as the area requiring irrigation has received a sufficient supply of water.

II.—The applicants will undertake, as far as is practicable, to prevent water supplied being wasted or applied to the irrigation of fields not included in the application.

III.—Water-rates will be levied on the areas actually irrigated, and not on those specified on the application.

ON DISABILITIES AND PENALTIES.

24. At the request of the Collector, the Superintending Canal Officer may direct the Divisional Canal Officer to—

I.—Cease to issue permits for the irrigation of land in villages where there have been constant difficulties in realizing water-rates until all the arrears of water-rates due are paid up, and also, if specially required, unless half the amount due for the ensuing year under future applications are paid up in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

II.—Cancel any lease for a term of years if, after the lapse of one month from the latest date of payment, the water-rates (except such as are irrecoverable under Rule 63) are in arrears.

25. The Divisional Canal Officer may, with the concurrence of the Collector and the sanction of the Superintending Canal Officer, cancel a lease for a term of years if water is habitually misused or wasted. Such an order shall have effect from the 25th June next ensuing, and two months' notice at least must be given to the *lambardars* for the information of the cultivators.

25A. When the Divisional Canal Officer acting under section 60 strikes a channel supplying a long lease off the register, he shall, if the remaining registered channels cannot satisfactorily irrigate the block, at the same time cancel the lease, provided that—

(*i*) If the order for cancellation be made between the 25th of June and the 25th of October no water-rate shall be payable for the period subsequent to the 25th June preceding the date of the order.

(*ii*) If the order for cancellation be made between the 25th June and 25th March, half the annual rate will be payable for the period subsequent to the 25th June preceding the date of the order.

ON THE SUPPLY OF WATER.

26. I.—Any Canal Officer may, in the case of pressing emergency, stop the supply of water to any canal or distributary. If such order is passed by an officer below the rank of a Divisional Canal Officer, it shall forthwith be reported to the Divisional Canal Officer, and if the stoppage exceeds five days in duration, to the Superintending Canal Officer.

II.—The Sub-Divisional Canal Officer may, by written order under section 76*a*, stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that either it, or, in case the channel is supplying a long-term lease, the boundaries of such lease are not maintained in proper repair. Such order shall be recorded in the Sub-Divisional office.

III.—No person shall be entitled to be supplied with water until the village channel has been put in a proper state of repair in accordance with directions given by the Sub-Divisional Canal Officer.

IV.—The Canal Officer or any of his subordinates may temporarily close an outlet supplying a village channel from which unauthorized irrigation is, at the time the outlet is closed, being carried on.

27. The Divisional Canal Officer may close the outlets in rotation as he may consider necessary. The periods of such closures must be notified to the *lambardars* concerned.

28. No water shall be supplied nor shall any person be entitled to a supply of water until a permit signed by a Canal Officer authorized to sign a permit has been signed and issued.

29 The Canal Officer will be responsible that the supply through the outlet is in the *kharif* and *rabi* seasons maintained in accordance with the requirements of the crops. In both seasons it will be the duty of the *lambardar* to inform the Canal Officer or subordinate when the area under lease has been fully irrigated, so that the outlet may be closed, or if he has, under rule 14, been given charge of the outlet, to close it himself.

ON DEMAND STATEMENTS.

30. The statements of the amounts demandable for water-rates leviable under the rules in force shall be prepared under the supervision and stamped signature of the Divisional Canal Officer, in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

31. The demand statements for water-rates due under leases for a term of years shall be prepared at the same time as the application, and a copy thereof shall be given to the *lambardar* as well as a *purcha* for each signatory to the lease with the permit. No further notice of demand shall be given during the currency of the lease.

32. The demand statement for water-rates due under a lease in the *kharif* season shall be prepared either before the permit is issued, or as soon as conveniently may be after its issue, and shall, without reference to the land having been actually irrigated up to that time

or not, show the water-rates due by each person whose land is included in the application. Demand statements (*parcha*) showing the sums due from each applicant shall be sent to the *lambardar* for distribution, and no further notice of demand shall be given.

33. For irrigation during the hotweather or *rabi* season, the following procedure shall be followed:—

I.—The area irrigated in any village shall be measured by an amin appointed for the purpose. The *khasra* shall be signed by both the amin and the *lambardar*, who shall be present at the measurements. If the *lambardar* is not present, the amin shall arrange that at least two respectable cultivators shall be present and enter their names in the *khasra* prepared by him.

II.—When the measurement is completed, the *khasra* shall be forwarded to the Sub-Divisional Canal Officer, who shall prepare the demand statement (*khatiani*) with all possible despatch. Copies of extracts of the demand statement affecting each separate cultivator (*parchas*), signed and sealed by the *zilladar*, shall, as soon as prepared, be forwarded to the *lambardar* for distribution amongst the persons charged. The *lambardar* shall grant a receipt for the *parchas* forwarded.

III.—If the *lambardar* is not present, or declines to grant a receipt for the same in the prescribed form, the Sub-Divisional Canal Officer shall make other efficient arrangements for serving each person assessed with a *parcha* showing the amount due from him. *Parchas* may be sent by post.

34. Objections to the demand statements prepared in accordance with the preceding rules 31, 32 and 33 may be presented, either personally or through the *lambardar*, to the Sub-Divisional or Divisional Canal Officer, who shall thereupon, after such enquiry as he may consider to be necessary, pass orders on the same. A copy of the order passed (which may be sent by post) shall be served on the person making the objection. Objections to the demand addressed to the Collector shall be referred for the orders of the Divisional Canal Officer.

35. Objections to the demand statements must be presented within thirty days of the date on which the *parcha* was received by the *lambardar*, but this period shall be extended where reasonable cause for delay can be established.

36. The objections may be in a form, which will be sold for half-an-anna at all Canal offices, giving instructions as to the particulars required to admit of the objections being readily investigated; but any form will be accepted provided it clearly states the name or names of the persons objecting, the crop, and the year for which the charge is made, and the demand from each cultivator to which objection is taken.

37. Any person not satisfied with the order passed by the Canal Officer under rule 34 may file an application of appeal to the Collector under section 91 of the Act. Such application must be accompanied by a copy of the order appealed against. The Collector shall thereupon, after considering the records of the case, pass such order as he may think fit, and shall meanwhile have discretion to suspend collections by a written order in cases where it may seem advisable to do so.

38. When the order appealed against to the Collector is that of a Sub-Divisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record thereon any remarks he may think fit. The papers shall not be detained for the purpose of enabling the Divisional Canal Officer to make further enquiries which, however, may be directed by the Collector on the suggestion of the Divisional Canal Officer or on his own motion.

39. Applications for mutations of names in leases for a term of years shall be made to the Collector; if addressed to the Canal Officer they shall be referred to the Collector for disposal. Applications for alterations in long-term leases on account of wrong assessment shall be made to the Divisional Canal Officer; if presented to the Deputy Collector they shall be referred to the Divisional Canal Officer for disposal.

39. (*a*) When the mutations of the names of rate-payers are found to be more than 30 per cent. of the whole, the Deputy Collector will request the Divisional Canal Officer to prepare and forward a revised demand statement. The same rule applies for other crops.

ON WATER-RATES.

40. Water-rates imposed under section 79 of the Act for the irrigation effected in the hot weather or *rabi* seasons, shall be assessed by the Canal Officer at rates which shall be fixed by the Divisional Canal Officer, and which shall not be greater than those shown in the following schedule:—

	FLOW OR LIFT.	
	Rate per bigha.	Rate per tenth of a bigha.
	Rs. A.	A.
For water used in an unauthorized manner.	6 4	10

In the *kharif* season water-rates shall be imposed by the Divisional Canal Officer under section 79 *only* after the sanction of the Collector has been obtained to make a detailed measurement of the land irrigated without authority.

NOTE Areas irrigated by *bona fide* surplus water drained off from a leased area shall not be assessed. *Bona fide* *sugar* is defined as water drained off the field while the outlet remains closed.

The Collector's sanction is not in itself authority for the imposition of water-rates—it merely authorizes proceedings being instituted. The rates to be charged in the *kharif* season will be subject to the same maxima as in the hot weather and *rabi* seasons. Persons using water without a permit shall, unless exempted by section 74 of the Act, be charged water-rates according to the season in which water is used, at the rates specified in this rule.

41 Charges for waste of water imposed under section 80 of the Act shall be at the rates fixed in the rule immediately preceding, and be subject in the *kharif* season to the same condition as regards sanction by the Collector as is required by that rule; where a tank or *ahara* has been filled, a charge of Rs. 5 per thousand cubic yards may be made in lieu of an acreage charge.

42. Water-rates assessed under sections 78, 79 or 80 of the Act shall be paid on or before the dates mentioned below:—

For leases for a term of years entered into after the 1st January 1898.	One kist on or before the 15th January.
Season leases—	
Under Schedule No. II ...	For rice and sugarcane on or before the 15th December. For a single watering, on presentation of the demand.
Ditto No III ...	*Rabi* and sugarcane on or before the 5th April.
Ditto No. IV ...	Hot weather irrigation on or before the 1st July.
Assessments under section 79 of the Act or under Rule 40. Assessments under section 80 of the Act	On presentation of the demand
Water supplied by volume between the 1st of September and 31st of October	One moiety before the outlet is opened, the other moiety on or before the 15th December.
Water supplied by volume to fill *aharas* ...	The whole amount before the outlet is opened.

The Divisional Canal Officer shall forward the demand statements of leases under Schedule No II to the Collector as soon as they have been prepared in accordance with rule 32. He will forward these and all other demand statements as soon as they are ready and will endeavour to send them at least fifteen days before the latest dates fixed for the payment of the water-rates, but accuracy in the individual charges shall be regarded as of more importance than a rigid adherence to dates.

43. Where lands are held on a *bhaoli* tenure, the entire water-rates assessed under section 78 of the Act shall be demandable from the occupiers of the land assessable; but at the written request of the *bhaoli* owner, in the form, Appendix VII, which may be presented to the Divisional Canal Officer or to the Collector, the water-rates shall be recovered from the cultivators and the person or persons in receipt of the *bhaoli* rents in the same proportion as the produce is divisible amongst them. The demand statement shall be made out by the Divisional Canal Officer in the name of the cultivators, any necessary modification therein, owing to a request made by a *bhaoli* owner under this rule, being carried out by the Collector. But on lands under Government management half the rates should be paid by the landlords, and in other cases any influence which the Collector may possess should be used to make the zamindar consent to this equitable arrangement.

44. In the case of lands held under a *bhaoli* tenure being assessed under section 79 of the Act, the whole of the persons deriving benefit therefrom shall be assessed in the same proportion as the produce is divisible amongst them.

ON REMISSIONS.

45. The water gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of failure of supply.

46. Claims to remission of water-rates under section 76(*b*) shall only be admitted on proof of actual loss caused by failure of supply. On proof of such loss, the Divisional Canal Officer may remit the whole or any part of the rates. All applications for remission of water-rates shall be made in the manner provided in rule 34 and not less than twenty days before the crop is cut. The Divisional Canal Officer, with the previous sanction of the Superintending Canal Officer, which sanction may be delegated to any Divisional Canal Officer, when the crop of an individual cultivator of a season lease has failed to the extent of losing twelve annas or more of its value in the rupee, may, as a matter of grace, grant remission up to 10 per cent. of the area assessed against the cultivator, notwithstanding that the deficiency in the crop is due to causes other than through partial or total failure in the supply of canal water.

47. Before awarding compensation under section 76(*c*), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings. All applications for compensation under section 76(*c*) must be made not less than twenty days before the crop is cut.

48. Notwithstanding anything contained in these rules, the Superintending Canal Officer may, should he consider the circumstances of the case require it, under such general instructions as he may from time to time receive from Government, remit, under the head "Extraordinary", so much of the water-rates as are in excess of ten annas a bigha. But no such remissions shall be claimable as a right, nor shall any person be entitled to receive an order on an application for remission under this head, which will ordinarily only be made on the representations of Divisional Canal Officers.

49. A remission statement signed by the Superintending, or Divisional Canal Officer, shall be sufficient authority for a refund by the Collector.

INTERMEDIARY AGENCY.

50. Leases in the *kharif* season for a term of years will be entered into with associations of cultivators as specified in these rules; and also on the joint application of the cultivators and of some person hereinafter called the contractor, who shall collect and pay to Government, under section 82 of Act III (B C.) of 1876, all sums due under the agreement on account of water-rates. The joint agreement shall be in the form given as Appendix II to these rules. The contractor must have a beneficial interest in some part of the land included in the application extending for the full term of the lease.

51. Contractors shall be entitled to collect water-rates from the cultivators who have signed the application and from their successors in interest in the land included in the block at the rates fixed by the Lieutenant-Governor under section 78 of the Act. Every due from a cultivator to a contractor on account of water-rates shall be deemed to be a sum due to Government under sections 82 and 85 of Act III (B C.) of 1876.

52. A contractor (or in case there be more than one, each contractor severally and jointly) shall use due diligence in the collection of the water-rates specified in the agreement from the cultivators who have applied for the water supplied. In the case of his failure after due diligence to collect, he shall, within thirty days of the rates becoming due, submit to the Collector a list showing the names of the defaulters with the sums due from each, and the Collector shall thereupon proceed to realize the amount due from the said defaulters according to law.

53. A contractor (or in case there be more than one, each contractor severally and jointly) shall be responsible for all sums payable on the agreement, except such sums as he may satisfy the Collector that he has been unable to collect after using due diligence, and shall be entitled to a deduction of 5 per cent. on all sums collected by himself.

54. In the case of a lease entered into under an application in the form given as Appendix I, a contractor may subsequently be appointed by the Collector with the written approval of the Superintending Canal Officer Such contractor must, for the whole term of the lease, have a beneficial interest in some part of the land included in the application, and must sign an application in the form given as Appendix IIA The appointment shall not be made unless the *lambardars* and leading cultivators give their assent in writing thereto, and the Collector is satisfied that the appointment of a contractor is acceptable to the signatories to the lease.

55. The contractor appointed under rules 50 and 54 may, but shall not necessarily, be *lambardar*. The *lambardar* will in all cases be appointed by the Canal Officer under the provisions of Rule 12, and shall be remunerated at the rates specified in Rules 11 and 14, subject to the conditions mentioned in Rule 15.

56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall be entitled to a deduction of 2½ per cent. on all sums collected by himself in addition to the deduction of 5 per cent. to which he is entitled under rule 53, *i.e.*, to a total deduction of 7½ per cent.

57. No steps shall be taken to prepare a joint application by cultivators and a contractor until the written assent of the Collector to the proposed contractor has been received, nor shall the Collector take any steps towards the appointment of a contractor under rule 54 until the written assent of the Superintending Canal Officer has been received. The Collector may, before approving of a contractor under this rule, require him to give security for the due performance of the contract.

58. A contractor may resign his interest in the lease by giving notice to the Divisional Canal Officer three months at least before the 25th June next following, in which case his connection with the lease shall cease from that date, and the Sub-Divisional Canal Officer shall proceed to appoint a *lambardar* under rule 12, and the Collector to realize water-rates due directly from the applicants. The Divisional Canal Officer may, at the instance of the Collector, remove a contractor who fails to use due diligence in making collections. In such cases three months' notice at the least before the 25th of June next following shall be given, and the removal shall take effect from that date. The Collector may, under the conditions and procedure specified in rule 54, appoint a new contractor in place of a contractor who has resigned.

59. With the written approval of the Superintending Canal Officer, a contractor may measure and prepare demand statements for lands irrigated in the hot weather, for which applications in the prescribed form have been filed by him. Such demand statements shall be forwarded to the Sub-Divisional Canal Officer, who shall thereupon proceed to deal with them as if they had been prepared by himself.

60. When an agreement has been made for the collection of rates by a contractor, the Divisional Canal Officer shall, under section 82 of the Act, furnish such contractor with a written authority to collect the amounts due by the cultivators, a copy of which shall be sent to the Collector.

60.(*a*) The contractors are to note the number and year of the *khationi* and the serial number of the rate-payer on receipts granted by them in order that the particular demand may be traced when a mutation is applied for by a rate-payer.

ON COLLECTIONS AND ALTERATIONS IN DEMAND STATEMENTS.

61. Collection of all water-rates shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer except in the case of lands held *brahmottar*, regarding which the provisions contained in rule 48 shall be followed.

62. The Collector may make any alterations in a demand statement provided the total sum shown to be due is not altered or an error in account only corrected. When such alterations are made in a demand statement appertaining to a lease for a term of years, a copy of the alteration statement shall be sent to the Divisional Canal Officer.

63. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Collector. A detailed list of all sums so written off shall be forthwith sent to the Superintending Canal Officer. In other cases the sanction of the Commissioner of the Division must be obtained, through the Superintending Canal Officer, to admit of demands being written off under this head.

MISCELLANEOUS.

64. No person shall, without the permission in writing of the Divisional or Sub-Divisional Canal Officer, pass, or cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting by means of such bridges, fords and ferries and their approaches as are provided by the Divisional Canal Officer.

65. No officer employed on the canals, unless especially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly, or in shares with others

66 Tanks may be filled with canal water without charge and without reference to the area irrigated in any village, wherever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

(*a*)—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both

(*b*)—No tank shall be so filled from which irrigation is practised.

(*c*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d*)—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer issued on the written application of the parties concerned.

(*e*)—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.

(*f*)—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for twelve months for breach of any of the above conditions.

67. The Divisional Canal Officer may supply water for manufacturing* or other purpose, charging for the same at the rate of one rupee per each 4,000 cubic feet or part of 4,000 cubic feet supplied. For the manufacture of bricks the rate is Rs. 5 per lakh of bricks, but when bricks are found to be manufactured without the previous sanction of the Divisional Canal Officer a rate of 4 as. per thousand bricks will be charged. Contracts between the Divisional Canal Officer on the part of Government and private individuals for the use of water as a motive power, or for any purpose whatsoever not specified in this rule, or the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer, and if proposed for longer than a year, shall be submitted for the sanction of the Lieutenant Governor.

68. Patwaris called on to assist in identifying land or signatures or to give evidence shall receive such remuneration by way of fee as may be fixed by the Superintending Canal Officer or Collector with the approval of Government, but their signature shall not necessarily be required to any document prepared under these rules. The fees shall be disbursed at the time of attendance as far as practicable by the Sub-Divisional Canal Officer or Collector, whoever may require the patwari to attend.

69. Any Deputy Collector or Sub-Deputy Collector may, under the general orders and control of the Collector, exercise the powers conferred on the Collector by Rules 9, 10, 11, 15,

* Superintending Engineer's No. 858, dated 20th February 1882, fixed rate for use of Canal water for brick manufacture at Rs 5 per lakh.

34, 39, 43, 52, 53, 54, 57, 58, 59, 61, 62, 63, and 68, provided that all orders passed by such Deputy Collector or Sub-Deputy Collector shall be appealable to the Collector, if a petition of appeal is preferred within thirty days of their being passed.

70. The Collector may, by a special order passed in each case, refer applications under rules 37, 40, or 41 to any Deputy Collector for report or disposal. An appeal against an order passed by a Deputy Collector under this rule may be preferred by either the applicant or the Divisional Canal Officer.

79. In the case of leases under Schedules I and II, water will be supplied for rice-seed beds only as early in June as the supply in the river admits.

80. In the case of leases under Schedule II, no extra charge will be made for a crop of *kesari*, linseed, or *gram* sown on rice-fields watered with canal water, and water will be supplied until the 15th of November, if required.

81. In the case of leases under Schedule III, the Divisional Canal Officer may, in years when the demand for water for *kharif* crops admits of it, supply water for *rabi* on any date after the 7th October.

82. When in the area covered by a season lease only (I) no crop is sown in a field, or (II) the crop fails during the currency of the lease, water-rates may be levied at the rate of ten annas a bigha, provided that no application to be charged at these reduced rates shall be entertained unless presented twenty days before the crop is cut, and also during the currency of the lease.

83. In assessing water-rates under Schedules III and IV, the areas to be charged shall be subject to the following rules:—

I.—If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half-a-foot high.

II. When a portion of a field has been irrigated with canal water and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

84. Irrigation from escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

85. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

86. Irrigation from Government drainage cuts shall be governed by the same rules as are laid down for irrigation from escape channels.

B. HEATON,
Principal, Civil Engineering College

BIHAR SCHOOL OF ENGINEERING.

PROSPECTUS FOR ADMISSION.

THIS school is under the management of the Principal, assisted by a Board of Visitors. It owes its origin to a fund raised by residents of Bihar to commemorate the visit to India of His Majesty the King when Prince of Wales. The object of the fund was the promotion of technical instruction in Bihar. The school was formally opened on the 11th July 1896 by His Honour the Lieutenant-Governor of Bengal.

2. The number of students admitted each year will be limited to 60. Preference is to be given to Biharis. Failing, however, a sufficient number of Bihari applicants, students who are natives of other provinces may be admitted, preference being given to Bengalis domiciled in Bihar over non-domiciled Bengalis or other applicants.

As far as accommodation is available, students who have passed the final "B" Class examination will be admitted to the second-year class, provided they are not over 21 years of age, preference again being given to Biharis and domiciled Bengalis.

3. The school, as at present constituted, is chiefly engaged in training students for appointment as Sub-Overseers, Overseers and Upper Subordinates.

Students are prepared for the examinations conducted by the Joint Technical Examination Board.

4. The next session will commence on 3rd July 1911.

5. In the Overseer Department, which corresponds to the Apprentice Department of the Sibpur College, the monthly fee is Re. 1-8, except for non-domiciled Bengalis, who shall pay Rs. 3. Government scholarships of the value of Rs. 7 a month, tenable for one year, are awarded each year on the results of the annual examination, *eight* being tenable in the second-year class, *six* in the third-year class, and *six* in the fourth-year class.. Of the scholarships attached to the school, 75 per cent. are to be reserved for those students who are Biharis by race. The teaching is in English

6. Candidates for admission to the Overseer Department must be under 20 years of age, and must have passed one of the tests mentioned below:—

(1) The Entrance Examination of an Indian University in English and Mathematics.

(2) The equivalent Test Examinations for European schools.

(3) Students who have not passed any of these tests, and who are otherwise eligible, will have to pass an examination in English and Mathematics (of about the same standard as the University Matriculation examination in these subjects) to be held at the school, on the 3rd and 4th July, respectively, from 10 A.M. to 1 P.M. each day.

7. All applications for admission must reach the Principal not later than the 28th June. Applicants must give the following particulars:—

(*a*) Name, address, and occupation of father or guardian.

(*b*) Race and religion. (A domiciled Bengali must produce evidence to show that his father, with his family, has taken up their permanent residence in Bihar.)

(*c*) A certificate of good moral character from last head-master.

(*d*) An attested certificate of age (showing that he is under 20 years of age).

(*e*) A medical certificate showing him to be fit for employment in the public service.

(*f*) A certificate of having passed either of the first two of the three tests mentioned above, failing which the application will be kept pending till a certificate showing that the candidate has passed the third test is given to the Principal.

8. There is also an Amin class, admission to which may be obtained by students who do not know English. In the Amin class the course of study is for one year, and the monthly fee is Re 1. An Amin student is taught elementary surveying with a corresponding amount of mathematics and of geometrical drawing. He will not be admitted to the workshop. A student in the first-year class of the Overseer Department, who fails to pass the examination for promotion to the second-year class, but who has shown an adequate knowledge of elementary surveying and the other subjects taught i the Amin class may, at his option, leave the school with an Amin certificate.

All candidates for the Amin class, will be examined at the school on the 3rd July; candidates failing at this examination will not be admitted The subjects of the examination are dictation and elementary mathematics of about the middle vernacular standard.

9. Except in very special cases, a student will not be admitted to the Amin class for the session that commences from 3rd July 1911 unless application for admission is made before 28th June 1911.

10. There is a hostel in connection with the school. The fees are Re. 1-8 for room and Re. 1 for light. Students make their own mess arrangements. Students joining the Overseer classes must reside in the hostel unless they are residents with parents or with nearly related guardians, whose homes are near enough to enable them to attend the school at the required times. The Principal will decide whether a student should reside in the school hostel, or whether the guardian proposed can be accepted as such.

11 The initial expenses for books, instruments, etc., for a student joining the Overseer Department are as follows :—

		Approximate cost. Rs.	A.
Books		10	0
Drawing instruments		25	0
Workshop deposit		10	0

Arrangements will be made for a systematic course of lectures, Moot Courts and regular exercises. Facility will also be given to students to read in the College Library after the College hours under the supervision of the Principal or a member of the staff.

The College fees will be Rs. 6 per month. An admission fee of Rs. 6 will be charged in the case of first admissions to the College.

Sixteen Scholarships of Rs. 10 a month, each tenable for one year, have been established. Eight of these will be open to competition among students of the First-year Class, and the other eight among the students of the Second-year Class. The Scholarships in the First-year Class will be awarded towards the end of September upon the result of a College test to be held at that time. Those in the Second-year Class will be awarded upon the results of the Preliminary Examination in Law. They will take effect retrospectively from July. Fourteen Scholarships of Rs. 6 a month, tenable for one year, will also be awarded from the endowment established by the Hon'ble the Maharaja of Cossimbazar.

Two Scholarships of Rs. 32 a month, each tenable for two years, have been established to be open to competition among students who have prosecuted their studies in the University Law College not less than a year. The award will be made upon the results of the Final Examination in Law and on condition that the recipients do prosecute a course of study for the M.L. Examination under the direction of the Principal.

Provision has been made for the residence of students who do not reside with their parents or guardians. Such students must apply on or before the 1st July 1911.

Students are recommended in all cases to take their admission before the 1st July 1911.

The College classes will be held ordinarily from 9 A.M. to 11-15 A.M. and from 4-30 P.M. to 6-45 P.M.

To the College is attached an extensive Law Library containing numerous sets of Reports and Text-books. The Library is divided into two Sections—(A) for reference, (B) for lending. Books in Section (A) may be consulted by students at any time from 9 A.M. to 6-30 P.M. Books in Section (B) may be borrowed by students; no deposit is required, if *one* volume is borrowed. Those who deposit Rs. 5 are allowed to borrow two volumes at a time.

During the last session, the Hon'ble the Vice-Chancellor presided over many of the Moot Courts. Similar arrangement will be made during the ensuing session.

All applications for admission are to be addressed to the Registrar, Senate House, Calcutta, to whom any application for further information may be sent.

G. THIBAUT,
Registrar.

THE INDIAN LAW REPORTS

Published in FOUR SERIES, viz

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

IN supersession of (*i*) the Resolution of the Government of Bengal, General Department, dated the 30th October 1889, published at pages 2106-08 of the Supplement to the *Calcutta Gazette* of the 6th November 1889, (*ii*) the Notification dated the 1st January 1890, published at page 25 of part I of the *Calcutta*

Gazette of the 8th January 1890, (*iii*) Notification No. 670T.—G, dated the 1st November 1897, published at page 1386 of Part I of the *Calcutta Gazette* of the 10th November 1897 and (*iv*) Notification No. 2479, dated the 31st July 1900, published at page 824 Part I of the *Calcutta Gazette* of the 1st August 1900, the Lieutenant Governor in Council approves the following rules for the award of Government Junior and Senior Scholarships.

JUNIOR SCHOLARSHIP RULES.

On the results of the Calcutta University Matriculation Examination one hundred and nine Government scholarships are awarded annually to successful candidates educated at schools in the province of Bengal, which are recognized as High Schools by the Calcutta University.

2. These Scholarships are of three grades, 7 of the first grade of the value of Rs. 20, 33 of the second grade of the value of Rs. 15, and 69 of the third grade of the value of Rs. 10 a month.

3. With the sanction of the Director of Public Instruction, a Junior Scholarship may be held at any College affiliated to the Calcutta University; at any Goverment Medical School in the province of Bengal or in that of Eastern Bengal and Assam; at the Veterinary Institution, Calcutta; and at the discretion of the Director of Public Instruction, Bengal, in the Apprentice Department of the Civil Engineering College, Sibpur; the Government Commercial Institute; at any other Technical Institutions in the province of Bengal; and in the United Kingdom.

4. Each Scholarship shall, subject to good conduct, be tenable for two years, provided that the holder is certified by the Principal of his College, at the end of the first year, to have made due progress in a collegiate course of instruction.

5. The holder of a Junior Scholarship in an institution not under the management of Government, shall be liable at any time to be examined by two persons appointed by the Director of Public Instruction and approved by the Principal of his College or Institution, and, on proof of unsatisfactory progress, may be deprived of his Scholarship.

6. Unless he has been transferred from one school to another within that period, with the sanction of the Inspector of Schools, no candidate shall be eligible for a Scholarship who has not studied for a whole year at the school which presents him at the Matriculation Examination.

7. The Scholarships of the first grade shall be awarded to the candidates who obtained the highest aggregate marks at the Matriculation Examination.

8. The Scholarships of the second and third grades shall, subject to future reconsideration, be allotted to the several Commissionerships in the following proportion:—

	Second grade.	Third grade.
Burdwan Division	6	12
Town of Calcutta	6	11
Presidency Division (outside Calcutta)	6	12
Patna	3	5
Tirhut	3	7
Bhagalpur	3	9
Orissa	4	8
Chota Nagpur	2	5
Total ...	33	69

9. The Commissioner of a division, in consultation with the Divisional Inspector, shall notify in the *Calcutta Gazette*, not later than the 1st September of each year, the number of Junior Scholarships to be allotted to each district at the ensuing Matriculation Examination. This distribution shall be confined to third grade Scholarships, those of the second grade being awarded to the best students in the division without reference to districts. Scholarships, not taken up in the district or division to which they are assigned, may be awarded by the Director of Public Instruction, at his discretion, to deserving

candidates from other divisions, special regard being had to the requirements of those parts of the province of Bengal in which it is considered desirable to stimulate the demand for collegiate education.

10. The holders of Junior Scholarships in all Government Colleges shall be required to pay the usual monthly fees levied on other students, provided that no Scholarship-holder shall be required to pay a higher fee than Rs. 10 a month.

11. The right of sending up candidates for Junior Scholarships may, at the discretion of the Director of Public Instruction, be withheld for any period from any school (*a*) which is convicted of wilful transgression or colourable evasion of the transfer rules for High Schools, or (*b*) the maintenance of which appears to the Director of Public Instruction to be, for any sufficient reason, injurious to the interests of education, or (*c*) which is not certified by the Inspector of Schools as having been in existence since the 1st July next preceding the examination, and as qualified to teach up to the Matriculation standard, or (*d*) which is not recognized by the Calcutta University as a High School.

Special Junior Scholarships for Muhammadans.—Six Scholarships of Rs. 7 a month each, tenable for two years at any College affiliated to the Calcutta University, shall be awarded to Muhammadan students of the Lower Provinces passing the Matriculation Examination, and failing to obtain any more valuable exhibition.

Special Junior Scholarships for females.—Three Junior Scholarships, one of each grade, shall be open annually for competition at the Matriculation Examination to female candidates educated in any school in the province of Bengal. They shall be awarded on conditions similar to those prescribed for general scholarships, and shall be tenable in any collegiate institution approved by the Director of Public Instruction, or in the certificate class of the Medical College.

Special Junior Scholarships for Aborigines.—Two Junior Scholarships of the value of Rs. 8 a month each, tenable for two years, and carrying with them the privilege of free tuition, shall be awarded annually to pupils of aboriginal races in the Chota Nagpur Division. In the absence of such candidates the Scholarships may be awarded in other districts to aboriginal candidates whose names shall be communicated to the Director by the Inspectors when submitting lists of candidates for Junior Scholarships.

SENIOR SCHOLARSHIP RULES.

On the results of the Intermediate Examination of the Calcutta University, thirty-seven Government Senior Scholarships are awarded annually to successful candidates educated in any College in the province of Bengal affiliated to the University of Calcutta.

2. Senior Scholarships are of two grades, 7 of the first grade of the value of Rs. 25, and 30 of the second grade of the value of Rs. 20 a month.

3. The Director of Public Instruction is authorized to assign Scholarships to Arts or Science, at his discretion, and to apportion Scholarships between Art and Science candidates in such manner as in his judgment best accords with the comparative merits of the candidates.

4. With the sanction of the Director of Public Instruction, a Senior Scholarship may be held at any College which is affiliated to the Calcutta University or in the United Kingdom.

5. Each Scholarship shall, conditionally on good conduct, be tenable for two years, provided that, at the end of the first year, the holder is certified by the Principal of his College to have made due progress in a collegiate course of instruction.

6. The holder of a Senior Scholarship in a College not under the management of Government shall be liable at any time to be examined by two persons appointed by the Director of Public Instruction and approved by the Principal of his College, and, on proof of unsatisfactory progress, may be deprived of his Scholarship.

7. Second year students alone, *i.e.*, students who present themselves for the Intermediate Examination not more than two years after passing the Matriculation Examination, shall be eligible for Senior Scholarships.

8. The Scholarships of the first grade shall be awarded to the seven candidates who obtain the highest aggregate marks at the Intermediate Examination of the Calcutta University.

9. The thirty Scholarships of the second grade shall, subject to future consideration, be reserved for students of the province of Bengal in Colleges affiliated to the Calcutta University in the following proportion :—

	Number of scholarships.
Town of Calcutta	10
Presidency Division, (outside Calcutta)	5
Burdwan Division	5
Patna Division	4
Tirhut Division	1
Bhagalpur Division	2
Orissa Division	2
Chota Nagpur Division	1
Total ...	30

The second grade Scholarships shall be awarded to the candidates from Calcutta, and each division who obtain the highest marks at the Intermediate Examination, and who do not gain Scholarships of the first grade, provided that their names appear in the first or second division of the list of successful candidates. Senior Scholarships may, however, be awarded in special cases to candidates from Bihar or Orissa who pass in the third division. Senior Scholarships not taken up in the areas to which they are assigned may be awarded by the Director of Public Instruction, at his discretion, to deserving candidates from other areas, special regard being had to the requirements of those parts of the province of Bengal, in which it is considered desirable to stimulate the demand for collegiate education.

10. No candidate shall be eligible for a Senior Scholarship who has not studied continuously for one academical year in the College which presents him at the Intermediate Examination, unless within that period he has been transferred from one College to another with the sanction of the Director of Public Instruction.

11. The holder of Senior Scholarships in all Government Colleges shall be required to pay the usual monthly fees levied from other students.

Special Senior Scholarships for Muhammadans.—Eight Scholarships tenable for two years—four of Rs. 10 a month each, and four of Rs. 7 a month each—shall be awarded, on the results of the Intermediate Examination of the Calcutta University, to Muhammadans who fail to obtain any of the above Senior Scholarships.

Special Senior Scholarships for Females.—Two Senior Scholarships, one of each grade, shall be open annually for competition at the Intermediate Examination of the Calcutta University, to female candidates educated at any College in the province of Bengal. These Scholarships shall be awarded on conditions identical with those laid down for the general Senior Scholarships, and shall be tenable in any collegiate institution approved by the Director of Public Instruction.

Special Senior Scholarships for Aborigines.—Two Senior Scholarships of the monthly value of Rs. 20 each, tenable for two years, shall be awarded annually on the results of the Intermediate Examination of the Calcutta University, to students of aboriginal races in the Chota Nagpur Division who do not gain any other Scholarships of equal or greater value. In the absence of such candidates, the Scholarships shall be awarded to students of aboriginal races in other districts in the province of Bengal.

By order of the Lieutenant-Governor in Council,

J. G. CUMMING,

Secretary to the Government of Bengal.

[Fourth publication.]

The 15th May 1911.

No. 4.—Notification.—The following draft of a notification which the Lieutenant-Governor in Council intends to issue under sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act, III of 1876), for the Sone Canals, is published for the information of persons likely to be affected thereby.

The draft will be taken into consideration on the 1st July 1911, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

T. BUTLER,
Secy. to the Govt. of Bengal.

Draft Notification.

In exercise of the powers conferred by sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act, III of 1876), and in supersession of all previous notifications under those sections for the Sone Canals [except Notification No. 148, dated the 20th June 1881, published at page 637 of Part I of the *Calcutta Gazette* of the 22nd June 1881, which shall remain in force for the purposes of rule 71 (*g*) annexed to the present notification], the Lieutenant-Governor in Council is pleased to make the following rules for the Sone Canals.

GENERAL CONDITIONS.

1. The Collector, before awarding compensation under section 16 or 76 (*c*) or making a reference under section 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of proceedings.

2. Except as provided in Act III (B.C.) of 1876 (the Irrigation Act) and these rules, no appeal shall lie from any order passed by a Canal Officer or the Special Deputy Collector in charge of the Revenue Division of the Sone Canals who has been vested with the powers of a Collector under the aforesaid Act. The Sub-Divisional Canal Officer, however, shall modify any order passed by him in accordance with the orders of the Divisional Canal Officer. The Sub-Divisional and the Divisional Canal Officers and the Special Deputy Collector in charge of the Revenue Division of the Sone Canals, shall modify any orders passed by them in accordance with the orders of the Superintending Canal Officer. The Superintending Canal Officer is empowered, and expected, to exercise a general control over the proceedings of all Canal Officers and of the Special Deputy Collector, the Sub-Deputy Collectors, and all other officers attached to the above-mentioned Revenue Division of the Sone Canals.

3 It will be the duty of the Superintending Canal Officer to issue orders on the following points:—

I.—The limits within which water will be available during the *kharif* season—(*a*) for annual leases; (*b*) for leases for a term of years.

II.—The distributaries from which water will be supplied during the hot season.

III.—The distributaries from which water will only be supplied during the *rabi* season at the rate (*see* Schedule III) ordinarily charged.

IV.—On sufficient cause being shown, to prohibit the issue of permits for the irrigation of land in specified localities generally or during the *kharif* season only.

Such public notice as is practicable will be given of the instructions under this rule as long as is possible before they are enforced.

4. Appeals to the Collector under section 91 of the Act, other than those specially provided for in rule 37, will ordinarily be from an order passed by the Divisional Canal Officer. The Collector may, when the order passed involves (I) the alignment of a village channel, (II) the refusal of the Divisional Canal Officer to accept a block as suitable for the issue of a permit for *kharif* irrigation, require the Superintending Canal Officer to state his opinion in writing, which shall form part of the record of proceedings in the case.

ON VILLAGE CHANNELS.

5. The Canal Officer shall prepare a list of channels which, previous to the 1st of April 1891, have been ordinarily used as village channels, and enter them in a register prepared in the manner prescribed in Part V of the Act.

6 A village channel which was constructed after the 1st of April 1891, or which had not ordinarily been used as a village channel before that date shall not be entered in the register except at the written request of the owners of it Water shall not be supplied for irrigation during the *kharif* season through any channel other than one which has been entered in the register.

7. Village channels which may be constructed in future shall not as a rule exceed one mile in length; the length being measured in a straight line from the outlet to the boundary of the part of the village which the channel is intended to irrigate.

8. The sum fixed by the Canal Officer as rent under section 68 of the Act shall not be less than half an anna, and shall not exceed four annas per bigha assessed with water-rate.

ON LAMBARDARS.

9. In every permit issued under section 75 of the Act other than those issued under rules 18 or 19 following, the name of one or more persons shall be entered as *lambardar*, who will be responsible for discharging the duties mentioned below :—

I.—Obtaining signatures to applications and certifying to the correctness of the same.

II.—Attending and giving assistance in measuring land irrigated or proposed to be irrigated.

III.—Giving timely information to the Canal Officer or subordinate of any insufficiency in the supply of water and promptly reporting when the irrigation of the leased area on any channel is complete

IV.—Supervising the distribution of the water supplied through an outlet amongst the persons entitled thereto and reporting any misuse of the same.

V.—Being present when complaints are investigated by a Canal Officer or subordinate, and giving information required in connection with the same.

VI.—Receiving *parchas* from the Canal Officer and distributing the same amongst the persons named therein.

VII.—Reporting before the 20th of October all cases in which crops have been injured by deficiency or irregularity of supply in the *kharif* season, so that these cases may be investigated before water-rates are demanded.

VIII.—Reporting to the Collector or to such officer as he may appoint mutations in holdings in the case of leases for a term of years.

IX.—Assisting the Collector by generally helping the collecting staff in the collection of water-rates.

(*See* also Superintending Engineer's Circular No. 7 of 1895.)

10. In the case of leases for the season, the remuneration for performing the duties mentioned in clauses I to VII and IX of the rule immediately preceding shall be 2 per cent. on the assessments (excluding fractions of rupees), which shall be paid by the Canal Officer. The amount paid shall be calculated in rupees and annas only, pies being omitted.

11. In the case of leases for a term of years, other than those entered into jointly with contractors, the remuneration to be paid to the *lambardar* for performing the duties mentioned in clauses I to IX of Rule 9 shall be 3 per cent. yearly on the assessment of the year (excluding fractions of rupees), which shall be paid by the Canal Officer. The amount paid shall be calculated in rupees and annas only, pies being omitted.

12. The *lambardar* will be appointed by the Sub Divisional Officer in consultation with the applicants for the lease, and must be a substantial person having a beneficial interest in part of the land to be irrigated. There is no objection to different *lambardars* being appointed to represent sections of the applicants, or to a number of persons being jointly appointed as *lambardars* on behalf of the whole of the applicants. In case the Sub-Divisional Canal Officer cannot agree with the applicants in the appointment of a *lambardar*, he shall nominate a *lambardar* for approval by the Divisional Canal Officer.

In those cases where an application is made by a contractor and cultivators jointly for a lease for a term of years, the *lambardar* shall be nominated by the contractor.

13. The Divisional Canal Officer may, for reasons which appear to him to be sufficient, and which must be recorded, remove a *lambardar* from his appointment, and in that case a new *lambardar* shall be appointed in the manner prescribed in the rule immediately preceding.

14 The Divisional Canal Officer may, with the consent of the *lambardar*, by a written order, of which the *lambardar* shall be furnished with a copy, transfer to him the duty of controlling the supply of water through an outlet, and may, at any time, by a written order, recall such order. *Lambardars* to whom such control is transferred shall exercise such power, subject to such general written orders as they may receive from the Sub-Divisional Canal Officer, and shall receive one per cent. on the assessment in addition to the percentages prescribed in Rules 10 and 11.

15. The fees sanctioned to be paid to *lambardars* will only be disbursed if the duties specified have been satisfactorily performed. The Divisional Canal Officer may retrench the whole or any part of the fees payable by him in the event of this condition not being complied with. In calculating the fees payable, fractions of an anna will be excluded.

(*See* Superintending Engineer's Nos. 3126—28 of 4th July 1896 with reference to retrenchments.)

ON APPLICATIONS.

16. Applications under section 74 of the Act for permits for irrigation upon leases for a term of years (Appendix I), or upon *kharif* season leases (Appendix III), shall be subject to the following conditions :—

I.—The application must be for a block of land having well-defined boundaries and so situated that adjoining lands will not ordinarily or probably be irrigated by water supplied for the land included in the application.

II.—The application must be in the form annexed to these rules, which states that water-rates will be paid on all lands contained in the block for which an application is presented, whether water or no water is required.

III.—The applications may be for a term of years, or for the season only—

(a) In case of application for the season only, the issue of the permit will not necessarily be delayed until the lands have been measured. The boundaries of the block must be stated in the application, which must be signed by, or by authority of, the cultivators of all the land included in the boundaries mentioned, and the approximate area in the occupation of each on the block must be specified. Water-rates will be charged on the areas in the block as found by actual measurement. An application for a permit for the season must be filed by the 1st September, but with the Superintending Engineer's sanction an application for a season lease may be entertained up to the end of the season

(b) In the case of applications for a term of years, a permit will not be issued until the land has been measured and an application complete in every respect for all the land included in the block has been signed. All the leases within one group (a 'group' being defined as in Note II) shall be so granted as to expire on the same date. If water is required to be supplied before the application is completely signed in the manner specified above, an application for water for the season must be made, which will be cancelled on a permit for a term of years being issued.

NOTE I.—Superintending Engineer's Nos. 2940—42 of 26th June 1896 directs that "if applicants for a long-term lease, which is not signed before the 15th August, decline to apply for a season lease under Rule III5 by that date, they should be informed that the long-term lease will not be granted during the year."

NOTE II.—A group is defined as consisting of a certain area of country mapped out in accordance with the features of the ground, natural or artificial.

NOTE III.—The leases granted for a term of years in a group will take effect from 1st April 1910.

(c) Notice that a permit for a term of years is required must be given by the 1st of April, but with the Superintending Engineer's special sanction the time may be extended where reasonable cause for the delay in filing the application for a long-term lease can be established. No permit will be issued unless the application is completely signed by the 30th of November. or, with the special sanction of the Superintending Canal Officer, by the 1st of March following.

NOTE.—Superintending Engineer's Nos. 1649—51, dated 13th April 1892.

IV.—With the special sanction of the Superintending Canal Officer an application may be made for an addition to a lease for a term of years, which, if granted, shall be considered as part of the original lease and terminate therewith.

16A. Applications (Appendix IVC) for a single watering between 26th June and 25th October may be entertained if water is available after meeting the demand for the areas leased under a term of years or for the season. The applications will be subject to the conditions prescribed for the *rabi* and hot weather seasons: see rule 17 below.

17. Applications for irrigation in the *rabi* season, 26th October to the 25th March, and the hot weather season, 25th March to the 25th June (Appendices IVA and B), will be subject to the following conditions:—

I.—The approximate areas of land for which water is required must be stated in the application, which must be signed by the occupiers thereof. It must be stated in the application that the water-rates will be paid on the area actually irrigated.

18. Applications for the sale of water by volume for purposes of irrigation will only be entertained on condition that half the amount chargeable is paid to the Sub-Divisional Canal Officer when the application is filed, and that a bond is executed in the form attached to these rules as Appendix V signed by substantial persons pledging themselves to pay such sums as will in the aggregate make up the remainder. The bond will not have reference to the area to be irrigated, but will be in consideration of a particular outlet being kept open for a specified time, and the sums mentioned therein will be recoverable on the certificate of the Canal subordinate that this condition has been fulfilled. Water will be supplied under this rule from the 1st of July to the 31st of October only.

19. Applications for the sale of water by volume for filling *aharas* will be in the form attached to these rules as Appendix VI. The entire charge will be payable in advance. Water will be supplied under this rule from the 1st of November to the 25th of March only.

ON PERMITS.

20. All permits for the use of water issued under section 75 of the Act shall be subject to the following conditions:—

I.—That the water is supplied for the sole purpose of irrigating the land mentioned in the application. The term "irrigating" includes the right to drain (*nigar*)

at the proper season of the year, previous notice being given to the sectional officer that the outlet is required to be closed. Under colour of *nigaring*, however, no right is conferred to irrigate culturable land for the purpose of sowing a crop or maturing any existing crop.

II.—That water will be supplied at the level at which it is ordinarily maintained in the distributary from which water is taken off, and that no earthen bunds or other works will be constructed to raise the level of the water in the distributary. No right to flow irrigation is conferred unless existing appliances admit of it.

III.—That a *lambardar* shall be appointed in the manner specified in Rule 12 to represent the interests of the cultivators and to perform the duties mentioned in Rule 9.

IV.—That the village channel from which water is supplied is kept in a proper state of repair, so that water shall not be wasted.

V.—That water-rates are paid when due.

VI.—That water supplied for the irrigation of a specified block of land shall not, under colour of the permit, be utilized for the irrigation of land beyond the boundaries specified in application.

NOTE.—Where these conditions are infringed, appropriate penalties or disabilities to the extent specified in the Act or these rules will be enforced.

21. A permit shall not be issued where, in the opinion of the Canal Officer, waste is likely to occur. In the order refusing a permit on this ground, the manner in which it is apprehended that waste will occur shall be stated.

22. Permits for irrigation upon leases for a term of years (Appendix VIII) or upon *kharif* season leases (Appendix IX) shall be issued under the following conditions :—

I.—The land to be irrigated must form a compact block defined by well-marked boundaries of such a nature as clearly to distinguish leased from the adjoining unleased lands, and to preclude the possibility in ordinary circumstances of water escaping from the boundaries without obvious wilful cutting or demolition. They must be maintained in the same state of repair during the currency of the lease as existed when the permit was granted and also be so situated that unleased lands will not be ordinarily or probably irrigated by water supplied for the land included in the block. The boundaries must be mentioned in the application for a permit for the season, and in the notice referred to in Rule 16(*c*), when a permit for a lease for a term of years is applied for.

II.—The Canal Officer may exclude lands included in the block not irrigable by flow or for which canal water is ordinarily not required. In the case of permits for a term of years, the block must be not less than 50 bighas in area. In cases where the Divisional Canal Officer considers it advisable to grant a permit to a block of less area than that mentioned above, the previous sanction of the Superintending Canal Officer must be obtained. No permit for a term of years shall be issued unless the owners of the village channel from which water is to be obtained have been registered and the channel itself is in a good state of repair; such as to fit it for the conveyance of water without wastage occurring. Such leases will not be issued unless it is known from the experience of previous years' irrigation that a sufficient supply of water is always available, and that the quantity required is not excessive.

III.—A permit for a lease for a term of years may be cancelled by the Superintending Canal Officer with effect from a date to be specified in the order for good cause on the application of all the signatories thereto.

IV.—Permits for the season will be issued under less favourable conditions as to situation, soil and quantity of water available; it will not be necessary that the owner of the channel should be registered, but the channel itself must be entered on the register.

V.—Water-rates will be levied on the areas of the blocks specified in the permits, and measurement of the areas actually irrigated will not be necessary.

22A. Permits (Appendix XI) for a single watering during the *kharif* season from 26th June to 25th October may be issued under the conditions prescribed in Rule 23 (I) (II) (III) below, if water is available after meeting the demands for the areas leased under a term of years or for the season.

23. Permits for irrigation in the *rabi* and hot weather seasons, 25th October to 25th June (Appendix X), will be issued on the following conditions :—

I.—The applicants will undertake to give the *lambardar* notice to close the outlet as soon as the area requiring irrigation has received a sufficient supply of water.

II.—The applicants will undertake, as far as is practicable, to prevent water supplied being wasted or applied to the irrigation of fields not included in the application.

III.—Water-rates will be levied on the areas actually irrigated, and not on those specified on the application.

ON DISABILITIES AND PENALTIES.

24. At the request of the Collector, the Superintending Canal Officer may direct the Divisional Canal Officer to—

I.—Cease to issue permits for the irrigation of land in villages where there have been constant difficulties in realizing water-rates until all the arrears of water-rates due are paid up, and also, if specially required, unless half the amount due for the ensuing year under future applications are paid up in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

II.—Cancel any lease for a term of years if, after the lapse of one month from the latest date of payment, the water-rates (except such as are irrecoverable under Rule 63) are in arrears.

25. The Divisional Canal Officer may, with the concurrence of the Collector and the sanction of the Superintending Canal Officer, cancel a lease for a term of years if water is habitually misused or wasted. Such an order shall have effect from the 25th June next ensuing, and two months' notice at least must be given to the *lambardars* for the information of the cultivators.

25A. When the Divisional Canal Officer acting under section 60 strikes a channel supplying a long lease off the register, he shall, if the remaining registered channels cannot satisfactorily irrigate the block, at the same time cancel the lease, provided that—

(*i*) If the order for cancellation be made between the 25th of June and the 25th of October no water-rate shall be payable for the period subsequent to the 25th June preceding the date of the order.

(*ii*) If the order for cancellation be made between the 25th June and 25th March, half the annual rate will be payable for the period subsequent to the 25th June preceding the date of the order.

ON THE SUPPLY OF WATER.

26. I.—Any Canal Officer may, in the case of pressing emergency, stop the supply of water to any canal or distributary. If such order is passed by an officer below the rank of a Divisional Canal Officer, it shall forthwith be reported to the Divisional Canal Officer, and if the stoppage exceeds five days in duration, to the Superintending Canal Officer.

II.—The Sub-Divisional Canal Officer may, by written order under section 76*a*, stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that either it, or, in case the channel is supplying a long-term lease, the boundaries of such lease are not maintained in proper repair. Such order shall be recorded in the Sub-Divisional office.

III.—No person shall be entitled to be supplied with water until the village channel has been put in a proper state of repair in accordance with directions given by the Sub-Divisional Canal Officer.

IV.—The Canal Officer or any of his subordinates may temporarily close an outlet supplying a village channel from which unauthorized irrigation is, at the time the outlet is closed, being carried on.

27. The Divisional Canal Officer may close the outlets in rotation as he may consider necessary. The periods of such closures must be notified to the *lambardars* concerned.

28. No water shall be supplied nor shall any person be entitled to a supply of water until a permit signed by a Canal Officer authorized to sign a permit has been signed and issued.

29 The Canal Officer will be responsible that the supply through the outlet is in the *kharif* and *rabi* seasons maintained in accordance with the requirements of the crops. In both seasons it will be the duty of the *lambardar* to inform the Canal Officer or subordinate when the area under lease has been fully irrigated, so that the outlet may be closed, or if he has, under rule 14, been given charge of the outlet, to close it himself.

ON DEMAND STATEMENTS.

30. The statements of the amounts demandable for water-rates leviable under the rules in force shall be prepared under the supervision and stamped signature of the Divisional Canal Officer, in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

31. The demand statements for water-rates due under leases for a term of years shall be prepared at the same time as the application, and a copy thereof shall be given to the *lambardar* as well as a *parcha* for each signatory to the lease with the permit. No further notice of demand shall be given during the currency of the lease.

32. The demand statement for water-rates due under a lease in the *kharif* season shall be prepared either before the permit is issued, or as soon as conveniently may be after its issue, and shall, without reference to the land having been actually irrigated up to that time

or not, show the water-rates due by each person whose land is included in the application. Demand statements (*parcha*) showing the sums due from each applicant shall be sent to the *lambardar* for distribution, and no further notice of demand shall be given.

33. For irrigation during the hotweather or *rabi* season, the following procedure shall be followed :—

I.—The area irrigated in any village shall be measured by an amin appointed for the purpose. The *khasra* shall be signed by both the amin and the *lambardar*, who shall be present at the measurements. If the *lambardar* is not present, the amin shall arrange that at least two respectable cultivators shall be present and enter their names in the *khasra* prepared by him.

II.—When the measurement is completed, the *khasra* shall be forwarded to the Sub-Divisional Canal Officer, who shall prepare the demand statement (*khatiani*) with all possible despatch. Copies of extracts of the demand statement affecting each separate cultivator (*parchas*), signed and sealed by the *zilladar*, shall, as soon as prepared, be forwarded to the *lambardar* for distribution amongst the persons charged. The *lambardar* shall grant a receipt for the *parchas* forwarded.

III.—If the *lambardar* is not present, or declines to grant a receipt for the same in the prescribed form, the Sub-Divisional Canal Officer shall make other efficient arrangements for serving each person assessed with a *parcha* showing the amount due from him. *Parchas* may be sent by post.

34. Objections to the demand statements prepared in accordance with the preceding rules 31, 32 and 33 may be presented, either personally or through the *lambardar*, to the Sub-Divisional or Divisional Canal Officer, who shall thereupon, after such enquiry as he may consider to be necessary, pass orders on the same. A copy of the order passed (which may be sent by post) shall be served on the person making the objection. Objections to the demand addressed to the Collector shall be referred for the orders of the Divisional Canal Officer.

35. Objections to the demand statements must be presented within thirty days of the date on which the *parcha* was received by the *lambardar*, but this period shall be extended where reasonable cause for delay can be established.

36. The objections may be in a form, which will be sold for half-an-anna at all Canal offices, giving instructions as to the particulars required to admit of the objections being readily investigated ; but any form will be accepted provided it clearly states the name or names of the persons objecting, the crop, and the year for which the charge is made, and the demand from each cultivator to which objection is taken.

37. Any person not satisfied with the order passed by the Canal Officer under rule 34 may file an application of appeal to the Collector under section 91 of the Act. Such application must be accompanied by a copy of the order appealed against. The Collector shall thereupon, after considering the records of the case, pass such order as he may think fit, and shall meanwhile have discretion to suspend collections by a written order in cases where it may seem advisable to do so.

38. When the order appealed against to the Collector is that of a Sub-Divisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record thereon any remarks he may think fit. The papers shall not be detained for the purpose of enabling the Divisional Canal Officer to make further enquiries which, however, may be directed by the Collector on the suggestion of the Divisional Canal Officer or on his own motion.

39. Applications for mutations of names in leases for a term of years shall be made to the Collector ; if addressed to the Canal Officer they shall be referred to the Collector for disposal. Applications for alterations in long-term leases on account of wrong assessment shall be made to the Divisional Canal Officer ; if presented to the Deputy Collector they shall be referred to the Divisional Canal Officer for disposal

39. (*a*) When the mutations of the names of rate-payers are found to be more than 30 per cent. of the whole, the Deputy Collector will request the Divisional Canal Officer to prepare and forward a revised demand statement. The same rule applies for other crops.

ON WATER-RATES.

40. Water-rates imposed under section 79 of the Act for the irrigation effected in the hot weather or *rabi* seasons, shall be assessed by the Canal Officer at rates which shall be fixed by the Divisional Canal Officer, and which shall not be greater than those shown in the following schedule :—

	FLOW OR LIFT.	
	Rate per bigha.	Rate per tenth of a bigha.
	Rs. A.	A.
For water used in an unauthorized manner.	6 4	10

In the *kharif* season water-rates shall be imposed by the Divisional Canal Officer under section 79 *only* after the sanction of the Collector has been obtained to make a detailed measurement of the land irrigated without authority.

NOTE.—Areas irrigated by *bonâ fide* surplus water drained off from a leased area shall not be assessed. *Bonâ fide sigar* is defined as water drained off the fields while the outlet remains closed.

The Collector's sanction is not in itself authority for the imposition of water-rates—it merely authorizes proceedings being instituted. The rates to be charged in the *kharif* season will be subject to the same maxima as in the hot weather and *rabi* seasons. Persons using water without a permit shall, unless exempted by section 74 of the Act, be charged water-rates according to the season in which water is used, at the rates specified in this rule.

41. Charges for waste of water imposed under section 80 of the Act shall be at the rates fixed in the rule immediately preceding, and be subject in the *kharif* season to the same condition as regards sanction by the Collector as is required by that rule; where a tank or *ahara* has been filled, a charge of Rs. 5 per thousand cubic yards may be made in lieu of an acreage charge.

42. Water-rates assessed under sections 78, 79 or 80 of the Act shall be paid on or before the dates mentioned below:—

For leases for a term of years entered into after the 1st January 1898.	One kist on or before the 15th January.
Season leases—	
Under Schedule No. II ...	For rice and sugarcane on or before the 15th December. For a single watering, on presentation of the demand.
Ditto No. III ...	*Rabi* and sugarcane on or before the 5th April.
Ditto No. IV ...	Hot weather irrigation on or before the 1st July.
Assessments under section 79 of the Act or under Rule 40. Assessments under section 80 of the Act	On presentation of the demand.
Water supplied by volume between the 1st of September and 31st of October.	One moiety before the outlet is opened, the other moiety on or before the 15th December.
Water supplied by volume to fill *aharas* ...	The whole amount before the outlet is opened.

The Divisional Canal Officer shall forward the demand statements of leases under Schedule No. II to the Collector as soon as they have been prepared in accordance with rule 32. He will forward these and all other demand statements as soon as they are ready and will endeavour to send them at least fifteen days before the latest dates fixed for the payment of the water-rates, but accuracy in the individual charges shall be regarded as of more importance than a rigid adherence to dates.

43. Where lands are held on a *bhaoli* tenure, the entire water-rates assessed under section 78 of the Act shall be demandable from the occupiers of the land assessable; but at the written request of the *bhaoli* owner, in the form, Appendix VII, which may be presented to the Divisional Canal Officer or to the Collector, the water-rates shall be recovered from the cultivators and the person or persons in receipt of the *bhaoli* rents in the same proportion as the produce is divisible amongst them. The demand statement shall be made out by the Divisional Canal Officer in the name of the cultivators, any necessary modification therein, owing to a request made by a *bhaoli* owner under this rule, being carried out by the Collector. But on lands under Government management half the rates should be paid by the landlords, and in other cases any influence which the Collector may possess should be used to make the zamindar consent to this equitable arrangement.

44. In the case of lands held under a *bhaoli* tenure being assessed under section 79 of the Act, the whole of the persons deriving benefit therefrom shall be assessed in the same proportion as the produce is divisible amongst them.

ON REMISSIONS.

45. The water gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of failure of supply.

46. Claims to remission of water-rates under section 76(*b*) shall only be admitted on proof of actual loss caused by failure of supply. On proof of such loss, the Divisional Canal Officer may remit the whole or any part of the rates. All applications for remission of water-rates shall be made in the manner provided in rule 34 and not less than twenty days before the crop is cut. The Divisional Canal Officer, with the previous sanction of the Superintending Canal Officer, which sanction may be delegated to any Divisional Canal Officer, when the crop of an individual cultivator of a season lease has failed to the extent of losing twelve annas or more of its value in the rupee, may, as a matter of grace, grant remission up to 10 per cent. of the area assessed against the cultivator, notwithstanding that the deficiency in the crop is due to causes other than through partial or total failure in the supply of canal water.

47. Before awarding compensation under section 76(*c*), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings. All applications for compensation under section 76(*c*) must be made not less than twenty days before the crop is cut.

48. Notwithstanding anything contained in these rules, the Superintending Canal Officer may, should he consider the circumstances of the case require it, under such general instructions as he may from time to time receive from Government, remit, under the head "Extraordinary", so much of the water-rates as are in excess of ten annas a bigha. But no such remissions shall be claimable as a right, nor shall any person be entitled to receive an order on an application for remission under this head, which will ordinarily only be made on the representations of Divisional Canal Officers.

49. A remission statement signed by the Superintending, or Divisional Canal Officer, shall be sufficient authority for a refund by the Collector.

INTERMEDIARY AGENCY.

50. Leases in the *kharif* season for a term of years will be entered into with associations of cultivators as specified in these rules; and also on the joint application of the cultivators and of some person hereinafter called the contractor, who shall collect and pay to Government, under section 82 of Act III (B C.) of 1876, all sums due under the agreement on account of water-rates. The joint agreement shall be in the form given as Appendix II to these rules. The contractor must have a beneficial interest in some part of the land included in the application extending for the full term of the lease.

51. Contractors shall be entitled to collect water-rates from the cultivators who have signed the application and from their successors in interest in the land included in the block at the rates fixed by the Lieutenant-Governor under section 78 of the Act. Every due from a cultivator to a contractor on account of water-rates shall be deemed to be a sum due to Government under sections 82 and 85 of Act III (B.C.) of 1876.

52. A contractor (or in case there be more than one, each contractor severally and jointly) shall use due diligence in the collection of the water-rates specified in the agreement from the cultivators who have applied for the water supplied. In the case of his failure after due diligence to collect, he shall, within thirty days of the rates becoming due, submit to the Collector a list showing the names of the defaulters with the sums due from each, and the Collector shall thereupon proceed to realize the amount due from the said defaulters according to law.

53. A contractor (or in case there be more than one, each contractor severally and jointly) shall be responsible for all sums payable on the agreement, except such sums as he may satisfy the Collector that he has been unable to collect after using due diligence, and shall be entitled to a deduction of 5 per cent on all sums collected by himself.

54. In the case of a lease entered into under an application in the form given as Appendix I, a contractor may subsequently be appointed by the Collector with the written approval of the Superintending Canal Officer Such contractor must, for the whole term of the lease, have a beneficial interest in some part of the land included in the application, and must sign an application in the form given as Appendix IIA The appointment shall not be made unless the *lambardars* and leading cultivators give their assent in writing thereto, and the Collector is satisfied that the appointment of a contractor is acceptable to the signatories to the lease.

55. The contractor appointed under rules 50 and 54 may, but shall not necessarily, be *lambardar*. The *lambardar* will in all cases be appointed by the Canal Officer under the provisions of Rule 12, and shall be remunerated at the rates specified in Rules 11 and 14, subject to the conditions mentioned in Rule 15.

56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall be entitled to a deduction of 2½ per cent. on all sums collected by himself in addition to the deduction of 5 per cent. to which he is entitled under rule 53, *i.e.*, to a total deduction of 7½ per cent.

57. No steps shall be taken to prepare a joint application by cultivators and a contractor until the written assent of the Collector to the proposed contractor has been received, nor shall the Collector take any steps towards the appointment of a contractor under rule 54 until the written assent of the Superintending Canal Officer has been received. The Collector may, before approving of a contractor under this rule, require him to give security for the due performance of the contract

58. A contractor may resign his interest in the lease by giving notice to the Divisional Canal Officer three months at least before the 25th June next following, in which case his connection with the lease shall cease from that date, and the Sub-Divisional Canal Officer shall proceed to appoint a *lambardar* under rule 12, and the Collector to realize water-rates due directly from the applicants. The Divisional Canal Officer may, at the instance of the Collector, remove a contractor who fails to use due diligence in making collections. In such cases three months' notice at the least before the 25th of June next following shall be given, and the removal shall take effect from that date. The Collector may, under the conditions and procedure specified in rule 54, appoint a new contractor in place of a contractor who has resigned.

59. With the written approval of the Superintending Canal Officer, a contractor may measure and prepare demand statements for lands irrigated in the hot weather, for which applications in the prescribed form have been filed by him. Such demand statements shall be forwarded to the Sub-Divisional Canal Officer, who shall thereupon proceed to deal with them as if they had been prepared by himself.

60. When an agreement has been made for the collection of rates by a contractor, the Divisional Canal Officer shall, under section 82 of the Act, furnish such contractor with a written authority to collect the amounts due by the cultivators, a copy of which shall be sent to the Collector.

60.(*a*) The contractors are to note the number and year of the *khationi* and the serial number of the rate-payer on receipts granted by them in order that the particular demand may be traced when a mutation is applied for by a rate-payer.

ON COLLECTIONS AND ALTERATIONS IN DEMAND STATEMENTS.

61. Collection of all water-rates shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer except in the case of lands held *bhaoli*, regarding which the provisions contained in rule 43 shall be followed.

62. The Collector may make any alterations in a demand statement provided the total sum shown to be due is not altered or an error in account only corrected. When such alterations are made in a demand statement appertaining to a lease for a term of years, a copy of the alteration statement shall be sent to the Divisional Canal Officer.

63. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Collector. A detailed list of all sums so written off shall be forthwith sent to the Superintending Canal Officer. In other cases the sanction of the Commissioner of the Division must be obtained, through the Superintending Canal Officer, to admit of demands being written off under this head.

MISCELLANEOUS.

64. No person shall, without the permission in writing of the Divisional or Sub-Divisional Canal Officer, pass, or cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting by means of such bridges, fords and ferries and their approaches as are provided by the Divisional Canal Officer.

65. No officer employed on the canals, unless especially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly, or in shares with others

66. Tanks may be filled with canal water without charge and without reference to the area irrigated in any village, wherever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

(*a*)—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both

(*b*)—No tank shall be so filled from which irrigation is practised.

(*c*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d*)—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer issued on the written application of the parties concerned.

(*e*)—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.

(*f*)—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for twelve months for breach of any of the above conditions.

67. The Divisional Canal Officer may supply water for manufacturing* or other purpose, charging for the same at the rate of one rupee per each 4,000 cubic feet or part of 4,000 cubic feet supplied. For the manufacture of bricks the rate is Rs. 5 per lakh of bricks, but when bricks are found to be manufactured without the previous sanction of the Divisional Canal Officer a rate of 4 as. per thousand bricks will be charged. Contracts between the Divisional Canal Officer on the part of Government and private individuals for the use of water as a motive power, or for any purpose whatsoever not specified in this rule, or the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer, and if proposed for longer than a year, shall be submitted for the sanction of the Lieutenant Governor.

68. Patwaris called on to assist in identifying land or signatures or to give evidence shall receive such remuneration by way of fee as may be fixed by the Superintending Canal Officer or Collector with the approval of Government, but their signature shall not necessarily be required to any document prepared under these rules. The fees shall be disbursed at the time of attendance as far as practicable by the Sub-Divisional Canal Officer or Collector, whoever may require the patwari to attend.

69. Any Deputy Collector or Sub-Deputy Collector may, under the general orders and control of the Collector, exercise the powers conferred on the Collector by Rules 9, 10, 11, 15,

* Superintending Engineer's No. 358, dated 20th February 1882, fixed rate for use of Canal water for brick manufacture at Rs 5 per lakh.

24, 39, 43, 52, 53, 54, 57, 58, 59, 61, 62, 63, and 68, provided that all orders passed by such Deputy Collector or Sub-Deputy Collector shall be appealable to the Collector, if a petition of appeal is preferred within thirty days of their being passed.

70. The Collector may, by a special order passed in each case, refer applications under rules 37, 40, or 41 to any Deputy Collector for report or disposal. An appeal against an order passed by a Deputy Collector under this rule may be preferred by either the applicant or the Divisional Canal Officer.

ON THE RATES TO BE CHARGED FOR WATER SUPPLIED ON APPLICATION FROM THE SONE CANALS.

71. The following are the rates to be charged for water supplied for irrigation from the Sone Canals:—

(*a*)—Schedule I following will be in force in respect to permits issued for the irrigation of land after the 1st of April 1904.

(*b*)—Schedule II following will be in force in respect to permits issued for the irrigation of land after the 1st April 1904.

(*c*)—Schedule III following will be in force in respect to permits issued for the irrigation of land after the 1st October 1904.

(*d*)—Schedule IV following will be in force in respect to permits issued for the irrigation of land after the 25th February 1902.

(*e*)—Schedule V following will be in force in respect to water supplied after the 1st of April 1904.

(*f*)—Schedule VI following will be in force in respect to water supplied after 1st of November 1891.

(*g*)—For permits issued prior to the dates mentioned above, the rates at present in force enumerated in Notification No. 148 of the 20th June 1881, published in the *Calcutta Gazette* of 22nd June 1881, will be charged.

SCHEDULE No. V.

77. For water supplied by volume in the *kharif* season—

For water supplied between the 1st of July and the 31st of October, four rupees for a calculated discharge of one cubic foot per second for twelve hours. For less than a cubic foot per second or less than twelve hours, a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

SCHEDULE No. VI.

78. For water supplied by volume to fill *aharas*—

For water supplied between the 1st of November and the 25th of March, one rupee for a calculated discharge of one cubic foot per second for twelve hours. For less than a cubic foot per second and less than twelve hours a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

79. In the case of leases under Schedules I and II, water will be supplied for rice-seed beds only as early in June as the supply in the river admits.

80. In the case of leases under Schedule II, no extra charge will be made for a crop of *kesari*, linseed, or *gram* sown on rice-fields watered with canal water, and water will be supplied until the 15th of November, if required.

81. In the case of leases under Schedule III, the Divisional Canal Officer may, in years when the demand for water for *kharif* crops admits of it, supply water for *rabi* on any date after the 7th October.

82. When in the area covered by a season lease only (I) no crop is sown in a field, or (II) the crop fails during the currency of the lease, water-rates may be levied at the rate of ten annas a bigha, provided that no application to be charged at these reduced rates shall be entertained unless presented twenty days before the crop is cut, and also during the currency of the lease.

83. In assessing water-rates under Schedules III and IV, the areas to be charged shall be subject to the following rules:—

I.—If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half-a-foot high.

II. When a portion of a field has been irrigated with canal water and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

84. Irrigation from escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

85. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

86. Irrigation from Government drainage cuts shall be governed by the same rules as are laid down for irrigation from escape channels.

APPENDIX I.

[Referred to in Rule 16.]

Form of application for a lease for a term of years.

Mauza , *Pargana* , *Distributary* .

1. WE, whose names are attached, apply for water to be supplied from the above-mentioned distributary from the 25th June to the 25th March of each year for years for the irrigation of the block formed by our holdings as specified below.

2. The area to be irrigated by each applicant is stated in the schedule following, and each applicant agrees to pay water-rates on the area recorded against his name at the rate of Rs. per bigha. This sum will be payable independently of our requiring water in any particular year or not.

3. Further we agree jointly and severally to pay the water-rates due for the holdings mentioned in the schedules following, the owners of which have not signed or given a written authority for the application to be signed on their behalf.

4. The application is made under section 74 of Act III (B.C.) of 1876, and the rules issued under it, more especially Rules 16, 20, 22, 24, 25, 26, 27, 28, 31, 15 and 46.

5. We agree to pay the water-rates due on this application in one *kist* on or before the 15th January.

6. The permit granted may be cancelled by the Divisional Canal Officer under the sanction required by Rule 24—

I.—If, after the lapse of one month from the latest date of payment, the water-rates due on this application (except such as are irrecoverable under Rule 63) are in arrears.

II.—If water supplied for irrigating the land mentioned in the application is habitually wasted or misused, it being expressly agreed that water is supplied for the sole purpose of irrigating the land mentioned in the application.

SCHEDULE.

Name of cultivator.	Area to be irrigated in bighas and cottahs.	Signature or mark of cultivator.	Signature of witness to cultivator's signature.
1	2	3	4

N.B.—1.—Charges will be made by tenths of a bigha, any smaller area than one-tenth being charged as one-tenth.
2.—The year is reckoned as commencing from the 25th June.

APPENDIX II.

[Referred to in Rule 50]

Form of application for a lease for a term of years jointly with a Contractor.

Mausa , *Pargana* , *Distributary*

1. WE, whose names are attached, apply for water to be supplied from the above-mentioned distributary from the 25th June to the 25th March of each year for years for the irrigation of the block formed by our holdings as specified below.

2. The area to be irrigated by each applicant is stated in the schedule following, and each applicant agrees to pay water-rates on the area recorded against his name at the rate of Rs. per bigha. This sum will be payable independently of our requiring water in any particular year or not.

3. Further we agree jointly and severally to pay the water-rates due for the holdings mentioned in the schedules following, the owners of which have not signed or given a written authority for the application to be signed on their behalf.

4. The application is made under section 74 of Act III (B.C.) of 1876, and the rule issued under it, more especially rules 16, 20, 22, 24, 25, 26, 27, 28, 31, 45 and 46.

5. We agree to pay the water-rates due on this application in one *kist* on or before the 15th January.

6. The permit granted may be cancelled by the Divisional Canal Officer under the sanction required by rule 24—

I.—If, after the lapse of one month from the latest date of payment, the water-rates due on this application (except such as are irrecoverable under rule 63) are in arrears.

II.—If water supplied for irrigating the land mentioned in the application is habitually wasted or misused, it being expressly agreed that water is supplied for the sole purpose of irrigating the land mentioned in the application.

7. We desire under rule 50 that shall be appointed contractor, to whom we agree to pay water-rates as they become due, so long as he is authorized by proper authority to receive the same. Should the contractor resign or be removed, we engage to pay water-rates to the Collector or to some person authorised by him to receive the same.

SCHEDULE.

Name of cultivator.	Area to be irrigated in bighas and cottahs.	Signature or mark of cultivator.	Signature of witness to cultivator's signature.
1	2	3	4

8. I agree to become contractor under rules 50 to 60 for the collection of all sums payable under this application and to be bound by all the rules passed under Act III (B.C.) of 1876. I will abide by the rules mentioned and all others passed under the Act, and give every assistance in my power to the Collector in any legal proceedings that may be instituted for the recovery of water-rates under this application.

N.B.—1.—Charges will be made by tenths of a bigha, any smaller area than one-tenth being charged as a tenth.
2.—The year is reckoned as commencing from the 25th June.

[*To be added when the contractor takes the responsibility of collecting the entire sum due under rule 56.*]

9. In consideration of being permitted to deduct 7½ per cent. from the sum due under this application, I undertake to pay the whole amount due to Government on the dates mentioned in clause 4, and to myself take the risk of any default in payment by the applicants.

APPENDIX IIA.

[Referred to in rule 54.]

Form of application for appointment as a Contractor.

I APPLY to be appointed contractor under rules 50 to 60 for the collection of all sums payable on application No. for irrigation of mauza . I will abide by the rules mentioned above and by all others passed under the Act, and give every assistance in my power to the Collector in any legal proceedings that may be instituted for the recovery of water-rates under this application.

[*To be added when the Contractor takes the responsibility of collecting the entire sum due under rule 56.*]

In consideration of being permitted to deduct 7½ per cent. from the sum due under this application, I undertake to pay the whole amount due to Government on the dates mentioned in clause 4, and to myself take the risk of any default in payment by the applicants.

APPENDIX III.

[Referred to in rule 16.]

Form of application for a lease during the kharif season.

Mauza , *Pargana* , *Distributary* .

1. WE, whose names are attached, apply for water to be supplied from the above-mentioned distributary from the 25th of June to the 25th of October, for the irrigation of the block, with the exceptions noted in the above schedule, formed by our holdings as specified below.

2 The approximate area to be irrigated by each applicant is stated in the schedule following, and each of us agrees to pay water-rates on the area in our occupation, as found by actual measurement at the rate of Re. per bigha. NOTIFICATIONS.

[Howrah.

No. 398 T.M.—The 31st May 1911.—In exercise of the power conferred by section 640 of the Calcutta Municipal Act, 1899 (Bengal Act III of 1899), the Lieutenant-Governor in Council is pleased to declare his intention to extend to the town of Howrah the portions of that Act which are set forth in the Annexure hereto, subject to the modifications and restrictions therein, which are shown, as far as possible, in antique type.

2. Any objection to such extension on the part of the Commissioners of the Municipality of Howrah or any inhabitant thereof, should be submitted in writing, through the District Magistrate, Howrah, to the undersigned before the 20th July 1911.

H. WHEELER,
Secretary to the Government of Bengal.

ANNEXURE.

PART II—CONSTITUTION AND GOVERNMENT.

CHAPTER II.—MUNICIPAL AUTHORITIES.

Delegation of certain of Chairman's functions to municipal Officers.

18. (*1*) The Chairman may, by general or special order in writing, delegate to any municipal officer any of the Chairman's powers, duties or functions under this notification or any rule made thereunder:

Provided that, when the Chairman by any order made under this section delegates to any municipal officer any power or duty which is exercisable or is required to be performed subject to the approval or with the sanction of the Commissioners in meeting the Chairman shall send a copy of such order to the Commissioners in meeting.

(*2*) The exercise or discharge by any municipal officer, of any powers, duties or functions delegated to him under sub-section (*1*) shall be subject to such conditions and limitations (if any) as may be prescribed in the said order, and also to control and revision by the Chairman.

PART IV.—TAXATION.

CHAPTER XII.—RATES.

Assessment of Buildings and Land.

Assessment of annual value, and duration of assessment.

152. All valuations of buildings and lands situated in the districts mentioned in column I of Schedule VII (annexed hereto) which have been made by competent authority and are in force at the date of the extension of this section to the town of Howrah shall remain in force for the periods terminating on the dates respectively prescribed in that behalf in column 2 of that Schedule; and the annual value at which

buildings and lands in each such district are to be assessed after the date so prescribed shall be fixed by the Chairman for a period of five years, and thereafter for successive periods of five years.

CHAPTER XIV.

Tax on Professions, Trades and Callings.

Licenses to be taken out annually.

198. Every company or association or body of individuals which exercises in Howrah either by itself or by an agent, any profession, trade or calling whatsoever, and

every person who exercises in Howrah any of the professions, trades or callings indicated in Schedule II (annexed hereto)

shall annually take out a license and pay for the same such fee as is mentioned in that behalf in the said Schedule:

Provided that the Chairman may with the sanction of the Commissioners in meeting—

(*a*) remit or refund any portion of the fee so payable in respect of the exercise of any profession, trade or calling, if he is satisfied that the profession, trade or calling has been exercised for less than half the year only, or

(*b*) when any person is in the Chairman's opinion unable to pay the fee due for a license, exempt him from liability to take out such license or declare that he shall be entitled to take out a license under a lower class than that under which he is chargeable, or

(*c*) in any other case, exempt any person from liability to take out a license or declare that any person shall be entitled to take out a license under a lower class than before.

Grant, contents and duration of licenses.

199. (*1*) Every license mentioned in section 198 shall be granted by the Chairman, and shall specify—

(*a*) the date of the grant thereof;

(*b*) the name of the company, association, body or person to which or to whom it is granted;

(*c*) the profession, trade or calling, and if the license is a local license as defined in rule 2 of Schedule II (annexed hereto), the place of business, in respect of which the license is granted, and

(*d*) the fee paid for the license.

(*2*) Every such license shall have effect and continue in force from the commencement to the end of the financial year on account of which it is granted.

(*3*) The Chairman may at any time grant a license for any previous financial year for which no license has been taken out, on payment of the fee which would have been payable therefor in the first instance; but the production of such a license shall not afford a valid defence if the licensee is prosecuted for failing to take out a license within the time required by such of the provisions in this behalf contained in the Calcutta Municipal Act, 1899, as are in force in the town of Howrah.

Liability and class how to be determined.

200. The liability of any company, association, body or person to take out a license, and the class under which it or he shall be deemed bound to take out a license, shall be determined in accordance with the rules contained in Schedule II (annexed hereto).

Power of Chairman to require list of companies, associations, bodies or persons.

201. The Chairman may, by written notice, require the occupier of any building or place of business to forward to him within seven days a list, signed by such person, of the names of all companies, associations or bodies of individuals or persons carrying on any profession, trade, or calling therein, and of their respective professions, trades and callings.

Annual list of licensees.

202. (*1*) As soon as may be after the first day of April in every year, the Chairman shall prepare a list of the companies, associations, bodies and persons licensed for the next preceding financial year under this Chapter.

(*2*) Such list shall contain the particulars specified in section 199, and shall be kept at the municipal office and be open to public inspection at all reasonable times.

PART VIII.

CHAPTER XLIII.—RULES

Power to make rules for the amendment of Schedule II.

567. (*1*) The Local Government may make rules for altering, adding to, or cancelling any part of Schedule II (annexed hereto).

(*2*) All references, in such portions of the Calcutta Municipal Act, 1899, as are in force in the town of Howrah, to the aforesaid Schedule, shall be construed as referring to such Schedule as for the time being amended in exercise of the powers conferred by sub-section (*1*).

Conditions precedent to the making of rules.

568. The power to make rules under section 567, sub-section (*1*), is subject to the condition of the rules being made after previous publication, and to the following further conditions, namely—

(*a*) a draft of the rules shall be published in the *Calcutta Gazette* and forwarded to the Commissioners in meeting for their opinion ;

(*b*) such draft shall not be further proceeded with until six weeks after such publication or until such later date as the Local Government may appoint.

Publication of rules in Gazette.

570. When any rule has been made under section 567, sub-section (*1*), it shall be published in the *Calcutta Gazette*, and such publication shall be conclusive proof that the rule has been duly made.

PART IX.

CHAPTER XLIV.—PENALTIES.

Disobeying requisition under section 201.

574. Whoever fails to comply with any requisition lawfully made upon him under section 201 shall be punished with fine which may extend to one hundred rupees.

Continuing to disobey requisition under section 201

575. Whoever, after having been convicted of failing to comply with any requisition lawfully made upon him under section 201, continues to neglect to comply with the said requisition, shall be punished for each day after the first, during which he continues so to offend, with fine which may extend to twenty rupees.

Fine for not taking out certain licenses.

578. (*1*) If any company, association or body of individuals or person exercises on or after the first day of July in any year any profession, trade or calling referred to in Chapter XIV, without having the license prescribed by that Chapter, he or it shall be punished with fine which may extend to three times the amount payable in respect of such license, and shall not be less than one-and-a-half times such amount.

(*2*) Such fine, when levied, shall be taken in full satisfaction of the demand on account of such license.

44	Pedler, vendor of goods in carts, hawker or box-wallah.		Two rupees.

Licenses to be either personal or local.

2. (1) Licenses shall be either personal or local.

(2) "Local license" means—

(a) a license the classification of which depends on the valuation of the place of business, and

(b) a license granted under Class IV, number 22, number 23, number 24, or number 25, Class V, number 33, or Class VI, number 43.

3. No person shall in any case be required to take out more than one personal license, but if any person is liable under different classes he must take out a license under the highest class under which he is liable.

Only one personal license required for each person.

4. When two or more persons carry on business jointly, they may take out a single license as a firm:

Personal license for members of firms.

Provided that, if any of the partners of such a firm exercises any separate profession, trade or calling on his own account or jointly with other partners, he must take out a separate and additional license.

5. A separate local license shall be taken out for each separate place of business:

Local license required for each separate place of business.

Provided that no separate license shall be required for adjacent premises which form one place of business, or for any yards, godowns or factories which are auxiliary to any place of business, but the amount of the valuation of such premises, yards, godowns, or factories shall be included in the computation for determining the class under which the license should be taken out.

6. Where a place of business occupies only a portion of one set of premises and has not been separately valued under Part IV of the Bengal Municipal Act, 1884, the valuation thereof for the purposes of rule 1 shall be the rate *per mensem* at which the same might, in the opinion of the Chairman, reasonably be expected to let.

Valuation of places of business not separately valued under Part IV of the Bengal Municipal Act, 1884.

7. Where any person practises a profession, trade or calling for which a personal license should be taken out, and is also the owner or lessee of a place of business for which a local license should be taken out, he shall, if the Chairman so directs, take out both a personal license and a local license:

When both personal and local licenses required.

Provided that where the place of business is auxiliary to the practice of the profession, trade or calling, only one license shall be required, and such license shall be either personal or local as the Chairman may direct.

8. Where the lessee or owner of any place of business is required to take out a license, the license shall be taken out by the lessee, if any, or if there is no lessee, then by the owner.

Lessee to be licensee.

9. Any person who has taken out a license for the next preceding year, or has been fined under section 578 for not taking out a license during that year, shall, subject to the other provisions of these rules, be deemed to be liable and entitled to take out a license for the current year under the class in which he was then placed.

Continuance of liability in same class.

10. (*1*) Any person who claims a remission or refund under proviso (*a*) to section 198 in respect of any year, must present an application to the Chairman before the first day of July in the next following year.

Time for presentation of applications for remission, etc.

(*2*) Any person who—

(*i*) has taken out a license for the next preceding year or has been fined under section 578 for not taking out a license during that year, and

(*ii*) in consequence of any change in his profession, trade, calling or place of business or for any other reason, claims an exemption or declaration under proviso (*b*) or proviso (*c*) to the said section 198,

must present an application to the Chairman before the first day of July in the current year.

11. (*1*) If the Chairman considers—

Power of Chairman to issue notices to take out licenses, etc.

(*a*) that any person who has not taken out a license in the next preceding year ought to take out a license, or

(*b*) that any person who has taken out a license for the next preceding year, but has not done so for the current year, ought to take out a license under a higher class, or to take out more than one license,

he may serve such person with a notice directing him to take out a license or licenses for the current year under such class or classes as may to the Chairman seem proper.

(*2*) If the Chairman considers that any person who has taken out a license for the current year ought to have taken out a license under a higher class, he may serve such person with a notice directing him to take out a license under such higher class for the next following year.

12. Where any person is summoned for not taking out a license, and service of notice under sub-rule (*1*) of rule 11 is not proved, it shall be incumbent on the Chairman to prove that the person so summoned is liable to take out a license, and to state the class under which he is so liable.

Chairman to prove liability when service of notice not proved.

13. Any person dissatisfied with an order made under proviso (*b*) to section 198, or under rule 6 or rule 7, or with a notice served under rule 11, may appeal to a Bench consisting of not less than three Commissioners who shall be appointed in that behalf by the Commissioners in meeting:

Appeal when to lie.

Provided that no appeal shall lie unless the amount payable for the license, as assessed, has been deposited with the Commissioners at their office or with some person authorised by them to receive the same.

Statement by appellant.

14. Any person who is desirous of appealing under rule 13 must, within fifteen days of the passing of the orders or the service of the notice, as the case may be, present at the municipal office a statement in writing, setting forth the grounds of appeal:

Provided that the Chairman, if he thinks fit, extend the period within which a statement of appeal may be presented.

Finality of order in appeal.

15. The order of the Bench, or, if no appeal is made, the order of the Chairman, shall be final.

SCHEDULE VII.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situate in the district of Hooghly, will be put up to sale at the Hooghly Collectorate on the 26th of June 1911, corresponding with 11th of *Asar* 1318 B.S.

Conditions of sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Hooghly will be put up to sale at the Howrah Collectorate on the 12th July 1911, corresponding with 27th Assar 1318 B. S.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by the noon of the 15th day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

NOTICE.

No. 3586.

SEALED TENDERS for the supply by contract from 1st July 1911 to 31st March 1912 of Welsh unscreened steam coal of the estimated quantities specified below at the ports mentioned will be received by the Director of the Royal Indian Marine at his office in the R. I. M. Dockyard, Bombay, up to gunfire 2 noon (Standard time) on Thursday, the 15th June 1911, after which hour no tender will be received :—

	Estimated quantity. Tons.
Colombo	500
Karachi	1,000
Rangoon	2,500

2. It will not be necessary for tenderers to tender for all ports, but for such port or ports as they may desire.

3. Tenders must be accompanied by a Bank of Bombay receipt for the amount to be deposited or by Government loan paper, which is not to be endorsed to any Government officer, but to stand in the name of the owner, interest being made payable at the Bombay Treasury. Tenders must be sent by registered post; if forwarded in any other way they will not be received. Informal tenders will be rejected and no reason will be assigned for the rejection of any tender. The Director of the Royal Indian Marine does not bind himself to accept the lowest or any tender.

4. Any tender containing a conditional clause contrary to these requirements, or making stipulations not provided for either in this notice or the printed tender and schedule forms, will be summarily rejected.

5. Printed tender forms and any other information in connection with this contract can be obtained at this office, and the forms can also be had from the Deputy Director of the Royal Indian Marine, Calcutta; Port Officer, Karachi; and from the Principal Port Officer, Burma, Rangoon.

6. Each tender is to be superscribed "Tender for supply of Welsh coal."

WALTER LUMSDEN,
Director of the Royal Indian Marine.

Royal Indian Marine Dockyard, Bombay, the 24th May 1911.

TENDERS are invited for the erection of a large building in Bettiah, designed by H. Crouch, Esq., F.R.I.B.A., Consulting Architect to the Government of Bengal. Drawings, bills of quantities, and specifications may be seen in the Engineer's Office. Bricks have been prepared and will be delivered on site of works at cost price.

Sealed tenders will be received by the undersigned up to 15th June 1911.

MANAGER, BETTIAH RAJ,
Under the Court of Wards.

Bettiah, the 24th May 1911. (720—2)

The Commissioners for the Port of Calcutta.

THE Calcutta Port Trust Debenture Loan (4½ per cent.) of 1881 for Rs. 10 lakhs is repayable on the 18th July 1911, from which date all interest on the said loan will cease. Holders of debentures of this loan should present their debentures at the Bank of Bengal, Public Debt Office, for examination two weeks before the date of maturity with the following endorsement on the back of each debenture :—

"Received payment in full of all demands for principal and interest due hereon."

(Signature of holder.)

By order,
H. J. HILARY, Secretary.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

ANNUAL REPORT

OF THE

ROYAL BOTANIC GARDEN AND OTHER GARDENS IN CALCUTTA, AND OF THE LLOYD BOTANIC GARDEN, DARJEELING,

FOR THE YEAR

1910-1911.

ROYAL BOTANIC GARDEN.

General.—Although there was a somewhat exceptional absence of rain during the latter half of the year, the Garden suffered but little. In addition to the routine work of the Garden proper the following special works were undertaken during the year. A stagnant pond in the south-west corner of the Garden was filled up with soil obtained by deepening part of the neighbouring large lake and by cutting away a portion of the island therein. The revetment of the river bank has been continued as far as opportunities and finances permitted by the method described in the last year's report. Nursery No. 1 that lies behind the quarters of the Curator of the Garden was completely fenced in, while continued attention was given to the development of the methods of work. The most important out-door improvement, however, was the installation of a new pumping plant for keeping up the level of the Garden lakes during the cold and hot seasons. Opportunity was taken to remove the intake from its old site which was too restricted to permit of a

spacious enough timber yard being formed, and being too close to the main riverside avenue of the Garden was somewhat of an eyesore, to a new site further along the river bank in the extreme south-west private corner of the Garden where there is abundance of space for a fuel yard and the addition of a saw bench, a dynamo or other machinery as necessity arises. The difficulties due to the new site being considerably farther away than the old one from the first of the chain of Garden lakes, and therefore necessitating longer channels being cut and syphon arrangements being made for the conveyance of the water underground, were successfully overcome by Mr. Lane, the Curator of the Garden. As a result of the new arrangement the eastern and western lakes of the Garden are now fed by independent channels—an improvement also due to Mr. Lane. A new coloured map of the Garden on the scale of 250 feet to the inch has been published, and copies are now available for sale at 4 annas at the Curator's office. A copy of the map has been posted at the Garden jetty, and it is intended to post several other copies in various parts of the Garden for the information of visitors who sometimes experience difficulty in finding their way about. Attention was given throughout the year to the general improvement of the appearance of the Garden by thinning of overcrowded groups, removing unsightly trees, and so forth. As usual, arboricultural instruction was given to selected overseers from Bengal and from Eastern Bengal and Assam during the rains, and reports furnished to the Directors of Agriculture of those provinces. Owing to the annoyance caused by the furious driving of some inconsiderate motorists, who appear to look upon the Garden avenues as racing tracks, it has been found necessary to erect large notices at each of the road entrances to the Garden warning motorists to drive slowly in the Garden. It is to be hoped these notices will have effect, but if not, the enforcement of more drastic measures will require to be considered.

2. **Interchange of seeds and plants.**—Interchange of seeds and plants with other Botanical, Agricultural and Forestry Departments throughout the world has been well up to the average. Contributions were received amongst others from the Botanical Gardens of Rio de Janeiro, British Guiana, Catamarca (Argentine Republic), Jamaica, Durban, Formosa, Singapore, Ceylon, Sydney, Entebbe (Uganda), from the Cape Town Public Gardens, from the Industrial Bureau and from the Agricultural Experimental Station in Formosa, from the Experimental Gardens, Ogasawara islands, Japan, from the Colonial Botanist, Brisbane, and from correspondents in California, in Java, in Tonkin and various places in Europe. Altogether 5,700 plants and over 1,600 packets of seeds were received. About forty species of economic and ornamental shrubs and trees hitherto unrepresented in the garden collection were introduced during the year. Nearly 40,700 plants (not including about 6,000 plants of *Azolla*) and over 5,200 packets of seeds were distributed. Most of the plants sent out were for Government institutions, Civil Stations, Cantonments, District Boards, Railways and such like. Plants and seeds of economic or ornamental importance were as usual distributed to numerous foreign Botanical and Agricultural establishments throughout the world.

3. **Herbarium and Library.**—Over 16,000 specimens were added to the Herbarium by collection, exchange or purchase. From Travancore a very valuable named collection of over 2,000 specimens, including rare plants and new species, was contributed by Mr. A. Meebold. From Coimbatore Mr. C. E. C. Fischer, Deputy Conservator of Forests, sent over 1,600 sheets excellently preserved. Dr. C. A. Barber, M.A., SC.D., Madras Government Botanist, contributed over 850 sheets, and Mr. W. Burns, B.SC., Economic Botanist to the Government of Bombay, presented a small but interesting collection. From the North-West Himalaya Mr. N. Gill, F.L.S., Superintendent, Government Gardens, Kumaon, contributed about 400 sheets. From the North-West Frontier Lieutenant S. M. Toppin presented about 100 sheets of Malakand specimens. From the south-east corner of Sikkim a very rich collection, comprising about 6,000 sheets, was made by Mr. W. W. Smith, M.A., Curator of the Herbarium. This collection has added greatly to the material for the ultimate elaboration of a Flora of the Eastern Himalaya and has also yielded quite a number of new species. From the Southern Shan States of Burma Captain R. W. MacGregor, I.M.S., has sent about 1,600 specimens, forming a very interesting collection containing several novelties. Mr. A. Rodger, Deputy Conservator of Forests, contributed nearly

400 specimens from Mogok. Mr. G. S. Cubitt, Deputy Conservator of Forests, has sent over 200 sheets from the Bhamo Division, while Mr. J. H. Lace, F.L.S., Conservator of Forests, and Mr. H. W. A. Watson, Deputy Conservator of Forests, have contributed smaller but valuable collections. The Garden is much indebted to all those officers for valuable material carefully collected. Mr. I. H. Burkill, M.A., F.L.S., has also presented a small collection of specimens from various parts of India and Burma. The extra-Indian contributions include about 700 Siberian specimens from the Director of the Imperial Botanic Garden of St. Petersburg, 200 sheets of Siamese plants from the Conservator of Forests, Siam, about 500 Sumatran specimens from the Botanic Department of the British Museum, about 360 sheets of Malayan specimens from the Director of the Botanic Gardens, Singapore, about 140 Cochin-China specimens from Dr. Bonati, of Lure, France, about 170 New Guinea specimens from Dr. Schlechter, Berlin, and 160 African specimens from the Director of the Botanical Gardens, Zurich. The total number of duplicates distributed was nearly 12,000, chiefly Eastern Himalayan and Malayan species. They were sent to about fifty different Botanical Institutions throughout the world.

Owing to the necessity of reducing the library grant during the year the additions to the library were fewer than usual.

4. **Publications.**—Part I of Volume XII of the Annals of the Garden has been in press throughout the year, but is now ready for issue. Of the Records of the Botanical Survey there have been published—No. 4 of Volume IV (82 pages) entitled *Notes from a Journey to Nepal*, by Mr. I. H. Burkill, M.A., F.L.S., Reporter on Economic Products to the Government of India. This gives an account of the vegetation of the route traversed by Mr. Burkill on his way to Khatmandu and of the Trisuli River valley in the neighbourhood of Nisikot. A list is given of the plants observed and a route map on the scale of 16 miles to an inch. No. 5 of the same volume embodying an account by Mr. W. W. Smith, M.A., on the vegetation of the Llonakh and Zemu valleys of Sikkim is well advanced in the press. No. 1 of Volume V (115 pages), comprising the first fasciculus of Part I of the *Catalogue of the non-herbaceous plants cultivated in the Royal Botanic Garden, Calcutta*, by the Superintendent of the Garden, has been published. This gives an explanation of the system adopted in cataloguing the shrubs and trees of the Garden and a list of identifications as far as possible of the first 4,000 numbers. A coloured map of the Garden on the scale of 250 feet to the inch showing the co-ordinated squares accompanies this number of the records. No. 2 of Volume V of the Records, being a continuation of the same numerical list and comprising the numbers from 4,000 to 6,000, is in the press.

5. **Financial.**—The allotment of Rs. 38,425 for contingencies was expended in full. Under salaries and establishment there was a total saving of Rs. 2,191-3-3, and under travelling allowance and compensation for dearness of provisions a saving of Rs. 1,111-4. The revenue Rs. 436-11-6—being Rs. 236-11-6 in excess of the estimated receipts—was paid into the Bank of Bengal.

6. **Staff.**—The Superintendent of the Garden, the Curator of the Herbarium and the Curator of the Garden were in charge of their respective posts throughout the year. Mr. A. E. Brown was Assistant Curator of the Garden from the 29th July to 14th September 1910. He was dismissed on 15th September 1910 under circumstances already reported to Government. Mr. A. Hardie, Probationer Gardener, acted as Assistant Curator of the Garden, from the 1st to the 25th April 1910, being thereafter transferred to Lahore. Mr. E. S. Dodd was Probationer Gardener from the 1st April to the 14th September 1910. He acted as Assistant Curator of the Garden from the 26th April to 28th July 1910 and was confirmed in the latter post on the 15th September 1910, *vice* Mr. A. E. Brown. Messrs. Harry Thomas and Harry Dodd, Probationer Gardeners, arrived on the forenoon of the 25th March 1911. Mr. Thomas was posted to the Cinchona Department and Mr. Harry Dodd as Probationer Gardener in the Garden. The new arrangement for the training of an overseer was given effect to during the year and so far has given satisfaction. Mr. A. G. Lawrence was appointed overseer on probation from the 1st April. He was on medical leave from the 1st August to the 16th October 1910. The Curator of the Herbarium, the Curator of the Garden and the other Garden officers have given all attention to their duties throughout the year. The office staff have also worked well.

CALCUTTA GARDENS.

As regards these gardens generally the prolongation of the rains until about the end of October interfered greatly with the sowing of cold-weather annual seeds, and failure of the usual show of flowers seemed unavoidable. Fortunately although late, the final result was quite satisfactory. In the Eden Gardens the principal improvements were the raising and redraining of the whole of the north-east corner—a part of the Garden that was formerly liable to flooding during the rainy season; the remaking and enlargement of the section of the Garden for the cultivation of Cannas, of which a large number of new and perpetual flowering varieties have been added to the Garden. The general effect of this section of the Garden is distinctly pleasing. The lawns and footpaths generally were kept in good repair. In Dalhousie Square Garden the alteration of footpaths, which, as originally designed, proved inadequate to accommodate the traffic passing along them, has been carried on with as little alteration to the original design as possible. The general appearance of this Garden is gradually improving. In the Curzon Garden the lavish display of beds of flowering annuals called for a great amount of labour that however yielded very successful results. The shrubs in the temporary beds within the tramway line loops at Esplanade Corner suffered from the depredations of cattle; and as the surroundings, which include a rubbish tip, are as unæsthetic as ever, the general effect is not as satisfactory as it might be. The total horticultural revenue amounted to Rs. 311, being Rs. 114 from Dalhousie Square and Rs. 197 from Hastings House.

LLOYD BOTANIC GARDEN, DARJEELING.

The Garden generally has been kept in order throughout the year. Continued efforts that are now beginning to show good results have been made to clear the lawns of the moss that shows a disfiguring effect during the cold weather. The upper—indigenous—division of the garden, formerly the municipal vegetable garden, has taken on an even appearance. Here a few Cryptomeria trees that overhung the entrance road, rendering the latter very damp and gloomy, were removed and the banks sloped. Over 140 trees and young shrubs were planted out in the Garden. A good deal of damage was wrought by borer grubs, the presence of which is usually manifested after they have caused a considerable amount of damage. The survey of the Garden referred to in last year's Report was completed by Mr. Cave, the Curator, during the year, and a list of non-herbaceous plants made out with information as to the life history of each specimen so far as available. Except since 1902 no written records exist, so that for the older plants in the Garden the Curator had to depend on information supplied by the older *malis* of the Garden. For the future with quite an ordinary amount of care in working the system now introduced there should be no difficulty in registering information regarding the life history of all the newer plants. A revised map of the Garden, the contours of which have considerably altered of late years, and sketch maps of each 100 feet × 100 feet square on which the position of each specimen is marked for future reference, were prepared. Exclusive of additions of purely horticultural character, 368 plants and 166 packets of seeds were received and over 6,500 plants, over 4,700 dozens of seedlings and over 370 packets of seeds were distributed, the last mostly abroad During the year seed collections were made along the western side of Cho-La range which separates the Chumbi from the Teesta valley. Amongst these the collections of Rhododendrons and Primulas were exceptionally good. In addition to the general collections, special collections in response to particular requests from scientific institutions abroad were made on various occasions. Over 53,300 people visited the Garden during the year. An increasing number of visitors consulted the local herbarium which, if only suitable accommodation were available, could be made of much more use to teachers, students and others interested in the vegetation of the district than it possibly can be at present. The sum of Rs. 65-8 was received as revenue and paid into the Darjeeling Treasury.

* The report is for the week ending the 27th May 1911.

General Summary.—During the week under report the rainfall was general over the Province. The fall was heavy in parts of Midnapore, Nadia, Jessore, Purnea, Darjeeling, Puri and Cooch Behar, moderate in Hooghly, 24-Parganas, Patna, Darbhanga, Cuttack, Balasore and Sambalpur and generally light elsewhere. The recent rain has been beneficial for ploughing and sowing, but more rain is wanted in parts of Howrah, Darbhanga, Bhagalpur, Purnea, the Sonthal Parganas and Puri. Sowing of jute still continues and that of paddy is in progress. The standing crops are doing well. The price of common rice has risen in Murshidabad, Khulna, Hazaribagh and Ranchi and has fallen in 24-Parganas, Gaya, Saran, Purnea and Puri. Cattle-disease prevails in Midnapore, Nadia, Jessore, Patna, Muzaffarpur, Purnea, Sambalpur, Ranchi and Manbhum. Fodder is insufficient in parts of Monghyr and Hazaribagh. Scarcity of water is reported from these two districts and also from Palamau.

No. 802T.R.—The 8th June 1911.—The following draft of rules which the Lieutenant-Governor in Council proposes to make, in exercise of powers conferred by section 264 of the Chota Nagpur Tenancy Act, 1908, is published for the information of persons likely to be affected thereby.

Chota Nagpur.

The draft will be taken into consideration on the 14th July 1911, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

Draft.

In exercise of the power conferred by clause (*vii*) of section 264 of the Chota Nagpur Tenancy Act, 1908, the Lieutenant-Governor in Council is pleased to make the following rules for settling fair rents under clause (*ii*) of sub-section (*2*) of section 85 of that Act:—

1. Rules 33 to 37 (both inclusive) of the rules published under Notification No 3378L R., dated the 9th November 1909 (published at pages 1578-85 of Part I of the *Calcutta Gazette* of the 10th idem), and Schedule VIII appended to these rules, shall apply *mutatis mutandis* to the settlement of fair rents under clause (*ii*) of sub-section (2), section 85 of the Chota Nagpur Tenancy Act, 1908:

Provided that the Revenue Officer shall, after receiving such evidence as may be tendered by the parties, of his own motion, make such further enquiries as may be necessary for the determination of a fair and equitable rent.

2. The cost of the proceedings shall be recoverable in such way as the Local Government may direct under section 95 of the Chota Nagpur Tenancy Act, 1908, and the parties shall not be required to make any application for rent settlement or to pay any Court or process fees for the initiation of proceedings.

3. When the area under rent settlement is a Government estate or tenure, no Court or process fees shall be required from the Government at any stage of the proceedings.

No. 1806L.A.—The 6th June 1911.—The following is published for general information.

J. G. CUMMING,
Secy. to the Govt. of Bengal.

ARTICLES OF AGREEMENT made this 29th day of May one thousand nine hundred and eleven BETWEEN THE CALCUTTA STEAM NAVIGATION COMPANY LIMITED a company incorporated under the Indian Companies Act No. VI of 1882 having its registered office at No. 38 Strand Road in the town of Calcutta hereinafter called the Company of the one part and THE SECRETARY OF STATE FOR INDIA IN COUNCIL hereinafter called the Secretary of State of the other part WHEREAS the Company has applied to the Government of Bengal to acquire on behalf of the Company under the provisions of Act I of 1894 of the Governor-General of India in Council (hereinafter referred to as "the said Act") the land described and delineated in the Schedule and plan hereto annexed and situate and being at mauza Bally in district Hooghly pargana Boro sub-registry and registry Howrah thana

Bally for the construction of a workshop and repairing yard of the Company wherein the steamers in the service of the Company are to be fitted and repaired and Whereas the Government of Bengal being satisfied by an enquiry held under its order pursuant to section 40 of the said Act that the said acquisition is needed for the construction of the said works and that such works are likely to prove useful to the public has consented to the said acquisition pursuant to the provisions of the said Act and has required the Company under the section 41 of the said Act to enter into the Agreement hereinafter contained NOW THESE PRESENTS WITNESS that it is hereby agreed and declared as follows :—

The Company shall and will pay and reimburse to Government within such time as may be fixed and notified to the Company by the Collector the entire cost of acquiring the said land in accordance with the provisions of the said Act including all compensation, damages and expenses which may have been or may be paid or incurred in respect of or on account of such acquisition, and all law costs which have been or may be incurred by Government upon or in respect of or incidental to the said acquisition, including the costs and expenses of any litigation arising thereout either in the original or appellate courts and also the cost of the establishment and the salary of the officer or officers of Government employed or to be employed by Government in connection with or for the purposes of such acquisition.

2. Upon such payment by the Company the Secretary of State shall execute and do all such acts deeds matters and things as may be necessary or proper for effectually vesting the said land in the Company subject to the conditions hereinafter contained.

3. The Company shall construct upon the said land one or more permanent sheds godowns or other necessary erections or excavate necessary ditches or trenches on the said plot of land for such workshop and repairing yard as aforesaid and the Company shall use the said land and hereditaments for no other purpose and shall not assign, transfer or part with the possession thereof or of any part thereof without the previous consent in writing of the Secretary of State or his officer duly authorised in that behalf first had or obtained.

4. That the said workshop and repairing yard shall be completed and fit for use within one year from the date when the said land and premises are transferred to the Company and that the Company so long as they shall use the buildings and erections to be so erected and the trenches and ditches to be so excavated as aforesaid as such workshops and repairing yard as aforesaid shall be bound to maintain and keep the said building or buildings or erections trenches or ditches in proper repair and condition.

5. That the public subject to the provisions of the Acts and bye-laws regulating the Company and the rules framed and to be framed by the Company from time to time shall be entitled to the use of the steamers in the service of the Company to be repaired and fitted in the workshop and repairing yard so to be constructed as aforesaid.

6. The Company shall at any time permit the Local Government or any officer, deputed by the Government in that behalf, to inspect all works of the Company upon the said land, whether in the course of construction or otherwise and shall furnish to the Local Government, from time to time, on demand correct statements of the money expended by the Company in the construction of the works of the Company upon the said land.

7. In case the Company shall not erect upon the said land the works referred to in clause 3 hereof, within the period mentioned in clause 4, then it shall be lawful for the Local Government at any time within six calendar months after the expiry of the said period, to enter upon and to take possession of the said land or any part thereof, and the said land shall *ipso facto* vest in the Secretary of State upon the following terms :—

(1) The Secretary of State shall forthwith pay to the Company a sum equal to the amount of compensation awarded under the provisions of the Land Acquisition Act and paid by the Company for such acquisition, including the amount awarded under section 23 (2) of the said Act.

(2) The Company shall be at liberty, within 12 calendar months after the said land shall have become so vested in the Secretary of State, or within such time as the Local Government shall consider reasonable and shall prescribe, to enter upon the said land and pull down, remove and carry away all or any buildings, works and other property belonging to the Company and standing and being upon the said land, at the cost of the Company. Provided, that any property of the Company which may remain on the said land after the expiry of the said period may be sold by the Local Government either by public auction or otherwise as the Local Government shall think fit and the proceeds of such sale, after deduction of the expenses of and incidental to the sale, shall be paid by the Local Government to the Company.

8. If at any time or times, any part or parts of the said land, not directly utilised by the Company for the purposes of the manufactory, shall be considered necessary to be possessed by the Government for the revenue administration or for the purposes of the public safety, health or necessity (of which the Local Government shall be the sole judge), the Company shall transfer the said part or parts of the land to the Secretary of State; and the Secretary of State shall pay to the Company a sum equal to the amount of compensation awarded for the said part or parts of land upon the acquisition thereof for the Company, including the amount awarded in respect of the same under section 23 (2) of the said Act.

IN WITNESS whereof the Company has hereunto set its common seal and the said Secretary of State has through the hand of one of his Principal officers hereunto set his hand.

IRRIGATION DEPARTMENT.

[Fifth publication.]

The 15th May 1911.

No. 4.—Notification.—The following draft of a notification which the Lieutenant-Governor in Council intends to issue under sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act, III of 1876), for the Sone Canals, is published for the information of persons likely to be affected thereby.

The draft will be taken into consideration on the 1st July 1911, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

T. BUTLER,
Secy. to the Govt. of Bengal.

Draft Notification.

In exercise of the powers conferred by sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act, III of 1876), and in supersession of all previous notifications under those sections for the Sone Canals [except Notification No. 148, dated the 20th June 1881, published at page 637 of Part I of the *Calcutta Gazette* of the 22nd June 1881, which shall remain in force for the purposes of rule 71 (*g*) annexed to the present notification], the Lieutenant-Governor in Council is pleased to make the following rules for the Sone Canals.

GENERAL CONDITIONS.

1. The Collector, before awarding compensation under section 16 or 76 (*c*) or making a reference under section 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of proceedings.

2. Except as provided in Act III (B.C.) of 1876 (the Irrigation Act) and these rules, no appeal shall lie from any order passed by a Canal Officer or the Special Deputy Collector in charge of the Revenue Division of the Sone Canals who has been vested with the powers of a Collector under the aforesaid Act. The Sub-Divisional Canal Officer, however, shall modify any order passed by him in accordance with the orders of the Divisional Canal Officer. The Sub-Divisional and the Divisional Canal Officers and the Special Deputy Collector in charge of the Revenue Division of the Sone Canals, shall modify any orders passed by them in accordance with the orders of the Superintending Canal Officer. The Superintending Canal Officer is empowered, and expected, to exercise a general control over the proceedings of all Canal Officers and of the Special Deputy Collector, the Sub-Deputy Collectors, and all other officers attached to the above-mentioned Revenue Division of the Sone Canals.

3. It will be the duty of the Superintending Canal Officer to issue orders on the following points:—

I.—The limits within which water will be available during the *kharif* season—(*a*) for annual leases; (*b*) for leases for a term of years

II.—The distributaries from which water will be supplied during the hot season.

III.—The distributaries from which water will only be supplied during the *rabi* season at the rate (*see* Schedule III) ordinarily charged.

IV.—On sufficient cause being shown, to prohibit the issue of permits for the irrigation of land in specified localities generally or during the *kharif* season only.

Such public notice as is practicable will be given of the instructions under this rule as long as is possible before they are enforced.

4. Appeals to the Collector under section 91 of the Act, other than those specially provided for in rule 37, will ordinarily be from an order passed by the Divisional Canal Officer The Collector may, when the order passed involves (I) the alignment of a village channel, (II) the refusal of the Divisional Canal Officer to accept a block as suitable for the issue of a permit for *kharif* irrigation, require the Superintending Canal Officer to state his opinion in writing, which shall form part of the record of proceedings in the case.

ON VILLAGE CHANNELS.

5. The Canal Officer shall prepare a list of channels which, previous to the 1st of April 1891, have been ordinarily used as village channels, and enter them in a register prepared in the manner prescribed in Part V of the Act.

6. A village channel which was constructed after the 1st of April 1891, or which had not ordinarily been used as a village channel before that date shall not be entered in the register except at the written request of the owners of it. Water shall not be supplied for irrigation during the *kharif* season through any channel other than one which has been entered in the register.

7. Village channels which may be constructed in future shall not as a rule exceed one mile in length; the length being measured in a straight line from the outlet to the boundary of the part of the village which the channel is intended to irrigate.

8. The sum fixed by the Canal Officer as rent under section 68 of the Act shall not be less than half an anna, and shall not exceed four annas per bigha assessed with water-rate.

ON LAMBARDARS.

9 In every permit issued under section 75 of the Act other than those issued under rules 18 or 19 following, the name of one or more persons shall be entered as *lambardar*, who will be responsible for discharging the duties mentioned below :—

I.—Obtaining signatures to applications and certifying to the correctness of the same.

II.—Attending and giving assistance in measuring land irrigated or proposed to be irrigated.

III.—Giving timely information to the Canal Officer or subordinate of any insufficiency in the supply of water and promptly reporting when the irrigation of the leased area on any channel is complete.

IV.—Supervising the distribution of the water supplied through an outlet amongst the persons entitled thereto and reporting any misuse of the same.

V.—Being present when complaints are investigated by a Canal Officer or subordinate, and giving information required in connection with the same.

VI.—Receiving *parchas* from the Canal Officer and distributing the same amongst the persons named therein.

VII.—Reporting before the 20th of October all cases in which crops have been injured by deficiency or irregularity of supply in the *kharif* season, so that these cases may be investigated before water-rates are demanded.

VIII.—Reporting to the Collector or to such officer as he may appoint mutations in holdings in the case of leases for a term of years.

IX.—Assisting the Collector by generally helping the collecting staff in the collection of water-rates.

(*See* also Superintending Engineer's Circular No. 7 of 1895.)

10. In the case of leases for the season, the remuneration for performing the duties mentioned in clauses I to VII and IX of the rule immediately preceding shall be 2 per cent. on the assessments (excluding fractions of rupees), which shall be paid by the Canal Officer. The amount paid shall be calculated in rupees and annas only, pies being omitted.

11. In the case of leases for a term of years, other than those entered into jointly with contractors, the remuneration to be paid to the *lambardar* for performing the duties mentioned in clauses I to IX of Rule 9 shall be 3 per cent. yearly on the assessment of the year (excluding fractions of rupees), which shall be paid by the Canal Officer The amount paid shall be calculated in rupees and annas only, pies being omitted.

12. The *lambardar* will be appointed by the Sub-Divisional Officer in consultation with the applicants for the lease, and must be a substantial person having a beneficial interest in part of the land to be irrigated. There is no objection to different *lambardars* being appointed to represent sections of the applicants, or to a number of persons being jointly appointed as *lambardars* on behalf of the whole of the applicants. In case the Sub-Divisional Canal Officer cannot agree with the applicants in the appointment of a *lambardar*, he shall nominate a *lambardar* for approval by the Divisional Canal Officer.

In those cases where an application is made by a contractor and cultivators jointly for a lease for a term of years, the *lambardar* shall be nominated by the contractor.

13. The Divisional Canal Officer may, for reasons which appear to him to be sufficient, and which must be recorded, remove a *lambardar* from his appointment, and in that case a new *lambardar* shall be appointed in the manner prescribed in the rule immediately preceding.

14 The Divisional Canal Officer may, with the consent of the *lambardar*, by a written order, of which the *lambardar* shall be furnished with a copy, transfer to him the duty of controlling the supply of water through an outlet, and may, at any time, by a written order, recall such order. *Lambardars* to whom such control is transferred shall exercise such power, subject to such general written orders as they may receive from the Sub-Divisional Canal Officer, and shall receive one per cent. on the assessment in addition to the percentages prescribed in Rules 10 and 11.

15. The fees sanctioned to be paid to *lambardars* will only be disbursed if the duties specified have been satisfactorily performed. The Divisional Canal Officer may retrench the whole or any part of the fees payable by him in the event of this condition not being complied with. In calculating the fees payable, fractions of an anna will be excluded.

(*See* Superintending Engineer's Nos. 3126—28 of 4th July 1896 with reference to retrenchments.)

ON APPLICATIONS.

16. Applications under section 74 of the Act for permits for irrigation upon leases for a term of years (Appendix I), or upon *kharif* season leases (Appendix III), shall be subject to the following conditions :—

I.—The application must be for a block of land having well-defined boundaries and so situated that adjoining lands will not ordinarily or probably be irrigated by water supplied for the land included in the application.

II.—The application must be in the form annexed to these rules, which states that water-rates will be paid on all lands contained in the block for which an application is presented, whether water or no water is required.

III.—The applications may be for a term of years, or for the season only—

(a) In case of application for the season only, the issue of the permit will not necessarily be delayed until the lands have been measured. The boundaries of the block must be stated in the application, which must be signed by, or by authority of, the cultivators of all the land included in the boundaries mentioned, and the approximate area in the occupation of each on the block must be specified. Water-rates will be charged on the areas in the block as found by actual measurement. An application for a permit for the season must be filed by the 1st September, but with the Superintending Engineer's sanction an application for a season lease may be entertained up to the end of the season.

(b) In the case of applications for a term of years, a permit will not be issued until the land has been measured and an application complete in every respect for all the land included in the block has been signed. All the leases within one group (a 'group' being defined as in Note II) shall be so granted as to expire on the same date. If water is required to be supplied before the application is completely signed in the manner specified above, an application for water for the season must be made, which will be cancelled on a permit for a term of years being issued.

NOTE I.—Superintending Engineer's Nos. 2940—42 of 26th June 1896 directs that "if applicants for a long-term lease, which is not signed before the 15th August, decline to apply for a season lease under Rule IIIb by that date, they should be informed that the long-term lease will not be granted during the year."

NOTE II.—A group is defined as consisting of a certain area of country mapped out in accordance with the features of the ground, natural or artificial.

NOTE III.—The leases granted for a term of years in a group will take effect from 1st April 1910.

(c) Notice that a permit for a term of years is required must be given by the 1st of April, but with the Superintending Engineer's special sanction the time may be extended where reasonable cause for the delay in filing the application for a long-term lease can be established. No permit will be issued unless the application is completely signed by the 30th of November, or, with the special sanction of the Superintending Canal Officer, by the 1st of March following.

NOTE.—Superintending Engineer's Nos. 1049—51, dated 13th April 1892.

IV.—With the special sanction of the Superintending Canal Officer an application may be made for an addition to a lease for a term of years, which, if granted, shall be considered as part of the original lease and terminate therewith.

16A. Applications (Appendix IVC) for a single watering between 26th June and 25th October may be entertained if water is available after meeting the demand for the areas leased under a term of years or for the season. The applications will be subject to the conditions prescribed for the *rabi* and hot weather seasons: see rule 17 below

17. Applications for irrigation in the *rabi* season, 26th October to the 25th March, and the hot weather season, 25th March to the 25th June (Appendices IVA and B), will be subject to the following conditions:—

I.—The approximate areas of land for which water is required must be stated in the application, which must be signed by the occupiers thereof. It must be stated in the application that the water-rates will be paid on the area actually irrigated

18. Applications for the sale of water by volume for purposes of irrigation will only be entertained on condition that half the amount chargeable is paid to the Sub-Divisional Canal Officer when the application is filed, and that a bond is executed in the form attached to these rules as Appendix V signed by substantial persons pledging themselves to pay such sums as will in the aggregate make up the remainder. The bond will not have reference to the area to be irrigated, but will be in consideration of a particular outlet being kept open for a specified time, and the sums mentioned therein will be recoverable on the certificate of the Canal subordinate that this condition has been fulfilled. Water will be supplied under this rule from the 1st of July to the 31st of October only.

19. Applications for the sale of water by volume for filling *aharas* will be in the form attached to these rules as Appendix VI. The entire charge will be payable in advance. Water will be supplied under this rule from the 1st of November to the 25th of March only.

ON PERMITS

20. All permits for the use of water issued under section 75 of the Act shall be subject to the following conditions:—

I.—That the water is supplied for the sole purpose of irrigating the land mentioned in the application. The term "irrigating" includes the right to drain (*nigar*)

at the proper season of the year, previous notice being given to the sectional officer that the outlet is required to be closed. Under colour of *nigaring*, however, no right is conferred to irrigate culturable land for the purpose of sowing a crop or maturing any existing crop.

II.—That water will be supplied at the level at which it is ordinarily maintained in the distributary from which water is taken off, and that no earthen bunds or other works will be constructed to raise the level of the water in the distributary. No right to flow irrigation is conferred unless existing appliances admit of it.

III.—That a *lambardar* shall be appointed in the manner specified in Rule 12 to represent the interests of the cultivators and to perform the duties mentioned in Rule 9.

IV.—That the village channel from which water is supplied is kept in a proper state of repair, so that water shall not be wasted.

V.—That water-rates are paid when due.

VI.—That water supplied for the irrigation of a specified block of land shall not, under colour of the permit, be utilized for the irrigation of land beyond the boundaries specified in application.

NOTE.—Where these conditions are infringed, appropriate penalties or disabilities to the extent specified in the Act or these rules will be enforced.

21. A permit shall not be issued where, in the opinion of the Canal Officer, waste is likely to occur. In the order refusing a permit on this ground, the manner in which it is apprehended that waste will occur shall be stated.

22. Permits for irrigation upon leases for a term of years (Appendix VIII) or upon *kharif* season leases (Appendix IX) shall be issued under the following conditions:—

I.—The land to be irrigated must form a compact block defined by well-marked boundaries of such a nature as clearly to distinguish leased from the adjoining unleased lands, and to preclude the possibility in ordinary circumstances of water escaping from the boundaries without obvious wilful cutting or demolition. They must be maintained in the same state of repair during the currency of the lease as existed when the permit was granted and also be so situated that unleased lands will not be ordinarily or probably irrigated by water supplied for the land included in the block. The boundaries must be mentioned in the application for a permit for the season, and in the notice referred to in Rule 18(*c*), when a permit for a lease for a term of years is applied for.

II.—The Canal Officer may exclude lands included in the block not irrigable by flow or for which canal water is ordinarily not required. In the case of permits for a term of years, the block must be not less than 50 bighas in area. In cases where the Divisional Canal Officer considers it advisable to grant a permit to a block of less area than that mentioned above, the previous sanction of the Superintending Canal Officer must be obtained. No permit for a term of years shall be issued unless the owners of the village channel from which water is to be obtained have been registered and the channel itself is in a good state of repair; such as to fit it for the conveyance of water without wastage occurring. Such leases will not be issued unless it is known from the experience of previous years' irrigation that a sufficient supply of water is always available, and that the quantity required is not excessive.

III.—A permit for a lease for a term of years may be cancelled by the Superintending Canal Officer with effect from a date to be specified in the order for good cause on the application of all the signatories thereto.

IV.—Permits for the season will be issued under less favourable conditions as to situation, soil and quantity of water available; it will not be necessary that the owner of the channel should be registered, but the channel itself must be entered on the register.

V.—Water-rates will be levied on the areas of the blocks specified in the permits, and measurement of the areas actually irrigated will not be necessary.

22A. Permits (Appendix XI) for a single watering during the *kharif* season from 26th June to 25th October may be issued under the conditions prescribed in Rule 23 (I) (II) (III) below, if water is available after meeting the demands for the areas leased under a term of years or for the season.

23. Permits for irrigation in the *rabi* and hot weather seasons, 25th October to 25th June (Appendix X), will be issued on the following conditions:—

I.—The applicants will undertake to give the *lambardar* notice to close the outlet as soon as the area requiring irrigation has received a sufficient supply of water.

II.—The applicants will undertake, as far as is practicable, to prevent water supplied being wasted or applied to the irrigation of fields not included in the application.

III.—Water-rates will be levied on the areas actually irrigated, and not on those specified on the application.

ON DISABILITIES AND PENALTIES.

24. At the request of the Collector, the Superintending Canal Officer may direct the Divisional Canal Officer to—

I.—Cease to issue permits for the irrigation of land in villages where there have been constant difficulties in realizing water-rates until all the arrears of water-rates due are paid up, and also, if specially required, unless half the amount due for the ensuing year under future applications are paid up in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

II.—Cancel any lease for a term of years if, after the lapse of one month from the latest date of payment, the water-rates (except such as are irrecoverable under Rule 63) are in arrears.

25. The Divisional Canal Officer may, with the concurrence of the Collector and the sanction of the Superintending Canal Officer, cancel a lease for a term of years if water is habitually misused or wasted. Such an order shall have effect from the 25th June next ensuing, and two months' notice at least must be given to the *lambardars* for the information of the cultivators.

25A. When the Divisional Canal Officer acting under section 60 strikes a channel supplying a long lease off the register, he shall, if the remaining registered channels cannot satisfactorily irrigate the block, at the same time cancel the lease, provided that—

(*i*) If the order for cancellation be made between the 25th of June and the 25th of October no water-rate shall be payable for the period subsequent to the 25th June preceding the date of the order.

(*ii*) If the order for cancellation be made between the 25th June and 25th March, half the annual rate will be payable for the period subsequent to the 25th June preceding the date of the order.

ON THE SUPPLY OF WATER.

26. I.—Any Canal Officer may, in the case of pressing emergency, stop the supply of water to any canal or distributary. If such order is passed by an officer below the rank of a Divisional Canal Officer, it shall forthwith be reported to the Divisional Canal Officer, and if the stoppage exceeds five days in duration, to the Superintending Canal Officer.

II.—The Sub-Divisional Canal Officer may, by written order under section 76*a*, stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that either it, or, in case the channel is supplying a long-term lease, the boundaries of such lease are not maintained in proper repair. Such order shall be recorded in the Sub-Divisional office.

III.—No person shall be entitled to be supplied with water until the village channel has been put in a proper state of repair in accordance with directions given by the Sub-Divisional Canal Officer.

IV.—The Canal Officer or any of his subordinates may temporarily close an outlet supplying a village channel from which unauthorized irrigation is, at the time the outlet is closed, being carried on.

27. The Divisional Canal Officer may close the outlets in rotation as he may consider necessary. The periods of such closures must be notified to the *lambardars* concerned.

28. No water shall be supplied nor shall any person be entitled to a supply of water until a permit signed by a Canal Officer authorized to sign a permit has been signed and issued.

29. The Canal Officer will be responsible that the supply through the outlet is in the *kharif* and *rabi* seasons maintained in accordance with the requirements of the crops. In both seasons it will be the duty of the *lambardar* to inform the Canal Officer or subordinate when the area under lease has been fully irrigated, so that the outlet may be closed, or if he has, under rule 14, been given charge of the outlet, to close it himself.

ON DEMAND STATEMENTS.

30. The statements of the amounts demandable for water-rates leviable under the rules in force shall be prepared under the supervision and stamped signature of the Divisional Canal Officer, in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

31. The demand statements for water-rates due under leases for a term of years shall be prepared at the same time as the application, and a copy thereof shall be given to the *lambardar* as well as a *parcha* for each signatory to the lease with the permit. No further notice of demand shall be given during the currency of the lease.

32. The demand statement for water-rates due under a lease in the *kharif* season shall be prepared either before the permit is issued, or as soon as conveniently may be after its issue, and shall, without reference to the land having been actually irrigated up to that time

or not, show the water-rates due by each person whose land is included in the application. Demand statements (*parcha*) showing the sums due from each applicant shall be sent to the *lambardar* for distribution, and no further notice of demand shall be given.

33. For irrigation during the hotweather or *rabi* season, the following procedure shall be followed :—

I.—The area irrigated in any village shall be measured by an amin appointed for the purpose. The *khasra* shall be signed by both the amin and the *lambardar*, who shall be present at the measurements. If the *lambardar* is not present, the amin shall arrange that at least two respectable cultivators shall be present and enter their names in the *khasra* prepared by him.

II.—When the measurement is completed, the *khasra* shall be forwarded to the Sub-Divisional Canal Officer, who shall prepare the demand statement (*khatiani*) with all possible despatch. Copies of extracts of the demand statement affecting each separate cultivator (*parchas*), signed and sealed by the *silladar*, shall, as soon as prepared, be forwarded to the *lambardar* for distribution amongst the persons charged. The *lambardar* shall grant a receipt for the *parchas* forwarded.

III.—If the *lambardar* is not present, or declines to grant a receipt for the same in the prescribed form, the Sub-Divisional Canal Officer shall make other efficient arrangements for serving each person assessed with a *parcha* showing the amount due from him. *Parchas* may be sent by post.

34. Objections to the demand statements prepared in accordance with the preceding rules 31, 32 and 33 may be presented, either personally or through the *lambardar*, to the Sub-Divisional or Divisional Canal Officer, who shall thereupon, after such enquiry as he may consider to be necessary, pass orders on the same. A copy of the order passed (which may be sent by post) shall be served on the person making the objection. Objections to the demand addressed to the Collector shall be referred for the orders of the Divisional Canal Officer.

35. Objections to the demand statements must be presented within thirty days of the date on which the *parcha* was received by the *lambardar*, but this period shall be extended where reasonable cause for delay can be established.

36. The objections may be in a form, which will be sold for half-an-anna at all Canal offices, giving instructions as to the particulars required to admit of the objections being readily investigated ; but any form will be accepted provided it clearly states the name or names of the persons objecting, the crop, and the year for which the charge is made, and the demand from each cultivator to which objection is taken.

37. Any person not satisfied with the order passed by the Canal Officer under rule 34 may file an application of appeal to the Collector under section 91 of the Act. Such application must be accompanied by a copy of the order appealed against. The Collector shall thereupon, after considering the records of the case, pass such order as he may think fit, and shall meanwhile have discretion to suspend collections by a written order in cases where it may seem advisable to do so.

38. When the order appealed against to the Collector is that of a Sub-Divisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record thereon any remarks he may think fit. The papers shall not be detained for the purpose of enabling the Divisional Canal Officer to make further enquiries which, however, may be directed by the Collector on the suggestion of the Divisional Canal Officer or on his own motion.

39. Applications for mutations of names in leases for a term of years shall be made to the Collector ; if addressed to the Canal Officer they shall be referred to the Collector for disposal. Applications for alterations in long-term leases on account of wrong assessment shall be made to the Divisional Canal Officer ; if presented to the Deputy Collector they shall be referred to the Divisional Canal Officer for disposal.

39. (*a*) When the mutations of the names of rate-payers are found to be more than 30 per cent. of the whole, the Deputy Collector will request the Divisional Canal Officer to prepare and forward a revised demand statement. The same rule applies for other crops.

ON WATER-RATES.

40. Water-rates imposed under section 79 of the Act for the irrigation effected in the hot weather or *rabi* seasons, shall be assessed by the Canal Officer at rates which shall be fixed by the Divisional Canal Officer, and which shall not be greater than those shown in the following schedule :—

	FLOW OR LIFT.	
	Rate per bigha.	Rate per tenth of a bigha.
	Rs. A.	A.
For water used in an unauthorized manner.	6 4	10

In the *kharif* season water-rates shall be imposed by the Divisional Canal Officer under section 79 *only* after the sanction of the Collector has been obtained to make a detailed measurement of the land irrigated without authority.

NOTE.—Areas irrigated by *bonâ fide* surplus water drained off from a leased area shall not be assessed. *Bonâ fide nigar* is defined as water drained off the fields while the outlet remains closed.

The Collector's sanction is not in itself authority for the imposition of water-rates—it merely authorizes proceedings being instituted. The rates to be charged in the *kharif* season will be subject to the same maxima as in the hot weather and *rabi* seasons. Persons using water without a permit shall, unless exempted by section 74 of the Act, be charged water-rates according to the season in which water is used, at the rates specified in this rule.

41. Charges for waste of water imposed under section 80 of the Act shall be at the rates fixed in the rule immediately preceding, and be subject in the *kharif* season to the same condition as regards sanction by the Collector as is required by that rule; where a tank or *ahara* has been filled, a charge of Rs. 5 per thousand cubic yards may be made in lieu of an acreage charge.

42. Water-rates assessed under sections 78, 79 or 80 of the Act shall be paid on or before the dates mentioned below:—

For leases for a term of years entered into after the 1st January 1898.	One kist on or before the 15th January.
Season leases—	
Under Schedule No. II	... For rice and sugarcane on or before the 15th December. For a single watering, on presentation of the demand.
Ditto No III	... *Rabi* and sugarcane on or before the 5th April.
Ditto No. IV	... Hot weather irrigation on or before the 1st July.
Assessments under section 79 of the Act or under Rule 40 Assessments under section 80 of the Act	On presentation of the demand.
Water supplied by volume between the 1st of September and 31st of October.	One moiety before the outlet is opened, the other moiety on or before the 15th December.
Water supplied by volume to fill *aharas*	... The whole amount before the outlet is opened.

The Divisional Canal Officer shall forward the demand statements of leases under Schedule No. II to the Collector as soon as they have been prepared in accordance with rule 32. He will forward these and all other demand statements as soon as they are ready and will endeavour to send them at least fifteen days before the latest dates fixed for the payment of the water-rates, but accuracy in the individual charges shall be regarded as of more importance than a rigid adherence to dates.

43. Where lands are held on a *bhaoli* tenure, the entire water-rates assessed under section 78 of the Act shall be demandable from the occupiers of the land assessable; but at the written request of the *bhaoli* owner, in the form, Appendix VII, which may be presented to the Divisional Canal Officer or to the Collector, the water-rates shall be recovered from the cultivators and the person or persons in receipt of the *bhaoli* rents in the same proportion as the produce is divisible amongst them. The demand statement shall be made out by the Divisional Canal Officer in the name of the cultivators, any necessary modification therein, owing to a request made by a *bhaoli* owner under this rule, being carried out by the Collector. But on lands under Government management half the rates should be paid by the landlords, and in other cases any influence which the Collector may possess should be used to make the zamindar consent to this equitable arrangement.

44. In the case of lands held under a *bhaoli* tenure being assessed under section 79 of the Act, the whole of the persons deriving benefit therefrom shall be assessed in the same proportion as the produce is divisible amongst them.

ON REMISSIONS.

45. The water gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of failure of supply.

46. Claims to remission of water-rates under section 76(*b*) shall only be admitted on proof of actual loss caused by failure of supply. On proof of such loss, the Divisional Canal Officer may remit the whole or any part of the rates. All applications for remission of water-rates shall be made in the manner provided in rule 34 and not less than twenty days before the crop is cut The Divisional Canal Officer, with the previous sanction of the Superintending Canal Officer, which sanction may be delegated to any Divisional Canal Officer, when the crop of an individual cultivator of a season lease has failed to the extent of losing twelve annas or more of its value in the rupee, may, as a matter of grace, grant remission up to 10 per cent. of the area assessed against the cultivator, notwithstanding that the deficiency in the crop is due to causes other than through partial or total failure in the supply of canal water.

47. Before awarding compensation under section 76(*c*), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings. All applications for compensation under section 76(*c*) must be made not less than twenty days before the crop is cut.

48. Notwithstanding anything contained in these rules, the Superintending Canal Officer may, should he consider the circumstances of the case require it, under such general instructions as he may from time to time receive from Government, remit, under the head "Extraordinary", so much of the water-rates as are in excess of ten annas a bigha. But no such remissions shall be claimable as a right, nor shall any person be entitled to receive an order on an application for remission under this head, which will ordinarily only be made on the representations of Divisional Canal Officers.

49. A remission statement signed by the Superintending, or Divisional Canal Officer, shall be sufficient authority for a refund by the Collector.

INTERMEDIARY AGENCY.

50. Leases in the *kharif* season for a term of years will be entered into with associations of cultivators as specified in these rules; and also on the joint application of the cultivators and of some person hereinafter called the contractor, who shall collect and pay to Government, under section 82 of Act III (B C.) of 1876, all sums due under the agreement on account of water-rates. The joint agreement shall be in the form given as Appendix II to these rules. The contractor must have a beneficial interest in some part of the land included in the application extending for the full term of the lease.

51. Contractors shall be entitled to collect water-rates from the cultivators who have signed the application and from their successors in interest in the land included in the block at the rates fixed by the Lieutenant-Governor under section 78 of the Act. Every due from a cultivator to a contractor on account of water-rates shall be deemed to be a sum due to Government under sections 82 and 85 of Act III (B.C.) of 1876.

52. A contractor (or in case there be more than one, each contractor severally and jointly) shall use due diligence in the collection of the water-rates specified in the agreement from the cultivators who have applied for the water supplied. In the case of his failure after due diligence to collect, he shall, within thirty days of the rates becoming due, submit to the Collector a list showing the names of the defaulters with the sums due from each, and the Collector shall thereupon proceed to realize the amount due from the said defaulters according to law.

53. A contractor (or in case there be more than one, each contractor severally and jointly) shall be responsible for all sums payable on the agreement, except such sums as he may satisfy the Collector that he has been unable to collect after using due diligence, and shall be entitled to a deduction of 5 per cent. on all sums collected by himself.

54. In the case of a lease entered into under an application in the form given as Appendix I, a contractor may subsequently be appointed by the Collector with the written approval of the Superintending Canal Officer. Such contractor must, for the whole term of the lease, have a beneficial interest in some part of the land included in the application, and must sign an application in the form given as Appendix IIA. The appointment shall not be made unless the *lambardars* and leading cultivators give their assent in writing thereto, and the Collector is satisfied that the appointment of a contractor is acceptable to the signatories to the lease.

55. The contractor appointed under rules 50 and 54 may, but shall not necessarily, be *lambardar*. The *lambardar* will in all cases be appointed by the Canal Officer under the provisions of Rule 12, and shall be remunerated at the rates specified in Rules 11 and 14, subject to the conditions mentioned in Rule 15.

56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall be entitled to a deduction of 2½ per cent. on all sums collected by himself in addition to the deduction of 5 per cent. to which he is entitled under rule 53, *i.e.*, to a total deduction of 7½ per cent.

57. No steps shall be taken to prepare a joint application by cultivators and a contractor until the written assent of the Collector to the proposed contractor has been received, nor shall the Collector take any steps towards the appointment of a contractor under rule 54 until the written assent of the Superintending Canal Officer has been received. The Collector may, before approving of a contractor under this rule, require him to give security for the due performance of the contract.

58. A contractor may resign his interest in the lease by giving notice to the Divisional Canal Officer three months at least before the 25th June next following, in which case his connection with the lease shall cease from that date, and the Sub-Divisional Canal Officer shall proceed to appoint a *lambardar* under rule 12, and the Collector to realize water-rates due directly from the applicants. The Divisional Canal Officer may, at the instance of the Collector, remove a contractor who fails to use due diligence in making collections. In such cases three months' notice at the least before the 25th of June next following shall be given, and the removal shall take effect from that date. The Collector may, under the conditions and procedure specified in rule 54, appoint a new contractor in place of a contractor who has resigned.

59. With the written approval of the Superintending Canal Officer, a contractor may measure and prepare demand statements for lands irrigated in the hot weather, for which applications in the prescribed form have been filed by him. Such demand statements shall be forwarded to the Sub-Divisional Canal Officer, who shall thereupon proceed to deal with them as if they had been prepared by himself.

60. When an agreement has been made for the collection of rates by a contractor, the Divisional Canal Officer shall, under section 82 of the Act, furnish such contractor with a written authority to collect the amounts due by the cultivators, a copy of which shall be sent to the Collector.

60.(*a*) The contractors are to note the number and year of the *khationi* and the serial number of the rate-payer on receipts granted by them in order that the particular demand may be traced when a mutation is applied for by a rate-payer.

ON COLLECTIONS AND ALTERATIONS IN DEMAND STATEMENTS.

61. Collection of all water-rates shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer except in the case of lands held *bhaoli*, regarding which the provisions contained in rule 43 shall be followed.

62. The Collector may make any alterations in a demand statement provided the total sum shown to be due is not altered or an error in account only corrected. When such alterations are made in a demand statement appertaining to a lease for a term of years, a copy of the alteration statement shall be sent to the Divisional Canal Officer.

63. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Collector. A detailed list of all sums so written off shall be forthwith sent to the Superintending Canal Officer. In other cases the sanction of the Commissioner of the Division must be obtained, through the Superintending Canal Officer, to admit of demands being written off under this head.

MISCELLANEOUS.

64. No person shall, without the permission in writing of the Divisional or Sub-Divisional Canal Officer, pass, or cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting by means of such bridges, fords and ferries and their approaches as are provided by the Divisional Canal Officer.

65. No officer employed on the canals, unless especially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly, or in shares with others

66. Tanks may be filled with canal water without charge and without reference to the area irrigated in any village, wherever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

(*a*)—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both

(*b*)—No tank shall be so filled from which irrigation is practised.

(*c*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d*)—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer issued on the written application of the parties concerned.

(*e*)—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.

(*f*)—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for twelve months for breach of any of the above conditions.

67. The Divisional Canal Officer may supply water for manufacturing* or other purpose, charging for the same at the rate of one rupee per each 4,000 cubic feet or part of 4,000 cubic feet supplied. For the manufacture of bricks the rate is Rs. 5 per lakh of bricks, but when bricks are found to be manufactured without the previous sanction of the Divisional Canal Officer a rate of 4 as. per thousand bricks will be charged. Contracts between the Divisional Canal Officer on the part of Government and private individuals for the use of water as a motive power, or for any purpose whatsoever not specified in this rule, or the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer, and if proposed for longer than a year, shall be submitted for the sanction of the Lieutenant-Governor.

68. Patwaris called on to assist in identifying land or signatures or to give evidence shall receive such remuneration by way of fee as may be fixed by the Superintending Canal Officer or Collector with the approval of Government, but their signature shall not necessarily be required to any document prepared under these rules. The fees shall be disbursed at the time of attendance as far as practicable by the Sub-Divisional Canal Officer or Collector, whoever may require the patwari to attend.

69. Any Deputy Collector or Sub-Deputy Collector may, under the general orders and control of the Collector, exercise the powers conferred on the Collector by Rules 9, 10, 11, 15,

* Superintending Engineer's No. 558, dated 20th February 1882, fixed rate for use of Canal water for brick manufacture at Rs. 5 per lakh.

24, 39, 43, 52, 53, 54, 57, 58, 59, 61, 62, 63, and 68, provided that all orders passed by such Deputy Collector or Sub-Deputy Collector shall be appealable to the Collector, if a petition of appeal is preferred within thirty days of their being passed.

70. The Collector may, by a special order passed in each case, refer applications under rules 37, 40, or 41 to any Deputy Collector for report or disposal. An appeal against an order passed by a Deputy Collector under this rule may be preferred by either the applicant or the Divisional Canal Officer.

ON THE RATES TO BE CHARGED FOR WATER SUPPLIED ON APPLICATION FROM THE SONE CANALS.

71. The following are the rates to be charged for water supplied for irrigation from the Sone Canals:—

(a)—Schedule I following will be in force in respect to permits issued for the irrigation of land after the 1st of April 1904.

(b)—Schedule II following will be in force in respect to permits issued for the irrigation of land after the 1st April 1904.

(c)—Schedule III following will be in force in respect to permits issued for the irrigation of land after the 1st October 1904.

(d)—Schedule IV following will be in force in respect to permits issued for the irrigation of land after the 25th February 1902.

(e)—Schedule V following will be in force in respect to water supplied after the 1st of April 1904.

(f)—Schedule VI following will be in force in respect to water supplied after 1st of November 1891.

(g)—For permits issued prior to the dates mentioned above, the rates at present in force enumerated in Notification No. 148 of the 20th June 1881, published in the *Calcutta Gazette* of 22nd June 1881, will be charged.

76. In the case of charges under schedules I to IV any smaller area than one-tenth of a bigha will be charged as one-tenth. The bigha contains 27,225 square feet.

SCHEDULE No. V.

77. For water supplied by volume in the *kharif* season—

For water supplied between the 1st of July and the 31st of October, four rupees for a calculated discharge of one cubic foot per second for twelve hours. For less than a cubic foot per second or less than twelve hours, a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

SCHEDULE No. VI.

78. For water supplied by volume to fill *aharas*—

For water supplied between the 1st of November and the 25th of March, one rupee for a calculated discharge of one cubic foot per second for twelve hours. For less than a cubic foot per second and less than twelve hours a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

79. In the case of leases under Schedules I and II, water will be supplied for rice-seed beds only as early in June as the supply in the river admits.

80. In the case of leases under Schedule II, no extra charge will be made for a crop of *kesari*, linseed, or *gram* sown on rice-fields watered with canal water, and water will be supplied until the 15th of November, if required.

81. In the case of leases under Schedule III, the Divisional Canal Officer may, in years when the demand for water for *kharif* crops admits of it, supply water for *rabi* on any date after the 7th October.

82. When in the area covered by a season lease only (I) no crop is sown in a field, or (II) the crop fails during the currency of the lease, water-rates may be levied at the rate of ten annas a bigha, provided that no application to be charged at these reduced rates shall be entertained unless presented twenty days before the crop is cut, and also during the currency of the lease.

83. In assessing water-rates under Schedules III and IV, the areas to be charged shall be subject to the following rules:—

I.—If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half-a-foot high.

II. When a portion of a field has been irrigated with canal water and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

84. Irrigation from escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

85. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

86. Irrigation from Government drainage cuts shall be governed by the same rules as are laid down for irrigation from escape channels.

APPENDIX I.

[Referred to in Rule 16.]

Form of application for a lease for a term of years.

Mouza , *Pargana* , *Distributary* .

1. We, whose names are attached, apply for water to be supplied from the above-mentioned distributary from the 25th June to the 25th March of each year for years for the irrigation of the block formed by our holdings as specified below.

2. The area to be irrigated by each applicant is stated in the schedule following, and each applicant agrees to pay water-rates on the area recorded against his name at the rate of Rs. per bigha. This sum will be payable independently of our requiring water in any particular year or not.

3. Further we agree jointly and severally to pay the water-rates due for the holdings mentioned in the schedules following, the owners of which have not signed or given a written authority for the application to be signed on their behalf.

4. The application is made under section 74 of Act III (B.C.) of 1876, and the rules issued under it, more especially Rules 16, 20, 22, 24, 25, 26, 27, 28, 31, 45 and 46.

5. We agree to pay the water-rates due on this application in one *kist* on or before the 15th January.

6. The permit granted may be cancelled by the Divisional Canal Officer under the sanction required by Rule 24—

I.—If, after the lapse of one month from the latest date of payment, the water-rates due on this application (except such as are irrecoverable under Rule 63) are in arrears.

II.—If water supplied for irrigating the land mentioned in the application is habitually wasted or misused, it being expressly agreed that water is supplied for the sole purpose of irrigating the land mentioned in the application.

SCHEDULE.

Name of cultivator.	Area to be irrigated in bighas and cottahs.	Signature or mark of cultivator.	Signature of witness to cultivator's signature.
1	2	3	4

N. B.—1.—Charges will be made by tenths of a bigha, any smaller area than one-tenth being charged as one-tenth.
2.—The year is reckoned as commencing from the 25th June.

APPENDIX II.

[Referred to in Rule 50.]

Form of application for a lease for a term of years jointly with a Contractor.

Mauza , *Pargana* , *Distributary*

1. WE, whose names are attached, apply for water to be supplied from the above-mentioned distributary from the 25th June to the 25th March of each year for years for the irrigation of the block formed by our holdings as specified below.

2. The area to be irrigated by each applicant is stated in the schedule following, and each applicant agrees to pay water-rates on the area recorded against his name at the rate of Rs. per bigha. This sum will be payable independently of our requiring water in any particular year or not.

3. Further we agree jointly and severally to pay the water-rates due for the holdings mentioned in the schedules following, the owners of which have not signed or given a written authority for the application to be signed on their behalf.

4. The application is made under section 74 of Act III (B.C.) of 1876, and the rule issued under it, more especially rules 16, 20, 22, 24, 25, 26, 27, 28, 31, 45 and 46.

The 13th June 1911.

No. 65 Marine.—The following Notification by the Government of India is republished general information.

T. BUTLER,
Secy. to the Govt. of Bengal.

No. 3901—6, dated Simla, the 27th May 1911.

NOTIFICATION—By the Govt. of India, Dept. of Commerce and Industry.

IN exercise of the power conferred by section 4, sub-section (1), of the Petroleum Act, 1899 (VIII of 1899), the Governor-General in Council is pleased to direct that the following alterations and additions be made to the first schedule to the said Act:—

1. After direction 2 in Part II, the following shall be added, namely :—

"3. *Samples of certain mixtures.*—Samples of liquid, and viscous and sedimentary, petroleum mixtures shall be prepared for testing in the manner prescribed by the two foregoing directions."

II. For direction 6 in Part III as amended by Home Department Notification No. 928 (J.), dated the 28th June 1900, the following shall be substituted, namely :—

"*Directions for testing petroleum mixtures.*"

6. *Liquid mixtures.*—Where the petroleum mixture is wholly liquid, flows quite freely and does not contain any sediment or thickening ingredient, such mixture is tested in the same manner as ordinary petroleum.

7. *Viscous and sedimentary mixtures.*—Where the petroleum mixture contains an undissolved sediment, as in the case of some metal polishes, which can be separated by filtration or by settlement and decantation, the sediment may be so separated and the decanted liquid may be tested in the same manner as ordinary petroleum.

In carrying out such separation, care must be taken to minimise the evaporation of the petroleum. The separation of the sediment must not be effected by distillation.

Where the petroleum mixture is such that sediment cannot be separated by the aforementioned means, or where it is of a viscous nature as in the case of India-rubber solution, quick drying paints, etc., such mixture shall be tested in a modified apparatus, which differs from that prescribed in Part I only in the addition of a stirrer to equalize the temperature throughout the sample under test.

In carrying out the test of a viscous petroleum mixture, this stirrer shall be constantly revolved at a slow speed, except when applying the test flame, with the fingers, the direction of revolution being that of the hand of a clock.

With the exception of the use of the stirrer, the manner of carrying out the test shall be the same as in the case of ordinary petroleum.

The stirrer may be removed by grasping the spindle just above the blades with the finger and thumb, and unscrewing the upper sheath. The opening in the lid, through which the stirrer passes, may then be closed by a plug provided for the purpose.

When this has been done, the apparatus shall be deemed to comply with the specification set forth in this schedule and may be used for testing ordinary petroleum.

A model of the aforementioned apparatus will be deposited in the office of the Chemical Examiner to Government, Calcutta, and the provisions of section 20 of the Petroleum Act, 1899, in regard to verification and stamping shall apply also to such apparatus as though it were the apparatus prescribed by the said Act.

For the purpose of carrying out such verification the stirrer shall be removed and the opening plugged as hereinbefore directed. The apparatus shall then be tested with ordinary petroleum. The stirrer shall be verified by comparison of measurements."

III. For the heading to Part IV the following shall be substituted, namely :—

"*Directions for determining the flashing point of petroleum and petroleum mixtures which are not fluid at ordinary temperatures but liquefy when heated in a water bath, or which are liquid at ordinary temperatures but solidify on being cooled to 50° F.*"

The 13th June 1911.

No. 66Mne.—Mr. R. A. Hopkins, Branch Pilot, is granted combined leave for six months, viz., privilege leave for two months and twenty-five days under article 676 (*a*) of the Civil Service Regulations and extraordinary leave without allowances for the remaining period under article 674 of the Civil Service Regulations, with effect from the date on which he may avail himself of it.

NOTIFICATION OF THE BOARD OF REVENUE.

No. 2948B.

IN exercise of the power conferred by section 86 of the Bengal Excise Act, 1909 (Bengal Act V of 1909), the Board of Revenue direct that the following rule be substituted for rule 62 of the rules published under their Notification No. 5977B., dated the 27th November 1909, at page 1754 of Part I of the *Calcutta Gazette* of the 1st December 1909, namely:—

"62. (*1*) Prior to any operation involving the removal of liquor from any cask, vat or other receptacle, the liquor contained therein must always be gauged and proved, and

any wastage which has occurred since it was last gauged and proved must be entered in the prescribed register.

(2) When several casks, vats or other receptacles are completely emptied at one operation, the wastage in respect of each of such vessels shall not be entered separately in the said register, but only the aggregate wastage in respect of all such vessels shall be entered in that register.

(3) If the wastage in respect of any such cask, vat or other receptacle is found to exceed one per cent., calculated on the number of proof gallons of the quantity of liquor stored therein, after including the L. P. gallons extracted therefrom by grogging, the Excise Deputy Collector or the Subdivisional Officer, as the case may be, shall specially inquire into the cause of such wastage, and shall report the facts to the Collector, who shall take such action thereupon as he considers necessary.

(4) The Excise Deputy Collector or the Subdivisional Officer, as the case may be, shall note briefly, in the remarks column of the appropriate register, the result of the reference to, and also the action taken by, the Collector, and shall duly initial every such note."

By order of the Board of Revenue, L. P.,

Municipal and Local.

NOTIFICATIONS.

No. 433T.-M.—The 6th June 1911.—The following draft of rules which have been framed by the Commissioners of the Maniktala Municipality, under sections 237 (2) and 241 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), and which the Lieutenant-Governor in Council proposes to sanction under clause (2) of section 241, is published for the information of persons likely to be affected thereby.

24-Parganas.

2. The draft rule will be taken into consideration on the 17th July 1911, and any objection or suggestion received by the undersigned through the Magistrate before that date will be duly considered.

H. WHEELER,
Secy. to the Govt. of Bengal.

Draft rules made under sections 237 (2) and 241 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), for the Maniktala Municipality.

A—RULES REGULATING THE ERECTION OF MASONRY HOUSES.

Footings for walls.

1. Every wall of a masonry house must be constructed so as to rest upon proper footings having regular offsets and a horizontal spread on each side of the wall of not less than one-half of the height of the footings unless an adjoining wall interferes, in which case the footings may, subject to the provisions of sub-rule (2) of rule 11 be omitted where that wall adjoins:

Provided that the above rule does not apply in the case of arch foundations.

Outer walls.

2. The outer walls of a masonry house must be constructed of burnt bricks or some other hard incombustible substance.

Bonding of walls.

3. All walls of a masonry house must be properly bonded and plumbed.

Walls in building of more than one storey.

4. If a masonry house exceeds 36 feet in height, all storeys should be built of well-burnt bricks and lime mortar.

Terrace roof.

5. Terrace roofs must be constructed so as to stand such load, not less than 40lbs. to the square foot, in addition to their own weight as the Commissioners in a meeting may specify.

Plinth.

6. The plinth of a masonry house must be at least two feet above the level of the centre of the nearest street.

All floors except those of kitchen and out-houses must be pucca built.

7. A drain must be provided for every masonry house ; such drain must be connected with the nearest drains.

Distance between building line and street alignment.

8. After these rules come into force the distance between the building line and the street alignment shall not be less than 3 feet in any road less than 20 feet broad including drains.

"Building line" means a line (in rear of the street alignment) up to which the main wall of a building abutting on a street may lawfully extend.

Open space in rear of building.

9. There must ordinarily be, in the absence of any specific permission of the Commissioners in meeting to the contrary, in the rear of every dwelling-house, an open space extending along the entire width of the house of not less than clear 4 feet belonging exclusively to the house.

Interior courtyard and outward open spaces to be raised and kept open.

10. Every interior courtyard and every open space prescribed by rule 9 must be raised at least 6 inches above the level of the centre of nearest street or road so as to admit of easy drainage into the street.

Foundation.

11. (1) The foundation of a masonry house must rest on solid ground.

(2) The spread of the foundation must be such that the pressure on the soil shall not be greater than one ton on the square foot.

(3) The depth of the foundation must not be less than 1 foot below the bed of the nearest Municipal drain.

Level of floor.

12. The level of the ground, or lowest floor of every house erected or re-erected from ground level shall be not less than two feet above the nearest road.

13. The height of each and every storey of a masonry house must not be less than 10 feet from floor to ceiling.

Entrance culverts.

14. The applications which are filed for entrance culverts must contain the following particulars :—

(1) Length.
(2) Breadth beyond drain.
(3) Ventage allowed.

(a) Ordinarily the following dimensions of culverts will be allowed for foot traffic :—

(1) Length 4 feet.
(2) Breadth beyond drain 15 inches.
(3) Ventage same size as the sectional area of drain.

The number of entrance culverts in any house shall not exceed the number of separate shops or requisite passages The intervening space between culverts over a drain shall not be covered over by planks, stone slabs, or in any other manner.

(b) Ordinarily the following dimensions of culverts will be allowed for wheel traffic :—

(1) Length 10 feet.
(2) Breadth beyond drain 15 inches.
(3) Ventage same size as the sectional area of the drain.

15. No part of any house shall project over or under any road except as provided in rules 14 and 16.

16. No balcony or verandah shall be erected in any road which is less than 30 feet in width.

Application for the erection or re-erection of a house.

17. Every notice under section 237 of the Bengal Municipal Act for the erection or re-erection of a house must be made in writing on a printed form (to be supplied free of charge by the Chairman) and must contain the following informations :—

(a) The position of the site.
(b) The number of the site assigned to it in the assessment book.
(c) A plan of the site drawn to a scale of not less than 50 feet to an inch showing its boundaries, position in relation to neighbouring roads, and the position on the site of the proposed house.
(d) Drawings on a scale of not less than 8 feet to an inch showing a ground plan, one section and an elevation of the proposed house. On this drawing must also be shown all proposed drains, privies, and cesspools and also all spaces to be left about the house to secure ventilation. *Vide* Rules 8 to 10.

(e) Purpose for which the house is intended.

(f) The notice and all drawings and plans in duplicate must be signed by the applicants.

B.—RULES REGULATING THE ERECTION OF PRIVIES AND URINALS.

18. No privy situated in, or adjacent to any house, not being a hut, shall be placed at a distance of less than—

(a) six feet from any other building which is a public building, or

(b) four feet from any other building which is, or is likely to be, used as a dwelling place, or as a place in which any person is, or is intended to be, employed in any manufacture, trade or business.

Models and type plans.

19. Models and type-plans of privies and urinals approved by the Commissioners, with estimates of the cost of constructing privies and urinals in accordance therewith shall be kept in the Municipal Office, and shall be open to inspection by any person at all reasonable times without charge; but no person shall be bound to construct any privy or urinal in accordance with any such model or type-plan if the same be constructed in accordance with the other rules contained herein.

20. A drain must be provided for every urinal.

Floor.

21. (1) The floor of every privy and urinal—

(a) must, if the Commissioners in any case so direct, be made of one of the following materials to be selected by the owner of the privy or urinal, that is to say, glazed tiles, artificial stone or cement, or

(b) if no such direction is given, must be made of thoroughly well-burnt earthen tiles or bricks plastered, and not merely pointed with cement, and

(c) must be in every part at a height of not less than six inches above the level of the surface of the ground adjoining the privy or urinal.

(2) The floor of every privy and every urinal must have a fall or inclination of at least half an inch to the foot either towards the drain prescribed by rule 20; and the platform must be similarly sloped towards the aperture.

Walls and roof.

22. The walls and the roof (if any) of every privy and urinal shall be made of such materials as may be approved by the Commissioners:

Provided that in case of privies, the entire surface of the walls below the platform shall either be rendered in cement or be made as prescribed in clause (a) or clause (b) of rule 21.

Platform.

23. The platform of every privy or urinal must either be plastered with cement or be made of some water-tight non-absorbent material as prescribed in rule 21.

Ventilation of privies in, or adjacent to, houses, not being huts.

24. The privy situated in or adjacent to any house, not being a hut, must have an opening of not less than 1½ square feet in area in one of the walls of the privy, as near the top of the wall as may be practicable and communicating directly with the open air.

Regulation of service privies constructed for use in combination with a moveable receptacle for sewage.

25. Every privy must be constructed in accordance with the following provisions:—

(a) the space beneath the platform of the privy must be of such dimensions as to admit of one or two moveable receptacles for sewage of a capacity not exceeding one cubic foot, being placed and fitted beneath the platform in such manner and position as will effectually prevent the deposit, otherwise than in such receptable, of any sewage falling or thrown through the aperture of the plaltform;

(b) the privy must be so constructed as to afford adequate access to the said space for the purposes of cleansing such space and of placing therein and removing therefrom proper receptacles for sewage;

(c) the door for the insertion and removal of the receptacles must be made so as to completely cover the aperture.

No. 478T.M.—The 8th June 1911.—The following draft of by-laws which have been framed by the Commissioners of the Khagole Municipality, in the district of Patna, under section 350 of the Bengal Municipal Act, 1884 (Ben. Act III of 1884), and which the Lieutenant-Governor in Council proposes to confirm under section 351 of that Act, is published for the information of persons likely to be affected thereby.

Patna.

2. The draft will be taken into consideration on the 15th July 1911, and any objection or suggestion received by the undersigned, through the District Magistrate, before that date, will be duly considered.

DRAFT BY-LAWS FOR THE KHAGOLE MUNICIPALITY.

DEFINITIONS.

In these by-laws—

(1) "carriage" includes also a motor-car and a cycle; and

(2) "cattle" means cattle as defined in section 3 of the Cattle-trespass Act, 1871 (I of 1871).

REGULATION OF TRAFFIC, AND PREVENTION OF OBSTRUCTIONS, ENCROACHMENTS AND NUISANCES ON OR NEAR ROADS.

2. No person shall take or drive any carriage or cart over a road or part of a road while it is closed under section 201 of the Bengal Municipal Act, 1884.

3. No owner of any carriage or cart shall allow it to be driven on any road by a driver under fourteen years of age.

4. No driver shall drive or have in his charge on any road more than one carriage or cart, except two carts one of which is securely fastened to the cart preceding it.

5. Except on bright moonlight nights, no person shall, between dusk and dawn,—

(a) drive any carriage (including an "ekka" with springs—"tum-tum," but not including a cycle or a motor-car) unless it carries two conspicuous lights, one on each side, or

(b) drive any cart (including an "ekka" without springs) unless it carries a conspicuous light on the right hand side, or

(c) drive any cycle (including a motor-cycle) unless it carries a conspicuous light in front and has attached to it a bell or other signal in good order, or

(d) drive any motor-car unless it carries two conspicuous lights, one on each side of the front of the car, and has attached to it a bell, horn or other suitable signal, or

(e) drive any elephant or camel, unless it is accompanied by a conspicuous light, or

(f) convey any palanquin unless it carries a conspicuous light.

6. Any person driving a cart or carriage on any road shall, when passing another vehicle coming from the opposite direction, keep to his left, and shall, when overtaking another vehicle, keep to his right.

7. No person shall drive upon a road any cart laden with iron girders, rails, beams, "bullas", bamboos, planks or other materials of a similar character unless the cart be accompanied also by another person.

8. No person shall, after dusk and before dawn, drive upon a road any cart laden with iron girders, rails, beams, "bullas," bamboos, planks, or other materials of a similar character which exceed 12 feet in length and project beyond the cart.

9. No person shall drive upon a road any cart laden with bricks, stones or other materials of a similar character unless such materials be so secured that they cannot fall on to the road.

10. No person shall convey on any road bamboos or timber placed on the back of any animal in such a way that any portion of such bamboos or timber touches the ground.

11. No cart shall carry a load in excess of 22 maunds on any road, without the previous permission of the Commissioners.

12. No person shall drive any vehicle across a public drain in or near any road so as to cause damage to such drain.

13. No person shall, without the general or special permission of the Commissioners in writing, take an elephant or camel along any road:

Provided that this by-law shall not apply to elephants or camels covered by a license referred to in section 133 of the Bengal Municipal Act, 1884.

14. No person shall allow any elephant in his charge to go over any bridge on any road, unless the bridge be constructed of arched masonry.

15. (1) No person shall drive upon a road, at the same time, more than two pack animals, whether loaded or unloaded.

(2) Any person driving pack animals upon a road shall lead them along one side of the road, keeping to his left and leaving the middle of the road free of obstruction.

16. No person shall wilfully ride, drive or lead any cattle upon any footpath or causeway made or set apart for the use of foot-passengers.

17. No person shall, without the written permission of the Commissioners, deposit any moveable property, or make any excavation, on any road, or enclose any road or any part thereof.

18. No person shall deposit, or cause to be deposited, on the side of any road, or in or on the side of any public drain in or near any road, any substance or thing which would cause obstruction to such road or drain.

19. No person shall, without the special permission of the Commissioners, obstruct or cause to be obstructed any road in any bazar by placing anything thereon.

20. No person shall place or spread any "khatia" or "takhtaposh" or any bed of any description on any road, or on the side of any road:

Provided that, in the hot weather [during the months of April to June (both inclusive)] between the hours of 10 P.M. and 4 A.M., "khatias" may be laid on the side of a road if they do not cause obstruction or danger to passengers and are not likely to cause accidents to carriages or animals passing along the road.

21. No person shall set up a stall over any public drain in or near any road, or upon any culvert, bridge or platform over any such drain.

22. No person shall plant a tree on any road, without the written permission of the Commissioners.

23. No person shall, without the previous permission of the Commissioners, remove turf or cut grass from any road or the slopes thereof.

24. No person shall sit or sleep on any road so as to obstruct traffic.

25. No person shall affix or cause to be affixed to any house or other building owned or occupied by him any spout or other thing intended for the conveyance and discharge of water in such a way that the water discharged therefrom is thrown or falls upon a road.

26. No person shall convey sewage or offensive matter by any road otherwise than—

(a) in a closely-covered receptacle, of such description and pattern as shall be prescribed from time to time by the Commissioners at a meeting, and

(b) between such hours as the Commissioners may from time to time prescribe at a meeting.

27. No person shall abandon, or intentionally or negligently let loose or allow to get loose, any cattle, or poultry, on or near any road.

28. No person shall, on or within sight of any road, kill, or clean the carcass of any poultry.

29. No person shall fly a kite or play any game on any road.

30. No keeper of a country-liquor shop or seller of toddy (palm or date juice) shall allow his customers to sit, or drink liquor or toddy, on any road or part of a road which is adjacent to his shop.

LETTING OFF OF FIRE-ARMS, FIREWORKS, ETC.

31. No person shall let off any fire-arms, fireworks, fire-balloons or bombs on or within one hundred yards of any road, without the written permission of the Commissioners.

REGULATION OF USE OF AND PREVENTION OF NUISANCES IN REGARD TO, PUBLIC WATER-SUPPLY, BATHING AND WASHING PLACES, CHANNELS, TANKS AND WELLS.

32. No person shall throw, deposit or discharge any rubbish, sewage or offensive matter into any channel, canal or drain or any well which is used by the public.

33. No person shall bathe, or wash clothes, utensils or any other article, or wash any animal, within a distance of ten feet from the lowest platform of any public well.

34. A person cleansing a channel, tank or well shall not leave any weeds or offensive matter taken therefrom on the slopes or banks or near the margin of the channel, tank or well, but shall remove the same altogether within three days.

35. Except with the permission of the Commissioners, and under such conditions as they may from time to time prescribe, no person shall use any well or stand-pipe, belonging to the Commissioners, for any purpose other than drawing water—

(a) for drinking on the spot, or
(b) for carrying away for domestic purposes.

36. No person shall use any public drinking trough except for watering cattle.

37. No person shall steep in any tank or ditch any jute, hemp or other vegetable matter likely to render the water offensive or noxious to the neighbourhood.

38. The owner of every well which is a source of public water-supply shall construct a masonry platform and drains to prevent the surface water falling into the well or stagnating in its vicinity.

39. Every owner or occupier of any part of the bank of any nalla, channel, tank, or well which is a source of public water-supply shall keep such bank free from filth, dense vegetation or other obstruction, and shall at all times allow the Commissioners, or any of their servants duly authorized in this behalf, to have access to such nalla, channel, tank or well for any purpose of public conservancy.

DISPOSAL OF SEWAGE, OFFENSIVE MATTER AND CARCASSES OF ANIMALS, AND MANAGEMENT OF DRAINS.

40. No person shall deposit night-soil in any place not approved by the Commissioners for the purpose

41. Every owner or occupier of any house, land or premises from which sewage or offensive matter is not removed by such owner or occupier shall give free access to the servants of the Municipality for the removal thereof within such hours as may have been fixed by the Commissioners

42. Every owner or occupier within whose premises any animal dies shall, within six hours after its death, or, if the death occurs at night, then within six hours after sunrise, either remove the carcass, at his own expense, to such place as may be set apart by the Commissioners for the disposal of such carcasses, or report the death to the Conservancy Overseer.

43. No person shall construct or place over, or by the side of, any public drain, any bridge, platform, balcony, building or structure of any kind, except with the written permission of the Commissioners and in such manner as they may direct.

DISPOSAL OF CORPSES.

44. No person, while conveying a corpse, shall, except for the purpose of ordinary relief, or for a religious purpose, deposit it on or near any road.

45. No person shall, without the consent of the Commissioners, dispose of any corpse otherwise than by burying or burning it.

46. No person shall in any burial-ground bury or cause to be buried any corpse in a grave constructed of masonry unless the top of the coffin, or (if no coffin is used) the corpse, is placed at least six feet below the surface.

47. No person shall, in any burial-ground, bury, or cause to be buried, any corpse in a grave not constructed of masonry, unless the grave is at least six feet deep.

48. No person shall, in any burial-ground, build or dig, or cause to be built or dug, any grave, at a distance of less than three feet from any other existing grave.

49. No grave once used shall be opened for the burial of another corpse without the written permission of the Commissioners.

50. No person shall carry a corpse or part of a corpse through any road, unless it be decently covered and totally concealed from view.

PREVENTION OF NUISANCES AFFECTING THE PUBLIC HEALTH, SAFETY OR CONVENIENCE.

51. Every owner or occupier of a meat, poultry, fish or vegetable shop, or a market, bazar or slaughter-house, shall keep the same in a cleanly condition.

52. No person shall, without the permission of the Commissioners, picket animals, collect carts or form any encampment on any public ground not set apart for the purpose.

53 No person shall retain, purchase or sell clothing found on the dead body of a person who has died from small-pox, plague, cholera or any other infectious disease.

54. Every owner or driver of a carriage which has conveyed a person suffering from small-pox, cholera, plague or any other infectious disease, or a corpse, shall, before using the carriage again, disinfect it with such disinfectants as the Commissioners may from time to time prescribe.

REPORT OF DISFIGUREMENT, ETC., OF TICKETS.

55. When a ticket showing the number of the holding on the register and the circle within which the holding is situated has been affixed to a holding by the Municipal authorities, and the same is disfigured, obliterated or removed, the owner or occupier of the holding shall, within two weeks from the time at which he becomes aware of the fact, report the matter to the Vice-Chairman.

No. 490T.-M.—The 12th June 1911.—In exercise of the power conferred by clause (2) of section 241 of the Bengal Municipal Act, 1884 (Ben. Act III of 1884), the Lieutenant-Governor in Council is pleased to sanction the following rules which have been framed by the Commissioners of the Motihari Municipality, under clause (1) of that section and clause (2) of section 237 of the Act.

H. WHEELER,
Secy. to the Govt. of Bengal.

Rules made under sections 237 (2) and 241 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), for the Motihari Municipality.

1. (a) Every person intending to erect or to re-erect any house not being a hut shall give notice in writing of his intention to do so to the Commissioners of the Municipality.

(b) A form of notice is attached to these rules, and printed forms of such notice can be obtained on application to the Municipal Office.

(c) No notice shall be required in the case of houses to be erected or re-erected by Government other than houses of the nature of conservancy or drainage works or which will be connected with any conservancy or drainage works of the Municipality.

2. (1) Every such person shall submit with such notice a site-plan of the land.

(2) In the case of houses with terraced roofs of one or more storeys, or of houses costing not less than Rs. 300, such plan must be drawn to a scale of not less than 10 feet to an inch, and must show—

(a) the position of the house and the appurtenant out-buildings and privy with reference to adjoining public roads and drains, or, if no public road adjoins the premises, then with reference to the nearest public road and drain or drains;

(*b*) the area to be occupied by the house and out-building or out-buildings on the land;

(*c*) the name or description of the adjacent road and of the *mahallah* in which the land is situated, and the number of the holding, if any; and

(*d*) the provision for ventilation, light and drainage.

(3) If the applicant satisfies the Commissioners that the house will be less than Rs 300 in value, such plan must show, to the satisfaction of the Commissioners, the size and nature of the house and out-buildings, including privy, if any, and its and their position on the land; also the position of the land with reference to the nearest road and drain and adjacent buildings or lands and the provision for ventilation, light and drainage.

3. On the receipt of the notice and plan referred to in rules 1 and 2, the Commissioners shall consider the same and shall have power to refer the same to such person or persons for enquiry and report as they may consider necessary.

4. The external walls of such houses shall be constructed of masonry, sun-burnt bricks, mud or other non-inflammable material; and in no case shall an external wall abutting on a public road or drain be less than two feet therefrom.

5. The roof of such houses shall be covered with masonry, earthenware tiles, slates, corrugated iron sheets, or a combination of any of those materials.

6. Every projection beyond the line of any external wall of any such house shall be constructed of masonry, iron, wood or earth, and shall nowhere overhang a public road or drain.

7. Provision shall in every case be made, so that any drainage from a terrace or masonry roof and from the floor of any such house shall be led off to the level of the public drain in such a manner that no damage to the said drain or to any public road and no inconvenience to the public is caused thereby.

8. No privy or urinal in, or adjacent to, a house not being a hut shall be placed at a distance of less than—

(*a*) twelve feet from any other building which is a public building; or

(*b*) six feet from any other building which is, or is likely to be, used as a dwelling place, or as a place in which any person is, or is intented to be, employed in any manufacture, trade or business. And no privy shall be constructed having its service aperture in any external wall, unless such service aperture is effectually screened by a wall which shall not be less than 4 feet from such external wall.

9. A space of not less than 6 feet must be left about every such house, to secure free circulation of air and facilitate scavengering.

10. Models and plans of privies, and urinals approved by the Commissioners with estimates of the cost of construction, shall be kept in the Municipal Office, and shall be open to inspection by any person at all reasonable times without charge; but no person shall be bound to construct any privy or urinal in accordance with any such models or plans, if the same be constructed in accordance with other rules contained herein.

11. (1) A drain must be provided for every privy and every urinal.

(2) Such drain must be constructed of some impervious material and must connect the floor of the privy or urinal—

(*a*) with a drain communicating with a municipal drain or sewer, or

(*b*) if permitted by the Commissioners, with an impervious cesspool the contents of which can be removed either by hand or by flow, after filtration.

12. (*a*) The floor and platform of every privy and urinal shall, if the Commissioners in any case so direct, be made of one of the following materials to be selected by the owner of the privy or urinal, that is to say, metal glazed tiles, stone, artificial stone, or cement or a combination of any two or more of these.

(*b*) Or, if no such direction is given, shall be made of thoroughly well-burnt bricks properly pointed with cement and shall be in every part at a height of not less than six inches above the level of the surface of the ground adjoining the privy or urinal.

(*c*) The floor of every privy and every urinal shall have a fall or inclination of at least half an inch to the foot towards the drain prescribed by rule 11; and the platform shall similarly slope towards the aperture.

13. The walls of every privy and urinal shall be made of such materials as may be approved by the Commissioners;

Provided that the whole of the structure up to the top of the platform shall be of *pucka* masonry pointed with cement on the interior faces.

14. Every privy or urinal situated in, or adjacent to, a house not being a hut shall have an opening of not less than three square feet in area in one of the walls of the privy as near the top of the wall as may be practicable, and communicating directly with the open air.

15. Every privy shall be constructed in accordance with the following provisions :—

(a) The platform shall be provided with two apertures so arranged that solid and liquid excreta can fall into separate receptacles placed underneath, as provided in the following paragraphs:—

(b) The space underneath the platform of the privy shall be of such dimensions as to admit of two moveable receptacles for solid and liquid excreta each of a capacity not exceeding one cubic foot, being placed and fitted underneath the platform in such manner and position as will effectually prevent the deposit otherwise than in such receptacles of any sewage falling or thrown through the aperture of the platform.

(c) The privy shall be so constructed as to afford adequate access to the place for the purposes of cleaning and removing therefrom and placing again the receptacle for sewage.

(d) The said receptacles shall be watertight, made of metal or glazed stoneware or well-tarred earthenware.

(e) The service aperture of every privy shall be provided with a door completely covering the aperture, and shall not open on to any road or lane, or be offensive to any neighbour.

MORTGAGE SUIT No. 560 OF 1911.

Raj Kristo Ghose, plaintiff, *versus* Khoda Bux Meah, of Kankinarah, thana Jagaddal, district 24-Parganas, defendant.

NOTICE is hereby given that the plaintiff has instituted the above suit against you for the sum of rupees six hundred on a registered mortgage bond, dated the 26th Kartik 1314 (B.S.), and that 15th June 1911 has been fixed for the final disposal of the case. In case you do not appear before this Court on or before the said date fixed an *ex parte* judgment against you will follow.

KHAGENDRA NATH DUTT,
Munsif, 2nd Court, Barasat.

Barasat, the 9th June 1911. (728—1—710)

Notification of Sale.

TO be peremptorily sold by the Registrar of the Calcutta High Court, Original Side, in his sale room in the Court-house on Saturday, the 8th day of July 1911, at the hour of 12 o'clock noon, pursuant to preliminary and final decrees made in suit No. 891 of 1908 (wherein Chattu Lall Misser is the plaintiff and Sreemutty Krishna Kamini Dasi and others are defendants), dated, respectively, the 3rd day of February 1909 and the 5th day of December 1910, the undermentioned property:—

All that piece or parcel of tenanted land situate, lying at and being No. 37, Nilmoney Mitter's Street, in Sutinatty, in the North Division of the town of Calcutta, containing by admeasurement 18 cottahs 4 chitaks and 2 square feet, be the same a little more or less, and butted and bounded in manner following, that is to say, on the north by the tenanted land belonging to the late Dewan Kristo Kanto Sen, on the east partly by the tenanted land belonging to Dewan Kristo Kanto Sen and partly by the tenanted land of Nundo Lall Ray and others, on the south by Nilmoney Mitter's Street, and on the west partly by the tenanted land of Dewan Kristo Kanto Sen and partly by a bustee passage.

It appears from the evidence of the bustee Surveyor, Babu Gakul Chandra Chatterjee, taken before me on the 25th April 1911, that the Corporation proposes to widen the passage forming the western boundary of the said land, and will in so doing acquire, at its own cost, 2 cottahs 3 chitaks and 21 square feet of land from the said premises. It further appears from his evidence that the Corporation have ordered a new road to be opened out running from east to west through the said premises and cutting off a small portion of about 9 chitaks 9 square feet, which will be to the north of the said new road, the area of the said premises to be taken up by the said road being about 1 cottah 7 chitaks and 8 square feet, more or less, as will appear from the plan filed with me.

The cost of making the said road has to be borne by the owners of the lands adjoining the road in proportion to the respective amounts of land taken up.

The abstract of title, the conditions of sale and the abovementioned plan may be seen at the office of the said Registrar, or at No. 3, Hastings Street, Calcutta, at the office of Messrs. Manuel and Agarwalla, Attorneys for the plaintiffs, on any day before the sale and will be produced at the sale.

The Triennial Report on the Administration of the Registration Department for the years 1905, 1906 and 1907, and the Resolution of Government recorded thereon.

The Report on the Administration of the Registration Department for the three years ending the 31st December 1910 has been submitted by the Inspector-General, Nawab Saiyid Muhammad Khan Bahadur, who was in charge throughout the triennium.

2. The reorganization of the department, which was commenced during the previous triennium, was brought to completion during the last three years. In 1908 the system of recruitment was organized on the basis of local nomination by Commissioners. By this means local needs are being satisfied, and a good class of candidates is being recruited. Although the Intermediate Examination in Arts was fixed as the educational qualification, yet one candidate in five has been a graduate The revision of the Registration Manual has been undertaken by the First Inspector, Babu Abinash Chandra Bose, whose work in this connection merits special commendation The provision of suitable buildings for registration offices throughout the Province has been prominently brought to the notice of Government; and it has been decided that this matter should receive particular attention when the Budget of 1912-1913 is being framed. The head office establishment of the Inspector-General has been reorganized at an additional annual cost of Rs. 5,325. Menial establishments have also been provided for all salaried Sub-Registrars throughout the Province at an annual cost of Rs 18,474; and the clerical staff of officers who are still paid by commission has been placed on the same footing as that of salaried Sub-Registrars.

3. In comparison with the period 1905 to 1907 there has been an increase in all branches of administration in the period 1908 to 1910. Offices have increased from 280 to 288; compulsory registrations affecting immovable property increased by 14·5 per cent.; and optional registrations of the same nature by 9 9 per cent. The total increase in the number of documents registered was from 2⅔rd million to over 3 million documents. In comparing the two periods of three years, it is found that receipts have increased by 16·2 per cent. and expenditure by 26·6 per cent., while the net surplus has risen by 5·4 per cent. from 16·96 lakhs to 17·89 lakhs. There was, however, a striking decrease in 1910, compared with 1908, both in the number of documents and in the aggregate value of immovable property affected; the latter decreased from 23·21 crores to 18·05 crores. This decrease in registration is ascribed to the removal of the stress of high prices during the last two years of the triennium; to the operations of the amendments in the special tenancy laws for the Sonthal Parganas and Chota Nagpur; and to the completion of the settlement proceedings in some districts.

4. Some interesting developments are reported from the different parts of the Province. In Calcutta there was in 1908 an increase in registration owing to brisk trade in coal; then followed a slight depression in 1909; and since then registrations have maintained their level. The increase in bonds in the Midnapore district during 1910,—a year of plenty,—is ascribed by the Inspector-General to a keener struggle for existence among the professional classes. Again in the 24-Parganas it is said that prosperity has evolved a spirit of speculation which, in spite of successive satisfactory outturns of harvests, increased registration. In the district of Nadia the petty tenure-holders have fixed their eyes ahead on the future cadastral survey of the district, and are taking leases from their under-tenants to prevent the acquisition of occupancy rights.

5. In the Bihar districts improved agricultural conditions in 1910 produced a large decrease in the number of registrations. Co-operative Credit Societies in Purnea and Champaran, and Grain Banks in the Sonthal Parganas, —all contributed to the decrease in registration in 1910. The Chota Nagpur Tenancy Act, VI of 1908, imposed restrictions in that Division on the transfers of certain tenancies; and there was accordingly a marked decrease in the total number of registrations, notwithstanding the fact that it was found that many deeds had been registered in contravention of the terms of the Act. In Singhbhum district alone there was an increase of registrations, which was ascribed to the settlement of waste lands and to the resettlement of lands surrendered to headmen in the pargana of Dhalbhum. This kind of transaction appears to be a device on the part of influential tenants to avoid a regular sale, which is now forbidden by the law. In this district doubts have been expressed whether the sections of the Act forbidding sale are operating to the advantage of the tenants. As in Bihar, so in Orissa, the good harvests of 1909 and 1910 compensated for the deficiencies of 1907 and 1908, and registrations

decreased proportionately. In Sambalpur a practice has been discovered whereby the limited transfer of holdings under the Central Provinces Tenancy Act of 1898 is being evaded by the device of a lease.

6 Under Act I of 1907, amending the Bengal Tenancy Act, it was declared that the fees for registration of permanent tenures should include the cost of the transmission of the landlord's fee to the landlord. It is curious, however, that while this extra fee has led to the increase of cash receipts, yet there has been a decrease in the actual number of registrations of transfers of permanent tenures. The decrease in landlords' fees occurred chiefly in the districts of Bihar.

7. Prosecutions as compared with the previous triennium have decreased from 101 to 63; and it is satisfactory to learn that the system of finger impressions continues to have a deterrent effect on false personation. In comparing the figures showing the number of sale transactions affecting estates, tenures and raiyati holdings, it is interesting to observe that greater activity has been displayed by the raiyats in purchasing different kinds of properties, and that they have been able to maintain their ground against the encroachment of the money-lender. The purchase of occupancy rights by *mahajans* decreased from 64,286 to 56,466; while on the other hand the purchase of such holdings by raiyats increased from 391,425 to 486,482. As regards entire revenue-paying estates, the number of purchases by *mahajans* rose from 576 to 827.

8. The inspection work performed by all classes of inspecting officers appears to have been adequate and satisfactory. In conclusion the Lieutenant-Governor in Council desires to acknowledge the zeal and ability with which the Inspector-General, Nawab Saiyid Muhammad Khan Bahadur, has carried on the duties of the Inspector-General throughout the triennium.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Inspector-General of Registration, Bengal, for information.

Ordered also that a copy of the Resolution together with a copy of the report be submitted to the Government of India in the Home Department for information.

Ordered also that the Resolution be published in the *Calcutta Gazette.*

By order of the Lieutenant-Governor in Council,

J. G. CUMMING,

Secretary to the Government of Bengal.

RESOLUTION ON THE ANNUAL REPORT ON EMIGRATION FROM THE PORT OF CALCUTTA TO BRITISH AND FOREIGN COLONIES DURING THE YEAR 1910.

GENERAL DEPARTMENT—EMIGRATION.

Darjeeling, the 13th June 1911

RESOLUTION—No. 2447.

READ—

The Annual Report on Emigration from the Port of Calcutta to British and Foreign Colonies during the year 1910.

A legislative measure of considerable importance in its effects upon colonial emigration was passed by the Government of India during the year under review. Act XIV of 1910 amends Act XVII of 1908 with a view to empower the Governor-General in Council to prohibit emigration to any country for reasons which appear to him to be sufficient, and a notification prohibiting emigration to Natal with effect from 1st July 1911 has issued in terms of the Act as amended. Action has also been taken during the year under review, both by the Imperial and Local Governments in exercise of their respective statutory powers, to amend existing procedure with reference both to the recruitment and despatch of emigrants. Recruitment operations for the colonies prior to 1910 had been conducted on a small scale in the Sonthal Parganas under the provisions of Act XXI of 1883. The number of emigrants from this district increased however during the year under review, and it was decided in consequence to extend the provisions of Act XVII of 1908 to the district, a measure to which effect was given in September 1910. References have been made in the Report to precautions taken by the Government of India with a view to safeguard the interests of emigrants during their voyages to the colonies.

2. The number of emigration agencies, which recruited and despatched emigrants to the colonies during 1910, was the same as that recorded for the previous year; all five agencies worked on behalf of the British colonies. The total number of adult labourers requisitioned during 1910 shows a considerable increase over the demand for 1909; the figures are 12,153 and 9,347 respectively. There was, however, a slight decrease in the number of labourers supplied during 1910. No requisitions were received during the year under report either from Jamaica or from Surinam, while on the contrary Mauritius and Natal, which requisitioned no emigrants during 1909, show a demand for 700 and 1,953 emigrants respectively during 1910; the latter colony received the full number of labourers requisitioned. The decrease in emigration which was reported for the year 1909 and maintained during the year under review is attributed to the prevalence of good harvests in India with a resultant decline in the prices of food-grains, and an increase in the local demand for labour in the recruiting districts.

3. The number of licenses issued to recruiters during 1910 was 658, showing an increase of 87 over the number recorded for 1909; 22 licenses were cancelled during the year under report. Recruiting operations were conducted in the same areas as in 1909, viz., Bengal, Behar, United Provinces, Ajmere, Central Provinces and the Punjab; of the total number of 12,968 emigrants registered, the largest percentage was as usual recorded in the United Provinces.

4. There was a slight increase in the total number of emigrants registered during 1910 over the number for 1909; the figures are 12,968 and 12,691 for the two years respectively. As many as 1,473 were rejected as unfit to emigrate, 51 deserted and 63 were released from their engagements. The percentages of rejections and desertions show an increase which is attributed to the scarcity of labour and to the fact that less care may have been exercised by recruiters in their selection of labourers. It is satisfactory to observe a considerable increase, viz., from 316 during 1909 to 475 during the

year under review, in the numbers of returned emigrants who volunteered for re-registration; the percentage of returned to fresh emigrants increased from 3·77 to 5·96 during the same period.

5. Sanitary arrangements at the depôts were reported to be satisfactory during 1910. The health statistics show an increase in the percentage of sickness from 6·05 in 1909 to 9·45 in 1910. The percentage of deaths decreased however from ·71 to ·67 during this period, the largest number (49) being due, as in previous years, to cerebro-spinal meningitis.

6. Two thousand seven hundred and twenty-seven emigrants left the colonies, bringing back with them ascertained savings amounting to Rs. 4,17,033. The aggregate savings are considerably lower than last year, when they reached the high figure of nearly Rs. 7 lakhs. A diminution in the number of emigrants who returned during 1910 accounts partly for the decrease in the amount of savings brought back. As usual, the amount of remittances to India from emigrants to Natal (over Rs. 10 lakhs) far exceeded those from emigrants to the other colonies. This excess in remittances for Natal was explained in last year's Resolution on the hypothesis that Natal emigrants are not allowed to settle or invest their money in the purchase of immoveable property after the period of their indenture. It has subsequently been ascertained in the course of correspondence with the Secretary to the Indian Immigration Trust Board of Natal that emigrants to Natal are, as a matter of fact, permitted to invest their money in the purchase of immoveable property subject to no restriction beyond the general rule that time-expired labourers who wish to remain in the colony are permitted to do so on payment of an annual license of £3. In any case, however, it appears that emigrants to Natal prefer to remit their savings to friends and relations in India, to a much greater extent than do emigrants to the other colonies.

7. The property of deceased emigrants, whose estates, numbering 327, were administered by Government during the year under review, amounted to Rs. 24,595. Claimants to one-third of the aggregate sum have already been traced, and 67 estates, valued at Rs. 4,095, lapsed to the Colonial and Indian Governments. The remaining cases are still under inquiry. The closing deficit of Rs. 1,133 in the emigration accounts noted in last year's report was converted during 1910 into a credit balance of Rs. 1,647.

8. The Lieutenant-Governor in Council acknowledges with thanks the efficient manner in which the department has been administered by Dr. Banks, who held charge during the whole of the year under review.

By order of the Lieutenant-Governor in Council,

J. G. CUMMING,

Secretary to the Government of Bengal.

IRRIGATION DEPARTMENT.

[Sixth publication.]

The 15th May 1911.

No. 4.—Notification.—The following draft of a notification which the Lieutenant-Governor in Council intends to issue under sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act, III of 1876), for the Sone Canals, is published for the information of persons likely to be affected thereby.

The draft will be taken into consideration on the 1st July 1911, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

T. BUTLER,
Secy. to the Govt. of Bengal.

Draft Notification.

In exercise of the powers conferred by sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act, III of 1876), and in supersession of all previous notifications under those sections for the Sone Canals [except Notification No. 148, dated the 20th June 1881, published at page 637 of Part I of the *Calcutta Gazette* of the 22nd June 1881, which shall remain in force for the purposes of rule 71 (*g*) annexed to the present notification], the Lieutenant-Governor in Council is pleased to make the following rules for the Sone Canals.

GENERAL CONDITIONS.

1. The Collector, before awarding compensation under section 16 or 76 (*c*) or making a reference under section 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of proceedings.

2. Except as provided in Act III (B.C.) of 1876 (the Irrigation Act) and these rules, appeal shall lie from any order passed by a Canal Officer or the Special Deputy Collector in charge of the Revenue Division of the Sone Canals who has been vested with the powers of a Collector under the aforesaid Act. The Sub-Divisional Canal Officer, however, shall modify any order passed by him in accordance with the orders of the Divisional Canal Officer. The Sub-Divisional and the Divisional Canal Officers and the Special Deputy Collector in charge of the Revenue Division of the Sone Canals, shall modify any orders passed by them in accordance with the orders of the Superintending Canal Officer. The Superintending Canal Officer is empowered, and expected, to exercise a general control over the proceedings of all Canal Officers and of the Special Deputy Collector, the Sub-Deputy Collectors, and all other officers attached to the above-mentioned Revenue Division of the Sone Canals.

3. It will be the duty of the Superintending Canal Officer to issue orders on the following points:—

I.—The limits within which water will be available during the *kharif* season—(*a*) for annual leases; (*b*) for leases for a term of years.

II.—The distributaries from which water will be supplied during the hot season.

III.—The distributaries from which water will only be supplied during the *rabi* season at the rate (*see* Schedule III) ordinarily charged.

IV.—On sufficient cause being shown, to prohibit the issue of permits for the irrigation of land in specified localities generally or during the *kharif* season only.

Such public notice as is practicable will be given of the instructions under this rule as long as is possible before they are enforced.

4. Appeals to the Collector under section 91 of the Act, other than those specially provided for in rule 37, will ordinarily be from an order passed by the Divisional Canal Officer. The Collector may, when the order passed involves (I) the alignment of a village channel, (II) the refusal of the Divisional Canal Officer to accept a block as suitable for the issue of a permit for *kharif* irrigation, require the Superintending Canal Officer to state his opinion in writing, which shall form part of the record of proceedings in the case.

ON VILLAGE CHANNELS.

5. The Canal Officer shall prepare a list of channels which, previous to the 1st of April 1891, have been ordinarily used as village channels, and enter them in a register prepared in the manner prescribed in Part V of the Act.

6. A village channel which was constructed after the 1st of April 1891, or which had not ordinarily been used as a village channel before that date, shall not be entered in the register except at the written request of the owners of it. Water shall not be supplied for irrigation during the *kharif* season through any channel other than one which has been entered in the register.

7. Village channels which may be constructed in future shall not as a rule exceed one mile in length; the length being measured in a straight line from the outlet to the boundary of the part of the village which the channel is intended to irrigate.

8. The sum fixed by the Canal Officer as rent under section 68 of the Act shall not be less than half an anna, and shall not exceed four annas per bigha assessed with water-rate.

ON LAMBARDARS.

9. In every permit issued under section 75 of the Act other than those issued under rules 18 or 19 following, the name of one or more persons shall be entered as *lambardar*, who will be responsible for discharging the duties mentioned below :—

I.—Obtaining signatures to applications and certifying to the correctness of the same.

II.—Attending and giving assistance in measuring land irrigated or proposed to be irrigated.

III.—Giving timely information to the Canal Officer or subordinate of any insufficiency in the supply of water and promptly reporting when the irrigation of the leased area on any channel is complete.

IV.—Supervising the distribution of the water supplied through an outlet amongst the persons entitled thereto and reporting any misuse of the same.

V.—Being present when complaints are investigated by a Canal Officer or subordinate, and giving information required in connection with the same.

VI.—Receiving *parchas* from the Canal Officer and distributing the same amongst the persons named therein.

VII.—Reporting before the 20th of October all cases in which crops have been injured by deficiency or irregularity of supply in the *kharif* season, so that these cases may be investigated before water-rates are demanded.

VIII.—Reporting to the Collector or to such officer as he may appoint mutations in holdings in the case of leases for a term of years.

IX.—Assisting the Collector by generally helping the collecting staff in the collection of water-rates.

(*See* also Superintending Engineer's Circular No. 7 of 1895.)

10. In the case of leases for the season, the remuneration for performing the duties mentioned in clauses I to VII and IX of the rule immediately preceding shall be 2 per cent. on the assessments (excluding fractions of rupees), which shall be paid by the Canal Officer. The amount paid shall be calculated in rupees and annas only, pies being omitted.

11. In the case of leases for a term of years, other than those entered into jointly with contractors, the remuneration to be paid to the *lambardar* for performing the duties mentioned in clauses I to IX of Rule 9 shall be 3 per cent. yearly on the assessment of the year (excluding fractions of rupees), which shall be paid by the Canal Officer. The amount paid shall be calculated in rupees and annas only, pies being omitted.

12. The *lambardar* will be appointed by the Sub-Divisional Officer in consultation with the applicants for the lease, and must be a substantial person having a beneficial interest in part of the land to be irrigated. There is no objection to different *lambardars* being appointed to represent sections of the applicants, or to a number of persons being jointly appointed as *lambardars* on behalf of the whole of the applicants. In case the Sub-Divisional Canal Officer cannot agree with the applicants in the appointment of a *lambardar*, he shall nominate a *lambardar* for approval by the Divisional Canal Officer.

In those cases where an application is made by a contractor and cultivators jointly for a lease for a term of years, the *lambardar* shall be nominated by the contractor.

13. The Divisional Canal Officer may, for reasons which appear to him to be sufficient, and which must be recorded, remove a *lambardar* from his appointment, and in that case a new *lambardar* shall be appointed in the manner prescribed in the rule immediately preceding.

14 The Divisional Canal Officer may, with the consent of the *lambardar*, by a written order, of which the *lambardar* shall be furnished with a copy, transfer to him the duty of controlling the supply of water through an outlet, and may, at any time, by a written order, recall such order. *Lambardars* to whom such control is transferred shall exercise such power, subject to such general written orders as they may receive from the Sub-Divisional Canal Officer, and shall receive one per cent. on the assessment in addition to the percentages prescribed in Rules 10 and 11.

15. The fees sanctioned to be paid to *lambardars* will only be disbursed if the duties specified have been satisfactorily performed. The Divisional Canal Officer may retrench the whole or any part of the fees payable by him in the event of this condition not being complied with. In calculating the fees payable, fractions of an anna will be excluded.

(*See* Superintending Engineer's Nos. 3126—28 of 4th July 1896 with reference to retrenchments.)

ON APPLICATIONS.

16. Applications under section 74 of the Act for permits for irrigation upon leases for a term of years (Appendix I), or upon *kharif* season leases (Appendix III), shall be subject to the following conditions :—

I.—The application must be for a block of land having well-defined boundaries and so situated that adjoining lands will not ordinarily or probably be irrigated by water supplied for the land included in the application.

II.—The application must be in the form annexed to these rules, which states that water-rates will be paid on all lands contained in the block for which an application is presented, whether water or no water is required.

III.—The applications may be for a term of years, or for the season only—

(a) In case of application for the season only, the issue of the permit will not necessarily be delayed until the lands have been measured. The boundaries of the block must be stated in the application, which must be signed by, or by authority of, the cultivators of all the land included in the boundaries mentioned, and the approximate area in the occupation of each on the block must be specified. Water-rates will be charged on the areas in the block as found by actual measurement. An application for a permit for the season must be filed by the 1st September, but with the Superintending Engineer's sanction an application for a season lease may be entertained up to the end of the season

(b) In the case of applications for a term of years, a permit will not be issued until the land has been measured and an application complete in every respect for all the land included in the block has been signed. All the leases within one group (a 'group' being defined as in Note II) shall be so granted as to expire on the same date. If water is required to be supplied before the application is completely signed in the manner specified above, an application for water for the season must be made, which will be cancelled on a permit for a term of years being issued.

NOTE I.—Superintending Engineer's Nos. 3940—42 of 26th June 1896 directs that "if applicants for a long-term lease, which is not signed before the 15th August, decline to apply for a season lease under Rule III5 by that date, they should be informed that the long-term lease will not be granted during the year."

NOTE II.—A group is defined as consisting of a certain area of country mapped out in accordance with the features of the ground, natural or artificial.

NOTE III.—The leases granted for a term of years in a group will take effect from 1st April 1910.

(c) Notice that a permit for a term of years is required must be given by the 1st of April, but with the Superintending Engineer's special sanction the time may be extended where reasonable cause for the delay in filing the application for a long-term lease can be established. No permit will be issued unless the application is completely signed by the 30th of November, or, with the special sanction of the Superintending Canal Officer, by the 1st of March following.

NOTE.—Superintending Engineer's Nos. 1649—51, dated 13th April 1892.

IV.—With the special sanction of the Superintending Canal Officer an application may be made for an addition to a lease for a term of years, which, if granted, shall be considered as part of the original lease and terminate therewith.

16A. Applications (Appendix IVC) for a single watering between 26th June and 25th October may be entertained if water is available after meeting the demand for the areas leased under a term of years or for the season. The applications will be subject to the conditions prescribed for the *rabi* and hot weather seasons: see rule 17 below.

17. Applications for irrigation in the *rabi* season, 26th October to the 25th March, and the hot weather season, 25th March to the 25th June (Appendices IVA and B), will be subject to the following conditions:—

I.—The approximate areas of land for which water is required must be stated in the application, which must be signed by the occupiers thereof. It must be stated in the application that the water-rates will be paid on the area actually irrigated.

18. Applications for the sale of water by volume for purposes of irrigation will only be entertained on condition that half the amount chargeable is paid to the Sub-Divisional Canal Officer when the application is filed, and that a bond is executed in the form attached to these rules as Appendix V signed by substantial persons pledging themselves to pay such sums as will in the aggregate make up the remainder. The bond will not have reference to the area to be irrigated, but will be in consideration of a particular outlet being kept open for a specified time, and the sums mentioned therein will be recoverable on the certificate of the Canal subordinate that this condition has been fulfilled. Water will be supplied under this rule from the 1st of July to the 31st of October only.

19. Applications for the sale of water by volume for filling *aharas* will be in the form attached to these rules as Appendix VI. The entire charge will be payable in advance. Water will be supplied under this rule from the 1st of November to the 25th of March only.

ON PERMITS.

20. All permits for the use of water issued under section 75 of the Act shall be subject to the following conditions:—

I.—That the water is supplied for the sole purpose of irrigating the land mentioned in the application. The term "irrigating" includes the right to drain (*sigar*)

at the proper season of the year, previous notice being given to the sectional officer that the outlet is required to be closed. Under colour of *nigaring*, however, no right is conferred to irrigate culturable land for the purpose of sowing a crop or maturing any existing crop.

II.—That water will be supplied at the level at which it is ordinarily maintained in the distributary from which water is taken off, and that no earthen bunds or other works will be constructed to raise the level of the water in the distributary. No right to flow irrigation is conferred unless existing appliances admit of it.

III.—That a *lambardar* shall be appointed in the manner specified in Rule 12 to represent the interests of the cultivators and to perform the duties mentioned in Rule 9.

IV.—That the village channel from which water is supplied is kept in a proper state of repair, so that water shall not be wasted.

V.—That water-rates are paid when due.

VI.—That water supplied for the irrigation of a specified block of land shall not, under colour of the permit, be utilized for the irrigation of land beyond the boundaries specified in application.

NOTE.—Where these conditions are infringed, appropriate penalties or disabilities to the extent specified in the Act or these rules will be enforced.

21. A permit shall not be issued where, in the opinion of the Canal Officer, waste is likely to occur. In the order refusing a permit on this ground, the manner in which it is apprehended that waste will occur shall be stated.

22. Permits for irrigation upon leases for a term of years (Appendix VIII) or upon *kharif* season leases (Appendix IX) shall be issued under the following conditions :—

I.—The land to be irrigated must form a compact block defined by well-marked boundaries of such a nature as clearly to distinguish leased from the adjoining unleased lands, and to preclude the possibility in ordinary circumstances of water escaping from the boundaries without obvious wilful cutting or demolition. They must be maintained in the same state of repair during the currency of the lease as existed when the permit was granted and also be so situated that unleased lands will not be ordinarily or probably irrigated by water supplied for the land included in the block. The boundaries must be mentioned in the application for a permit for the season, and in the notice referred to in Rule 16(*c*), when a permit for a lease for a term of years is applied for.

II.—The Canal Officer may exclude lands included in the block not irrigable by flow or for which canal water is ordinarily not required. In the case of permits for a term of years, the block must be not less than 50 bighas in area. In cases where the Divisional Canal Officer considers it advisable to grant a permit to a block of less area than that mentioned above, the previous sanction of the Superintending Canal Officer must be obtained. No permit for a term of years shall be issued unless the owners of the village channel from which water is to be obtained have been registered and the channel itself is in a good state of repair; such as to fit it for the conveyance of water without wastage occurring. Such leases will not be issued unless it is known from the experience of previous years' irrigation that a sufficient supply of water is always available, and that the quantity required is not excessive.

III.—A permit for a lease for a term of years may be cancelled by the Superintending Canal Officer with effect from a date to be specified in the order for good cause on the application of all the signatories thereto.

IV.—Permits for the season will be issued under less favourable conditions as to situation, soil and quantity of water available; it will not be necessary that the owner of the channel should be registered, but the channel itself must be entered on the register.

V.—Water-rates will be levied on the areas of the blocks specified in the permits, and measurement of the areas actually irrigated will not be necessary.

22A. Permits (Appendix XI) for a single watering during the *kharif* season from 26th June to 25th October may be issued under the conditions prescribed in Rule 23 (I) (II) (III) below, if water is available after meeting the demands for the areas leased under a term of years or for the season.

23. Permits for irrigation in the *rabi* and hot weather seasons, 25th October to 25th June (Appendix X), will be issued on the following conditions :—

I.—The applicants will undertake to give the *lambardar* notice to close the outlet as soon as the area requiring irrigation has received a sufficient supply of water.

II.—The applicants will undertake, as far as is practicable, to prevent water supplied being wasted or applied to the irrigation of fields not included in the application.

III.—Water-rates will be levied on the areas actually irrigated, and not on those specified on the application.

ON DISABILITIES AND PENALTIES.

24. At the request of the Collector, the Superintending Canal Officer may direct the Divisional Canal Officer to—

I.—Cease to issue permits for the irrigation of land in villages where there have been constant difficulties in realizing water-rates until all the arrears of water-rates due are paid up, and also, if specially required, unless half the amount due for the ensuing year under future applications are paid up in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

II.—Cancel any lease for a term of years if, after the lapse of one month from the latest date of payment, the water-rates (except such as are irrecoverable under Rule 63) are in arrears.

25. The Divisional Canal Officer may, with the concurrence of the Collector and the sanction of the Superintending Canal Officer, cancel a lease for a term of years if water is habitually misused or wasted. Such an order shall have effect from the 25th June next ensuing, and two months' notice at least must be given to the *lambardars* for the information of the cultivators.

25A. When the Divisional Canal Officer acting under section 60 strikes a channel supplying a long lease off the register, he shall, if the remaining registered channels cannot satisfactorily irrigate the block, at the same time cancel the lease, provided that—

(*i*) If the order for cancellation be made between the 25th of June and the 25th of October no water-rate shall be payable for the period subsequent to the 25th June preceding the date of the order.

(*ii*) If the order for cancellation be made between the 25th June and 25th March, half the annual rate will be payable for the period subsequent to the 25th June preceding the date of the order.

ON THE SUPPLY OF WATER.

26. I.—Any Canal Officer may, in the case of pressing emergency, stop the supply of water to any canal or distributary. If such order is passed by an officer below the rank of a Divisional Canal Officer, it shall forthwith be reported to the Divisional Canal Officer, and if the stoppage exceeds five days in duration, to the Superintending Canal Officer.

II.—The Sub-Divisional Canal Officer may, by written order under section 76*a*, stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that either it, or, in case the channel is supplying a long-term lease, the boundaries of such lease are not maintained in proper repair. Such order shall be recorded in the Sub-Divisional office.

III.—No person shall be entitled to be supplied with water until the village channel has been put in a proper state of repair in accordance with directions given by the Sub-Divisional Canal Officer.

IV.—The Canal Officer or any of his subordinates may temporarily close an outlet supplying a village channel from which unauthorized irrigation is, at the time the outlet is closed, being carried on.

27. The Divisional Canal Officer may close the outlets in rotation as he may consider necessary The periods of such closures must be notified to the *lambardars* concerned.

28. No water shall be supplied nor shall any person be entitled to a supply of water until a permit signed by a Canal Officer authorized to sign a permit has been signed and issued.

29 The Canal Officer will be responsible that the supply through the outlet is in the *kharif* and *rabi* seasons maintained in accordance with the requirements of the crops. In both seasons it will be the duty of the *lambardar* to inform the Canal Officer or subordinate when the area under lease has been fully irrigated, so that the outlet may be closed, or if he has, under rule 14, been given charge of the outlet, to close it himself.

ON DEMAND STATEMENTS.

30. The statements of the amounts demandable for water-rates leviable under the rules in force shall be prepared under the supervision and stamped signature of the Divisional Canal Officer, in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

31. The demand statements for water-rates due under leases for a term of years shall be prepared at the same time as the application, and a copy thereof shall be given to the *lambardar* as well as a *parcha* for each signatory to the lease with the permit. No further notice of demand shall be given during the currency of the lease.

32. The demand statement for water-rates due under a lease in the *kharif* season shall be prepared either before the permit is issued, or as soon as conveniently may be after its issue, and shall, without reference to the land having been actually irrigated up to that time

or not, show the water-rates due by each person whose land is included in the application. Demand statements (*parcha*) showing the sums due from each applicant shall be sent to the *lambardar* for distribution, and no further notice of demand shall be given.

33. For irrigation during the hotweather or *rabi* season, the following procedure shall be followed:—

I.—The area irrigated in any village shall be measured by an amin appointed for the purpose The *khasra* shall be signed by both the amin and the *lambardar*, who shall be present at the measurements. If the *lambardar* is not present, the amin shall arrange that at least two respectable cultivators shall be present and enter their names in the *khasra* prepared by him.

II.—When the measurement is completed, the *khasra* shall be forwarded to the Sub-Divisional Canal Officer, who shall prepare the demand statement (*khatiani*) with all possible despatch. Copies of extracts of the demand statement affecting each separate cultivator (*parchas*), signed and sealed by the *zilladar*, shall, as soon as prepared, be forwarded to the *lambardar* for distribution amongst the persons charged. The *lambardar* shall grant a receipt for the *parchas* forwarded.

III.—If the *lambardar* is not present, or declines to grant a receipt for the same in the prescribed form, the Sub-Divisional Canal Officer shall make other efficient arrangements for serving each person assessed with a *parcha* showing the amount due from him. *Parchas* may be sent by post.

34. Objections to the demand statements prepared in accordance with the preceding rules 31, 32 and 33 may be presented, either personally or through the *lambardar*, to the Sub-Divisional or Divisional Canal Officer, who shall thereupon, after such enquiry as he may consider to be necessary, pass orders on the same. A copy of the order passed (which may be sent by post) shall be served on the person making the objection. Objections to the demand addressed to the Collector shall be referred for the orders of the Divisional Canal Officer

35. Objections to the demand statements must be presented within thirty days of the date on which the *parcha* was received by the *lambardar*, but this period shall be extended where reasonable cause for delay can be established.

36. The objections may be in a form, which will be sold for half-an-anna at all Canal offices, giving instructions as to the particulars required to admit of the objections being readily investigated; but any form will be accepted provided it clearly states the name or names of the persons objecting, the crop, and the year for which the charge is made, and the demand from each cultivator to which objection is taken.

37. Any person not satisfied with the order passed by the Canal Officer under rule 34 may file an application of appeal to the Collector under section 91 of the Act. Such application must be accompanied by a copy of the order appealed against. The Collector shall thereupon, after considering the records of the case, pass such order as he may think fit, and shall meanwhile have discretion to suspend collections by a written order in cases where it may seem advisable to do so.

38. When the order appealed against to the Collector is that of a Sub-Divisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record thereon any remarks he may think fit. The papers shall not be detained for the purpose of enabling the Divisional Canal Officer to make further enquiries which, however, may be directed by the Collector on the suggestion of the Divisional Canal Officer or on his own motion.

39. Applications for mutations of names in leases for a term of years shall be made to the Collector; if addressed to the Canal Officer they shall be referred to the Collector for disposal. Applications for alterations in long-term leases on account of wrong assessment shall be made to the Divisional Canal Officer; if presented to the Deputy Collector they shall be referred to the Divisional Canal Officer for disposal

39. (*a*) When the mutations of the names of rate-payers are found to be more than 30 per cent. of the whole, the Deputy Collector will request the Divisional Canal Officer to prepare and forward a revised demand statement. The same rule applies for other crops.

ON WATER-RATES.

40. Water-rates imposed under section 79 of the Act for the irrigation effected in the hot weather or *rabi* seasons, shall be assessed by the Canal Officer at rates which shall be fixed by the Divisional Canal Officer, and which shall not be greater than those shown in the following schedule:—

	FLOW OR LIFT.	
	Rate per bigha.	Rate per tenth of a bigha.
	Rs. A.	A.
For water used in an unauthorized manner.	6 4	10

In the *kharif* season water-rates shall be imposed by the Divisional Canal Officer under section 79 *only* after the sanction of the Collector has been obtained to make a detailed measurement of the land irrigated without authority.

NOTE.—Areas irrigated by *bonâ fide* surplus water drained off from a leased area shall not be assessed. *Bonâ fide sigor* is defined as water drained off the fields while the outlet remains closed.

The Collector's sanction is not in itself authority for the imposition of water-rates—it merely authorizes proceedings being instituted. The rates to be charged in the *kharif* season will be subject to the same maxima as in the hot weather and *rabi* seasons. Persons using water without a permit shall, unless exempted by section 74 of the Act, be charged water-rates according to the season in which water is used, at the rates specified in this rule.

41. Charges for waste of water imposed under section 80 of the Act shall be at the rates fixed in the rule immediately preceding, and be subject in the *kharif* season to the same condition as regards sanction by the Collector as is required by that rule; where a tank or *ahara* has been filled, a charge of Rs. 5 per thousand cubic yards may be made in lieu of an acreage charge

42. Water-rates assessed under sections 78, 79 or 80 of the Act shall be paid on or before the dates mentioned below :—

For leases for a term of years entered into after the 1st January 1898.	One kist on or before the 15th January.
Season leases—	
Under Schedule No. II	... For rice and sugarcane on or before the 15th December. For a single watering, on presentation of the demand.
Ditto No. III	... *Rabi* and sugarcane on or before the 5th April.
Ditto No. IV	... Hot weather irrigation on or before the 1st July.
Assessments under section 79 of the Act or under Rule 40. Assessments under section 80 of the Act	On presentation of the demand.
Water supplied by volume between the 1st of September and 31st of October	One moiety before the outlet is opened, the other moiety on or before the 15th December.
Water supplied by volume to fill *aharas*	... The whole amount before the outlet is opened.

The Divisional Canal Officer shall forward the demand statements of leases under Schedule No II to the Collector as soon as they have been prepared in accordance with rule 32. He will forward these and all other demand statements as soon as they are ready and will endeavour to send them at least fifteen days before the latest dates fixed for the payment of the water-rates, but accuracy in the individual charges shall be regarded as of more importance than a rigid adherence to dates.

43. Where lands are held on a *bhaoli* tenure, the entire water-rates assessed under section 78 of the Act shall be demandable from the occupiers of the land assessable; but at the written request of the *bhaoli* owner, in the form, Appendix VII, which may be presented to the Divisional Canal Officer or to the Collector, the water-rates shall be recovered from the cultivators and the person or persons in receipt of the *bhaoli* rents in the same proportion as the produce is divisible amongst them. The demand statement shall be made out by the Divisional Canal Officer in the name of the cultivators, any necessary modification therein, owing to a request made by a *bhaoli* owner under this rule, being carried out by the Collector. But on lands under Government management half the rates should be paid by the landlords, and in other cases any influence which the Collector may possess should be used to make the zamindar consent to this equitable arrangement.

44. In the case of lands held under a *bhaoli* tenure being assessed under section 79 of the Act, the whole of the persons deriving benefit therefrom shall be assessed in the same proportion as the produce is divisible amongst them.

ON REMISSIONS.

45. The water gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of failure of supply.

46. Claims to remission of water-rates under section 76(*b*) shall only be admitted on proof of actual loss caused by failure of supply. On proof of such loss, the Divisional Canal Officer may remit the whole or any part of the rates. All applications for remission of water-rates shall be made in the manner provided in rule 34 and not less than twenty days before the crop is cut. The Divisional Canal Officer, with the previous sanction of the Superintending Canal Officer, which sanction may be delegated to any Divisional Canal Officer, when the crop of an individual cultivator of a season lease has failed to the extent of losing twelve annas or more of its value in the rupee, may, as a matter of grace, grant remission up to 10 per cent. of the area assessed against the cultivator, notwithstanding that the deficiency in the crop is due to causes other than through partial or total failure in the supply of canal water.

47. Before awarding compensation under section 76(*c*), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings. All applications for compensation under section 76(*c*) must be made not less than twenty days before the crop is cut.

48. Notwithstanding anything contained in these rules, the Superintending Canal Officer may, should he consider the circumstances of the case require it, under such general instructions as he may from time to time receive from Government, remit, under the head "Extraordinary", so much of the water-rates as are in excess of ten annas a bigha. But no such remissions shall be claimable as a right, nor shall any person be entitled to receive an order on an application for remission under this head, which will ordinarily only be made on the representations of Divisional Canal Officers.

49. A remission statement signed by the Superintending, or Divisional Canal Officer, shall be sufficient authority for a refund by the Collector.

INTERMEDIARY AGENCY.

50. Leases in the *kharif* season for a term of years will be entered into with associations of cultivators as specified in these rules; and also on the joint application of the cultivators and of some person hereinafter called the contractor, who shall collect and pay to Government, under section 82 of Act III (B.C.) of 1876, all sums due under the agreement on account of water-rates. The joint agreement shall be in the form given as Appendix II to these rules. The contractor must have a beneficial interest in some part of the land included in the application extending for the full term of the lease.

51. Contractors shall be entitled to collect water-rates from the cultivators who have signed the application and from their successors in interest in the land included in the block at the rates fixed by the Lieutenant-Governor under section 78 of the Act. Every due from a cultivator to a contractor on account of water-rates shall be deemed to be a sum due to Government under sections 82 and 85 of Act III (B.C.) of 1876.

52. A contractor (or in case there be more than one, each contractor severally and jointly) shall use due diligence in the collection of the water-rates specified in the agreement from the cultivators who have applied for the water supplied. In the case of his failure after due diligence to collect, he shall, within thirty days of the rates becoming due, submit to the Collector a list showing the names of the defaulters with the sums due from each, and the Collector shall thereupon proceed to realize the amount due from the said defaulters according to law.

53. A contractor (or in case there be more than one, each contractor severally and jointly) shall be responsible for all sums payable on the agreement, except such sums as he may satisfy the Collector that he has been unable to collect after using due diligence, and shall be entitled to a deduction of 5 per cent. on all sums collected by himself.

54. In the case of a lease entered into under an application in the form given as Appendix I, a contractor may subsequently be appointed by the Collector with the written approval of the Superintending Canal Officer Such contractor must, for the whole term of the lease, have a beneficial interest in some part of the land included in the application, and must sign an application in the form given as Appendix IIA. The appointment shall not be made unless the *lambardars* and leading cultivators give their assent in writing thereto, and the Collector is satisfied that the appointment of a contractor is acceptable to the signatories to the lease.

55. The contractor appointed under rules 50 and 54 may, but shall not necessarily, be *lambardar*. The *lambardar* will in all cases be appointed by the Canal Officer under the provisions of Rule 12, and shall be remunerated at the rates specified in Rules 11 and 14, subject to the conditions mentioned in Rule 15.

56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall be entitled to a deduction of 2½ per cent. on all sums collected by himself in addition to the deduction of 5 per cent to which he is entitled under rule 53, *i.e.*, to a total deduction of 7½ per cent.

57. No steps shall be taken to prepare a joint application by cultivators and a contractor until the written assent of the Collector to the proposed contractor has been received, nor shall the Collector take any steps towards the appointment of a contractor under rule 54 until the written assent of the Superintending Canal Officer has been received. The Collector may, before approving of a contractor under this rule, require him to give security for the due performance of the contract

58. A contractor may resign his interest in the lease by giving notice to the Divisional Canal Officer three months at least before the 25th June next following, in which case his connection with the lease shall cease from that date, and the Sub-Divisional Canal Officer shall proceed to appoint a *lambardar* under rule 12, and the Collector to realize water-rates due directly from the applicants. The Divisional Canal Officer may, at the instance of the Collector, remove a contractor who fails to use due diligence in making collections. In such cases three months' notice at the least before the 25th of June next following shall be given, and the removal shall take effect from that date. The Collector may, under the conditions and procedure specified in rule 54, appoint a new contractor in place of a contractor who has resigned.

59. With the written approval of the Superintending Canal Officer, a contractor may measure and prepare demand statements for lands irrigated in the hot weather, for which applications in the prescribed form have been filed by him. Such demand statements shall be forwarded to the Sub-Divisional Canal Officer, who shall thereupon proceed to deal with them as if they had been prepared by himself.

60. When an agreement has been made for the collection of rates by a contractor, the Divisional Canal Officer shall, under section 82 of the Act, furnish such contractor with a written authority to collect the amounts due by the cultivators, a copy of which shall be sent to the Collector.

60.(*a*) The contractors are to note the number and year of the *khationi* and the serial number of the rate-payer on receipts granted by them in order that the particular demand may be traced when a mutation is applied for by a rate-payer.

ON COLLECTIONS AND ALTERATIONS IN DEMAND STATEMENTS.

61. Collection of all water-rates shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer except in the case of lands held *bhaoli*, regarding which the provisions contained in rule 43 shall be followed.

62. The Collector may make any alterations in a demand statement provided the total sum shown to be due is not altered or an error in account only corrected. When such alterations are made in a demand statement appertaining to a lease for a term of years, a copy of the alteration statement shall be sent to the Divisional Canal Officer.

63. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Collector. A detailed list of all sums so written off shall be forthwith sent to the Superintending Canal Officer. In other cases the sanction of the Commissioner of the Division must be obtained, through the Superintending Canal Officer, to admit of demands being written off under this head.

MISCELLANEOUS.

64. No person shall, without the permission in writing of the Divisional or Sub-Divisional Canal Officer, pass, or cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting by means of such bridges, fords and ferries and their approaches as are provided by the Divisional Canal Officer.

65. No officer employed on the canals, unless especially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly, or in shares with others.

66. Tanks may be filled with canal water without charge and without reference to the area irrigated in any village, wherever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

(*a*)—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both

(*b*)—No tank shall be so filled from which irrigation is practised.

(*c*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d*)—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer issued on the written application of the parties concerned.

(*e*)—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.

(*f*)—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for twelve months for breach of any of the above conditions.

67. The Divisional Canal Officer may supply water for manufacturing* or other purpose, charging for the same at the rate of one rupee per each 4,000 cubic feet or part of 4,000 cubic feet supplied For the manufacture of bricks the rate is Rs. 5 per lakh of bricks, but when bricks are found to be manufactured without the previous sanction of the Divisional Canal Officer a rate of 4 as. per thousand bricks will be charged. Contracts between the Divisional Canal Officer on the part of Government and private individuals for the use of water as a motive power, or for any purpose whatsoever not specified in this rule, or the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer, and if proposed for longer than a year, shall be submitted for the sanction of the Lieutenant Governor.

68. Patwaris called on to assist in identifying land or signatures or to give evidence shall receive such remuneration by way of fee as may be fixed by the Superintending Canal Officer or Collector with the approval of Government, but their signature shall not necessarily be required to any document prepared under these rules. The fees shall be disbursed at the time of attendance as far as practicable by the Sub-Divisional Canal Officer or Collector, whoever may require the patwari to attend.

69. Any Deputy Collector or Sub-Deputy Collector may, under the general orders and control of the Collector, exercise the powers conferred on the Collector by Rules 9, 10, 11, 15,

* Superintending Engineer's No. 858, dated 20th February 1882, fixed rate for use of Canal water for brick manufacture at Rs. 5 per lakh.

24, 39, 43, 52, 53, 54, 57, 58, 59, 61, 62, 63, and 68, provided that all orders passed by such Deputy Collector or Sub-Deputy Collector shall be appealable to the Collector, if a petition of appeal is preferred within thirty days of their being passed.

70. The Collector may, by a special order passed in each case, refer applications under rules 37, 40, or 41 to any Deputy Collector for report or disposal. An appeal against an order passed by a Deputy Collector under this rule may be preferred by either the applicant or the Divisional Canal Officer.

ON THE RATES TO BE CHARGED FOR WATER SUPPLIED ON APPLICATION FROM THE SONE CANALS.

71. The following are the rates to be charged for water supplied for irrigation from the Sone Canals :—

(a)—Schedule I following will be in force in respect to permits issued for the irrigation of land after the 1st of April 1904.

(b)—Schedule II following will be in force in respect to permits issued for the irrigation of land after the 1st April 1904.

(c)—Schedule III following will be in force in respect to permits issued for the irrigation of land after the 1st October 1904.

(d)—Schedule IV following will be in force in respect to permits issued for the irrigation of land after the 25th February 1902.

(e)—Schedule V following will be in force in respect to water supplied after the 1st of April 1904.

(f)—Schedule VI following will be in force in respect to water supplied after 1st of November 1891.

(g)—For permits issued prior to the dates mentioned above, the rates at present in force enumerated in Notification No. 148 of the 20th June 1881, published in the *Calcutta Gazette* of 22nd June 1881, will be charged.

SCHEDULE No. V.

77. For water supplied by volume in the *kharif* season—

For water supplied between the 1st of July and the 31st of October, four rupees for a calculated discharge of one cubic foot per second for twelve hours For less than a cubic foot per second or less than twelve hours, a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

SCHEDULE No. VI.

78. For water supplied by volume to fill *aharas*—

For water supplied between the 1st of November and the 25th of March, one rupee for a calculated discharge of one cubic foot per second for twelve hours. For less than a cubic foot per second and less than twelve hours a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

79. In the case of leases under Schedules I and II, water will be supplied for rice-seed beds only as early in June as the supply in the river admits.

80. In the case of leases under Schedule II, no extra charge will be made for a crop of *kesari*, linseed, or *gram* sown on rice-fields watered with canal water, and water will be supplied until the 15th of November, if required.

81. In the case of leases under Schedule III, the Divisional Canal Officer may, in years when the demand for water for *kharif* crops admits of it, supply water for *rabi* on any date after the 7th October.

82. When in the area covered by a season lease only (I) no crop is sown in a field, or (II) the crop fails during the currency of the lease, water-rates may be levied at the rate of ten annas a bigha, provided that no application to be charged at these reduced rates shall be entertained unless presented twenty days before the crop is cut, and also during the currency of the lease.

83. In assessing water-rates under Schedules III and IV, the areas to be charged shall be subject to the following rules:—

I.—If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half-a-foot high.

II. When a portion of a field has been irrigated with canal water and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

84. Irrigation from escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

85. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

86. Irrigation from Government drainage cuts shall be governed by the same rules as are laid down for irrigation from escape channels.

APPENDIX I.

[Referred to in Rule 16.]

Form of application for a lease for a term of years.

Mauza , *Pargana* , *Distributary* .

1. WE, whose names are attached, apply for water to be supplied from the above-mentioned distributary from the 25th June to the 25th March of each year for years for the irrigation of the block formed by our holdings as specified below.

2. The area to be irrigated by each applicant is stated in the schedule following, and each applicant agrees to pay water-rates on the area recorded against his name at the rate of Rs. per bigha. This sum will be payable independently of our requiring water in any particular year or not.

3. Further we agree jointly and severally to pay the water-rates due for the holdings mentioned in the schedules following, the owners of which have not signed or given a written authority for the application to be signed on their behalf.

4. The application is made under section 74 of Act III (B C.) of 1876, and the rules issued under it, more especially Rules 16, 20, 22, 24, 25, 26, 27, 28, 31, 45 and 46.

5. We agree to pay the water-rates due on this application in one *kist* on or before the 15th January.

6. The permit granted may be cancelled by the Divisional Canal Officer under the sanction required by Rule 24—

I.—If, after the lapse of one month from the latest date of payment, the water-rates due on this application (except such as are irrecoverable under Rule 63) are in arrears.

II.—If water supplied for irrigating the land mentioned in the application is habitually wasted or misused, it being expressly agreed that water is supplied for the sole purpose of irrigating the land mentioned in the application.

SCHEDULE.

Name of cultivator	Area to be irrigated in bighas and cottahs.	Signature or mark of cultivator.	Signature of witness to cultivator's signature.
1	2	3	4

N.B.—1.—Charges will be made by tenths of a bigha, any smaller area than one-tenth being charged as one-tenth.
2.—The year is reckoned as commencing from the 25th June.

APPENDIX II.

[Referred to in Rule 50.]

Form of application for a lease for a term of years jointly with a Contractor.

Mauza , *Pargana* , *Distributary*

1. WE, whose names are attached, apply for water to be supplied from the above-mentioned distributary from the 25th June to the 25th March of each year for years for the irrigation of the block formed by our holdings as specified below.

2. The area to be irrigated by each applicant is stated in the schedule following, and each applicant agrees to pay water-rates on the area recorded against his name at the rate of Rs. per bigha. This sum will be payable independently of our requiring water in any particular year or not.

3. Further we agree jointly and severally to pay the water-rates due for the holdings mentioned in the schedules following, the owners of which have not signed or given a written authority for the application to be signed on their behalf.

4. The application is made under section 74 of Act III (B.C.) of 1876, and the rule issued under it, more especially rules 16, 20, 22, 24, 25, 26, 27, 28, 31, 45 and 46.

5. We agree to pay the water-rates due on this application in one *kist* on or before the 15th January.

6. The permit granted may be cancelled by the Divisional Canal Officer under the sanction required by rule 24—

I.—If, after the lapse of one month from the latest date of payment, the water-rates due on this application (except such as are irrecoverable under rule 63) are in arrears.

II.—If water supplied for irrigating the land mentioned in the application is habitually wasted or misused, it being expressly agreed that water is supplied for the sole purpose of irrigating the land mentioned in the application.

7. We desire under rule 50 that shall be appointed contractor, to whom we agree to pay water-rates as they become due, so long as he is authorized by proper authority to receive the same. Should the contractor resign or be removed, we engage to pay water-rates to the Collector or to some person authorized by him to receive the same.

SCHEDULE.

Name of cultivator.	Area to be irrigated in bighas and cottahs.	Signature or mark of cultivator.	Signature of witness to cultivator's signature.
1	2	3	4

8. I agree to become contractor under rules 50 to 60 for the collection of all sums payable under this application and to be bound by all the rules passed under Act III (B.C.) of 1876. I will abide by the rules mentioned and all others passed under the Act, and give every assistance in my power to the Collector in any legal proceedings that may be instituted for the recovery of water-rates under this application.

N.B.—1.—Charges will be made by tenths of a bigha, any smaller area than one-tenth being charged as a tenth.
2.—The year is reckoned as commencing from the 25th June.

[*To be added when the contractor takes the responsibility of collecting the entire sum due under rule 56.*]

9. In consideration of being permitted to deduct 7½ per cent. from the sum due under this application I undertake to pay the whole amount due to Government on the dates mentioned in clause 4, and to myself take the risk of any default in payment by the applicants.

APPENDIX IIA.

[Referred to in rule 54.]

Form of application for appointment as a Contractor.

I APPLY to be appointed contractor under rules 50 to 60 for the collection of all sums payable on application No. for irrigation of mauza . I will abide by the rules mentioned above and by all others passed under the Act, and give every assistance in my power to the Collector in any legal proceedings that may be instituted for the recovery of water-rates under this application.

[*To be added when the Contractor takes the responsibility of collecting the entire sum due under rule 56.*]

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 2948B.

IN exercise of the power conferred by section 86 of the Bengal Excise Act, 1909 (Bengal Act V of 1909), the Board of Revenue direct that the following rule be substituted for rule 62 of the rules published under their Notification No. 5977B., dated the 27th November 1909, at page 1754 of Part I of the *Calcutta Gazette* of the 1st December 1909, namely:—

"62. (1) Prior to any operation involving the removal of liquor from any cask, vat or other receptacle, the liquor contained therein must always be gauged and proved, and any wastage which has occurred since it was last gauged and proved must be entered in the prescribed register.

(2) When several casks, vats or other receptacles are completely emptied at one operation, the wastage in respect of each of such vessels shall not be entered separately in the said register, but only the aggregate wastage in respect of all such vessels shall be entered in that register.

(3) If the wastage in respect of any such cask, vat or other receptacle is found to exceed one per cent., calculated on the number of proof gallons of the quantity of liquor stored therein, after including the L. P. gallons extracted therefrom by grogging, the Excise Deputy Collector or the Subdivisional Officer, as the case may be, shall specially inquire into the cause of such wastage, and shall report the facts to the Collector, who shall take such action thereupon as he considers necessary.

(4) The Excise Deputy Collector or the Subdivisional Officer, as the case may be, shall note briefly, in the remarks column of the appropriate register, the result of the reference to, and also the action taken by, the Collector, and shall duly initial every such note."

Raghunathganj, the 12th June 1911.

JATINDRA MOHAN SINHA, Subdivisional Officer, Jangipur.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Bengal-Nagpur Railway, in the district of Manbhum, will be put up to sale at 12 o'clock on Wednesday, the 2nd August 1911, corresponding with the 17th Sraban 1318 Fusli, at the Mohuda Railway Station.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway boundary, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

THE INDIAN LAW REPORTS

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR MAY 1911.

I. *Character of the season.*—The rainfall was general over the Province. The fall was below the average everywhere except in Nadia, Jessore, Khulna, Saran, Muzaffarpur, Darbhanga, Darjeeling and Singhbhum, where it was in excess of the normal. A statement showing the rainfall in each district during the month under report is appended.

II. *Progress of agricultural operations.*—Preparation of lands for the next season's crops and sowing of paddy and jute continued during the month. But more rain was wanted for the purpose in 24-Parganas, Nadia, Jessore, Bhagalpur, Darjeeling, Ranchi, Singhbhum and in all the districts of the Burdwan and Orissa Divisions except Birbhum and Sambalpur. The rainfall in the last week of the month was general all over the Province and proved beneficial for ploughing and sowings.

III. *State of standing crops.*—The newly planted sugarcane and vegetables were doing well.

IV. *Prospects and probable outturn of harvests.*—Prospects of the standing crops are favourable so far.

V. *Damage to crops.*—No damage to standing crops was reported by any abnormal causes.

VI. *Co dition of agricultural stock.*—The condition of agricultural stock was on the whole good. Cases of cattle-disease were reported from Burdwan, Midnapore, Hooghly, Nadia, Jessore, Patna, Shahabad, Champaran, Muzaffarpur, Puri, Sambalpur and from all the districts of the Bhagalpur and Chota Nagpur Divisions except Darjeeling and Singhbhum.

VII. *Failure of pasturage and fodder.*—Scarcity of water was reported from Birbhum, Hazaribagh, Ranchi and Palamau. Fodder was insufficient in parts of Birbhum, Monghyr and Hazaribagh.

VIII. *Prices of food-grains.*—During the second fortnight of the month under review the price of rice rose in nine and fell in six districts. It varied from 11 seers a rupee in Hooghly, 24-Parganas and Darjeeling to 17$\frac{1}{16}$ seers in Angul.

IX. *Condition of agricultural people.*—The condition of the agricultural people was good.

GENERAL SUMMARY.—During the week under report rain was general all over the Province. The fall was very heavy in the Sonthal Parganas, Burdwan, Birbhum, Bankura, Monghyr, Bhagalpur, Darjeeling and in the districts of the Presidency, Orissa and Chota Nagpur Divisions and generally moderate in the rest of the Province. Sowing of paddy and weeding of jute continue, but the operations have been temporarily retarded in Nadia and the Sonthal Parganas owing to the heavy rainfall. Some damage to standing crops is also reported from Murshidabad. The price of common rice has risen in Bankura, Murshidabad, Jessore, Saran, Monghyr, Cuttack, Angul and Cooch Behar and has fallen in Patna, Gaya, Ranchi and Manbhum. Cattle-disease is reported from Midnapore, Nadia, Murshidabad, Patna, Champaran, Darbhanga, Sambalpur, Hazaribagh and Palamau. The fodder and water-supply is sufficient throughout the Province.

SUMMARY OF RAINFALL OBSERVATIONS TAKEN IN BENGAL DURING THE MONTH OF MAY 1911.

During the month under report, rainfall was general over the province. Excepting the districts of Nadia, Jessore, Khulna, Saran, Muzaffarpur, Darbhanga, Darjeeling and Singhbhum, where there was an excess, all other districts received less than the average fall. The excess was well marked in Nadia, Khulna and Darjeeling, where the departure from the normal was +4·90, +2·16 and +4·74 inches. Expressed in percentage figures, the districts where there was excess fall received 173, 112, 133, 149, 111, 113, 151 and 111 per cent. of rain respectively. On an average South-West Bengal received 4 83, Bihar 1·39, Orissa 2·57 and Chota Nagpur 1·22 inches of rain. The departure from the normal was —0·55 inch in South-West Bengal, —1·02 inches in Bihar, —1·58 inches in Orissa and —1·06 inches in Chota Nagpur.

N. N. Sircar,
for *Director of Agriculture, Bengal, on tour.*

Calcutta, *the 19th June 1911.*

The following table gives full data for comparison of the actual and normal rainfall of the month of May for all the districts of the Province. The figures are derived from the average and actual rainfall of the rain-reporting stations in each district.

The first column gives the normal or average district rainfall as determined from the observations of past years. The second column gives the actual district rainfall as determined from the actual rainfall of the month at the reporting stations in each district. The third column expresses the ratio of the actual district rainfall of the past month to the normal rainfall as a percentage. The fourth column gives the same information as the third in a slightly different form, stating as a percentage how much the district rainfall of the month varied in excess or defect from the normal:—

Raghunathganj, the 12th June 1911.

JATINDRA MOHAN SINHA, Subdivisional Officer, Jangipur.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Bengal-Nagpur Railway, in the district of Manbhum, will be put up to sale at 12 o'clock on Wednesday, the 2nd August 1911, corresponding with the 17th Sraban 1318 Fusli, at the Mohuda Railway Station.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway boundary, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

Purulia, the 12th June 1911.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below to the undermentioned estates, situated in the Magura subdivision in the district of Jessore, will be put up to sale at the Magura Subdivisional Office on the 8th August 1911, corresponding with the 23rd Sravan 1318 B.S.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The estate is to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.

2nd.—The sale is to be subject to the existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

RESOLUTION ON THE TRANSFER OF THE WORK OF DISTRIBUTING QUININE FROM THE SUPERINTENDENT OF CINCHONA CULTIVATION IN BENGAL TO THE JAIL DEPARTMENT.

MUNICIPAL DEPARTMENT—MEDICAL.

Dated Darjeeling, the 23rd June 1911.

RESOLUTION—No. 630T.—Medl.

UNDER the existing procedure, which has obtained since 1887, quinine manufactured at the Government Cinchona Plantations is consigned in the first place to the office of the Superintendent of Cinchona Cultivation in Bengal, at the Royal Botanic Garden, Calcutta, whence it is distributed to all purchasers indenting for supplies. It has been decided, with effect from the 1st October 1911, to transfer the duty of distributing the drug to the Juvenile Jail, Alipore, and quinine will thenceforward be despatched from the Plantation to the Juvenile Jail, whence it can be obtained on indent by those requiring it.

ORDERED that a copy of the above Resolution be published in the *Calcutta Gazette* and communicated to the Superintendent of Cinchona Cultivation in Bengal and to the Inspector-General of Prisons.

By order of the Lieutenant-Governor in Council,

H. WHEELER,

Secretary to the Government of Bengal.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE JAIL DEPARTMENT FOR THE YEAR 1910.

POLITICAL DEPARTMENT—JAILS.

Darjeeling, the 20th June 1911.

RESOLUTION No. 1459P.—D.

READ—

The Report on the administration of the Jail Department for the year 1910.

Read also—

The Reports for the years 1908 and 1909 and the Resolutions of Government recorded thereon.

Major J. Mulvany, I.M.S., officiated as Inspector-General from the 1st January until the 28th February, and Lieutenant-Colonel W. J. Buchanan, I.M.S., resumed charge for the rest of the year. The administrative control of the department was transferred on the 8th August from the Judicial Secretary to the Chief Secretary in the Political Department in consequence of the Legal Remembrancer being appointed Secretary to Government in the Judicial Department. The new Jail Code was completed during the year, and was published on 5th October 1910.

2. The outstanding feature of the year from the administrative point of view was the reduction in the jail population, due to the good harvest of 1909-1910, the average daily number of prisoners being 13,163 as against 15,065 in 1909. At the same time the available accommodation was increased by the opening of the new Central Jail at Kalighat on 1st January 1910; accommodation was thus obtained during the year for 18,460 prisoners as against 16,755 in 1909. It is to be remembered, however, that the decline of the jail population must be regarded as temporary, and the present satisfactory proportion of accommodation to population is only maintained by the retention of the old Presidency Jail on the Calcutta Maidan, and the retention of that jail is absolutely necessary until the erection of a new Central Jail at Monghyr is completed. The latter project, though unfortunately delayed by financial difficulties, has been definitely commenced. On 16th December 1910 the Secretary of State gave provisional sanction to the scheme; detailed plans and estimates were prepared and are now under consideration; and with the sanction of the Secretary of State a start has now been made with the acquisition of the land required and other preliminary arrangements. The construction of buildings will be carried out as rapidly as possible; the new jail will provide accommodation for 2,000 prisoners as against 1,235 in the old Presidency Jail, and will furnish a solution, at any rate for a considerable period, of the problem of overcrowding which has been the chief blot on the administration of the jails of Bengal for the past 10 years.

3. With the decline in overcrowding during the year the health of the jails has shown a marked improvement, and the Lieutenant-Governor in Council has to congratulate the Inspector-General on a death-rate of no more than 18·6 per mille,—a figure which has been surpassed only once in the history of the department, viz. in 1907, when the rate fell so low as 17·5. Colonel Buchanan is doubtless right in attributing this improvement primarily to the absence of overcrowding; although the prosperity of the year is also an important factor, since the prisoners admitted are generally in better health than in a poor year. At the same time it would not be fair to deny to the officers of the department their share of credit for the improvement. Their successful treatment of dysentery is a case in point. This disease has been the scourge of the Hazaribagh Jail for several years past; but in the year under report the number of deaths fell from 97 to 53, of which only 19 occurred in the second half of the year. The epidemic received the special attention of Government during the year; and Captain Wells, I.M.S., of the Central Research Institute, was engaged on special duty inquiring into the matter. His report has not yet been published, but the prevalence of the disease is believed to have been connected with the deficiency of the water-supply. The scheme for an improved supply of

water has now been worked out, and it is trusted that the disease will yield to this treatment and to the general care and attention of the medical staff.

4. The Inspector-General urges the following proposals for the improvement of the warder service, which though not new are of some importance:—

(1) That the warder service should be made pensionable,—a reform which the Inspector-General anticipates, no doubt rightly, would result in an improvement of the standard of recruits.

(2) That enlisted men should be substituted as far as possible for convict warders, many of whom, under the present system, are not qualified under the rules for the responsible duties which they perform.

(3) That the system of maintaining at Central Jails a certain reserve of warders should be extended, thus obviating the necessity of employing absolutely untrained men in temporary vacancies.

The first suggestion the Lieutenant-Governor in Council regards for the present as impracticable. The warder service of Bengal cannot be taken alone; it belongs to the class of services which under general account rules are ineligible for pensions, and to extend the concession to the Bengal warder service as a whole would result in claims which it would be difficult to resist from many other services similarly situated. Apart from financial considerations, the present is not a suitable time to press for further ameliorations in the terms of the warder service, seeing that as recently as 1908 it was reorganized and its conditions considerably improved at an additional cost of Rs. 36,118-4 per annum. As regards the second proposal, it is clear from the figures given in the Inspector-General's report that the convict system, apart from any intrinsic disadvantages which may inhere in it, has been abused, and that necessary additions to the paid warder service have been avoided by appointing, as convict officers, prisoners not entitled under the rules to such a concession. The Lieutenant-Governor in Council fully agrees with the Inspector-General that the time has come when the system should at least be restricted rigidly within the limits imposed by the rules. As a preliminary measure, the Inspector-General is accordingly requested to submit proposals for increasing the estimates of the Central Jails to such an extent as may be necessary to avoid the employment as convict officers of ineligible prisoners. The system of a circle reserve of warders, to which reference is made in the third proposal, is undoubtedly a sound one, but it has so far been introduced only tentatively in two circles. A general scheme based on recognized principales should now be prepared, and instructions have been issued to the Inspector-General of Prisons accordingly.

5. It had been recognized for some time that the jail industries of the Province on their commercial side were not in a satisfactory condition. Accordingly the whole question of jail industries was considered by a Committee consisting of the Hon'ble Member in charge of the Jails Department, the Chief Secretary to Government, the Inspector-General, and the Superintendent of Jail Manufactures. The Committee arrived at the conclusion that the falling off in the profits of manufactures was primarily due to the neglect of Government departments to observe the standing orders of the Government of India, which prescribe the utilization for Government purposes, where possible, of jail products. The measures which have been taken will, it is hoped, have the effect of ensuring a more regular disposal of the produce of jail manufactures to the spending departments of Government. Steps also are being taken to place the Jail Depôt in Calcutta on a better commercial basis.

6. *Discharged Prisoners' Aid Society.*—The Society employed 39 prisoners at its book-binding shop as against 29 during 1909, and in addition gave assistance to 52 discharged prisoners. The Inspector-General reports that the "success of the Society largely depends on the personal interest taken in it by the Hon'ble Mr. Justice Stephen and the Hon'ble Mr. Justice Holmwood." The Lieutenant-Governor in Council desires to place on record his thanks to these gentlemen and to those associated with them in this admirable work.

He would gladly see the scope of the Society's activities extended, and desires to commend it to the notice of the charitable.

7. Colonel Buchanan notes that the jail officer comes less into touch with the outside world of the public and the press, and his work is neither as well known, criticised or praised as is that of the sister department of the Police. As a general statement this is no doubt correct; but during the year under review the Jail Department met with an unusual share of attention in connection with the methods of dealing with undertrial prisoners in political cases; and as these criticisms derive their force solely from ignorance or misrepresentation of the facts, the Lieutenant-Governor in Council thinks it desirable to take this opportunity of referring to them. It was freely alleged that undertrial prisoners of this class were subjected to unfair and irregular differential treatment. These allegations were the subject of most careful inquiry, and (without reference to cases *sub judice*) the Lieutenant-Governor in Council desires to place it on record that the suggestion that the law or the rules of the department were in any case perverted to the harassment of political prisoners is entirely unfounded. The most weighty and the most frequently repeated denunciation was that these prisoners or some of them were subjected to "solitary confinement of a penal type." This criticism rests on ignorance of the law and rules regulating the incarceration of undertrial prisoners, and particularly of the nature of solitary confinement. Such prisoners, it is true, are not allowed to associate and live together while under trial. It was such association that enabled the undertrial prisoners in the first Alipore conspiracy case to plan and execute the murder of the approver Narendra Nath Gossain. Accordingly since that date such prisoners have usually, and where the construction of the jail permitted, been kept each in a separate cell or room of his own. This procedure is in no sense improper. It is nowhere laid down either in the law or in the Jail Code that undertrial prisoners are entitled to confinement in association. Indeed the English prison rules are emphatic that undertrial prisoners shall be kept separate and shall not be permitted to communicate together lest they contaminate each other and defeat the ends of justice. In India the majority of the jails do not provide sufficient accommodation to allow of the separate confinement of under trials, and greater laxity has been allowed to prevail, but separate confinement where feasible is perfectly regular. Such separate confinement, however, does not amount to solitary confinement, which is awarded solely as a punishment. The essential difference is that in solitary confinement a prisoner is excluded not only from communication with, but from the sight of, other prisoners, whereas in separate confinement he is excluded from communication with other prisoners only; he is allowed exercise in a common exercise ground, and is allowed to have his meals in association with one or more other prisoners. The suggestion that these undertrials were subjected to the form of solitary confinement which is awarded as a punishment to convicts is entirely unfounded.

8. The names of the officers commended by the Inspector-General have been noted. The Lieutenant-Governor in Council desires to place on record his satisfaction at the able and careful manner in which the department has been administered during the year by Lieutenant-Colonel W. J. Buchanan, I.M.S.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Inspector General of Prisons for information and guidance.

Ordered, also, that a copy of this Resolution and a copy of the Report be submitted to the Government of India in the Home Department.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor in Council,

C. J. STEVENSON-MOORE,

Chief Secretary to the Government of Bengal.

RESOLUTION ON THE ANNUAL REPORT ON THE WORKING OF THE SHIPPING OFFICES AT CALCUTTA AND AT THE PORTS OF ORISSA FOR THE YEAR 1910-11.

No. 1537Marine.

Government of Bengal.

MARINE DEPARTMENT.

Dated Calcutta, the 27th June 1911.

RESOLUTION.

Annual Report on the Working of the Shipping Offices at Calcutta and the Ports of Orissa for the year 1910-11.

READ—

Letter from the Commissioner of the Orissa Division, No. 252C., dated the 27th April 1911.

Letter from the Shipping Master, Calcutta, No. S. 286, dated the 12th May 1911.

Financial result.

The receipts of the Shipping Office, Calcutta, during the year 1910-11 amounted to Rs. 95,802 as against Rs. 88,759 in the previous year. This increase is due to the sale of discharge and cookery certificates, the latter having been introduced during the year, and to larger receipts on account of shipping, discharging and overtime fees.

2. The expenditure of the year was Rs. 57,463 as compared with Rs. 51,932 in the previous year. This increase is chiefly due to increased leave and house allowances of officers, overtime charges and cost of forms and stationery. The last item is explained by the fact that the cost of a large number of forms of the previous year was included in that of the year under review.

Administration of Trust Funds.

3. Four Trust Funds are administered by the Shipping Master, Calcutta. The receipts of the funds during the year amounted to Rs. 68,722. This, together with the opening balance of Rs. 15,544, brought the total to Rs. 84,266. The disbursements amounted to Rs. 68,049, leaving a balance of Rs. 14,414, a sum of Rs. 1,803 having lapsed to the State.

Seamen shipped and discharged.

4. The statement below shows the number of seamen shipped and discharged under European and Indian articles at the Shipping Offices, Calcutta and Kidderpore, during the year 1910-11 as compared with the year 1909-10:—

		1909-10.	1910-11.	Increase.
Shipped—				
European articles...	...	653	948	295
Indian „ ...	...	40,658	42,887	2,229
Discharged—				
European articles ...	...	636	922	286
Indian „ ...	...	35,919	38,461	2,542

5. The number of Eurasian seamen shipped during the year under European and Indian articles is 59 and 244, respectively, being an increase of 7 and 70 over the figures of the previous year.

Cookery certificates.

6. The number of cookery certificates issued to native seamen since their introduction during the year was 36.

Seamen shipped by Foreign Consuls.

7. The number of seamen shipped and discharged during the year by Foreign Consuls was, respectively, 123 and 138.

Repatriation of seamen.

8. During the year, 132 seamen were repatriated under the Distressed Seamen's Regulations as against 84 in the previous year. The owners of the vessels concerned were liable for the expenses incurred in the majority of cases.

Seamen's money-orders.

9. The sum remitted by European seamen to their relatives was Rs. 7,747-8 in the year as compared with Rs. 12,615 in the preceding year. The decrease is largely due to the fact that the wages of the seamen repatriated to the United Kingdom being paid on arrival and adjusted with the Board of Trade by a transfer of account.

Complaints.

10. There were three cases of complaints of seamen against bad foodstuff, two of which were on examination found to be well grounded, and in each case the Port Health Officer ordered the condemned articles to be destroyed.

Seamen shipped and discharged at Orissa ports.

11. No seaman was shipped or discharged during the year at any of the Orissa ports.

By order of the Lieutenant-Governor of Bengal in Council.

T. BUTLER,

Secretary.

* The report is for the week ending the 17th June 1911.

GENERAL SUMMARY.—Rain was general all over the Province. The fall was very heavy in Angul Sambalpur, Cuttack, Cooch Behar, Darjeeling and in the districts of Bihar and Chota Nagpur except Singhbhum; it was light in Balasore and generally moderate in the remaining districts. Transplantation of paddy has commenced in some districts. Sowings and other agricultural operations have been temporarily retarded owing to the heavy rainfall in Bhagalpur, Purnea, the Sonthal Parganas, Angul and Hazaribagh. Some damage has been done by floods to paddy seedlings and other standing crops in parts of Burdwan, Murshidabad, Shahabad, Cuttack and Angul. The price of common rice has risen in Midnapore, Murshidabad, Khulna, Patna, Gaya, Champaran, Purnea, and the Sonthal Parganas, and has fallen in Jessore, Cuttack, Hazaribagh, Ranchi and Palamau. Cattle-disease is reported from Midnapore, Murshidabad, Patna, Champaran, Darbhanga, the Sonthal Parganas, Angul, Sambalpur, Hazaribagh, Ranchi and Manbhum. Some loss of cattle by floods and insufficiency of fodder are reported from parts of Murshidabad. The supply of water is sufficient throughout the Province.
